Evans,2007-07-01 This long awaited biography of Harold Rugg is a dramatic and compelling story with profound implications for today s educators Harold Rugg one of the leading progressive educators of the 20th century developed an innovative social studies program and textbook series that was censured by conservative critics during the 1940s Read the full story behind Rugg the man and the educator and the critics who attacked him Harold O Rugg was professor at Teachers College Columbia University and a key leader among the social frontier group that emerged in the 1930s to argue that schools should play a stronger role in helping to reconstruct society He was author of a best selling social studies textbook series that came under attack from patriotic and business groups in the early years of World War II The story of his rise and fall encapsulates a pivotal episode in the history of American education and reveals a great deal about the direction of schooling in American life the many roads not taken and possibilities for the future This in depth examination of Rugg s life and career provides historical perspective on the recurring struggles over education It will be of interest to every citizen concerned about the future of our democracy Includes more than 60 photos and graphics      **Hooked Rugs** Cynthia Fowler,2017-07-05 Through a close look at the history of the modernist hooked rug this book raises important questions about the broader history of American modernism in the first half of the twentieth century Although hooked rugs are not generally associated with the avant garde this study demonstrates that they were a significant part of the artistic production of many artists engaged in modernist experimentation Cynthia Fowler discusses the efforts of Ralph Pearson and of Zoltan and Rosa Hecht to establish modernist hooked rug industries in the 1920s uncovering a previously undocumented history The book includes a consideration of the rural workers used to create the modernist narrative of the hooked rug as cottage industries were established throughout the rural Northeast and South to serve the ever increasing demand for hooked rugs by urban consumers Fowler closely examines institutional enterprises that highlighted and engaged the modernist hooked rugs such as key exhibitions at the Museum of Modern Art and the Metropolitan Museum of Art in the 1930s and 40s This study reveals the fluidity of boundaries among art craft and design and the profound efforts of a devoted group of modernists to introduce the general public to the value of modern art      **The North Carolina Teacher** ,1928      *Patriotic Education in a Global Age* Randall Curren,Charles Dorn,2018-04-30 Should schools attempt to cultivate patriotism If so why And what conception of patriotism should drive those efforts Is patriotism essential to preserving national unity sustaining vigorous

commitment to just institutions or motivating national service Are the hazards of patriotism so great as to overshadow its potential benefits Is there a genuinely virtuous form of patriotism that societies and schools should strive to cultivate In *Patriotic Education in a Global Age* philosopher Randall Curren and historian Charles Dorn address these questions as they seek to understand what role patriotism might legitimately play in schools as an aspect of civic education They trace the aims and rationales that have guided the inculcation of patriotism in American schools over the years the methods by which schools have sought to cultivate patriotism and the conceptions of patriotism at work in those aims rationales and methods They then examine what those conceptions mean for justice education and human flourishing Though the history of attempts to cultivate patriotism in schools offers both positive and cautionary lessons Curren and Dorn ultimately argue that a civic education organized around three components of civic virtue intelligence friendship and competence and an inclusive and enabling school community can contribute to the development of a virtuous form of patriotism that is compatible with equal citizenship reasoned dissent global justice and devotion to the health of democratic institutions and the natural environment *Patriotic Education in a Global Age* mounts a spirited defense of democratic institutions as it situates an understanding of patriotism in the context of nationalist populist and authoritarian movements in the United States and Europe and will be of interest to anyone concerned about polarization in public life and the future of democracy *Rugg's Recommendations on the Colleges*, 1980 **College and University Education in the United States**, *Boston University Law Review* Boston University School of Law, 1922 Established in 1921 the Boston University Law Review provides analysis and commentary in all areas of the law It contains articles contributed by law professors and practicing attorneys from all over the world along with notes written by student members **National Union Catalog, 1980**, 1981 Student Life at Amherst College Rugg Cutting George Rugg Cutting, George Rugg Cutting, 2010-06-08 **American Book Publishing Record**, 1996 **A Syllabus in the Technique of Teaching in High Schools** Willis Lemon Uhl, 1923 Peterson's Guide to Two-Year Colleges 1997 Peterson's Guides Staff, Peterson's Guides, Peterson's, 1996-08-18 A reference guide to more than 1 500 community and junior colleges Problems of Science Teaching at the College Level Archer Willis Hurd, 1929 Teaching in College and University Carter Victor Good, 1929
