Grand Pursuit Sylvia Nasar,2011-09-13 In a sweeping narrative the author of the megabestseller *A Beautiful Mind* takes us on a journey through modern history with the men and women who changed the lives of every single person on the planet It s the epic story of the making of modern economics and of how economics rescued mankind from squalor and deprivation by placing its material fate in its own hands rather than in Fate Nasar s account begins with Charles Dickens and Henry Mayhew observing and publishing the condition of the poor majority in mid nineteenth century London the richest and most glittering place in the world This was a new pursuit She describes the often heroic efforts of Marx Engels Alfred Marshall Beatrice and Sydney Webb and the American Irving Fisher to put those insights into action with revolutionary consequences for the world From the great John Maynard Keynes to Schumpeter Hayek Keynes s disciple Joan Robinson the influential American economists Paul Samuelson and Milton Freedman and India s Nobel Prize winner Amartya Sen she shows how the insights of these activist thinkers transformed the world from one city London to the developed nations in Europe and America and now to the entire planet In Nasar s dramatic narrative of these discoverers we witness men and women responding to personal crises world wars revolutions economic upheavals and each other s ideas to turn back Malthus and transform the dismal science into a triumph over mankind s hitherto age old destiny of misery and early death This idea unimaginable less than 200 years ago is a story of trial and error but ultimately transcendent as it is rendered here in a

stunning and moving narrative Modern England 1901-1970 Alfred Havighurst, 1976-05-13 This is a comprehensive bibliography of all printed books articles and standard texts on England Ireland Scotland the Commonwealth and the colonies up to 1970 This handbook will serve as a useful guide to scholars teachers at all levels advanced students and the general reader interested in examining the period in some depth **The Life of George Ranken Askwith, 1861-1942** Alison Heath, 2015-10-06 George Ranken Askwith was a key figure in the development of British industrial relations This new biography is based on a wide range of archival sources including government records newspaper articles Askwith's personal correspondence and his wife's private diaries *Class Society at War* Bernard Waites, 2014-03-04 Research into the impact of the First World War on European societies has recently begun on a major scale and Dr Waites has been one of the pioneers in this field in Britain His book considers the War's effects on such major issues as popular images of class the distribution of income and wealth in society social relations within the working class class consciousness and the educational experiences of children from different backgrounds This study is noteworthy not only for its wide range of hitherto unpublished sources but also for its attempt to bring social theory to bear upon the study of class relations in England during the first of this century's total wars **Élie Halévy** K. Steven Vincent, 2020-06-26 An intellectual biography of the renowned and influential observer of the era of tyrannies Halévy 1870-1937 was one of the most respected and influential intellectuals of the French Third Republic In this densely contextualized biography K. Steven Vincent describes how Halévy best remembered as the historian of British Utilitarianism and nineteenth century English history was also a persistent acute and increasingly anxious observer of society in a period defined by industrialization and imperialism and by what Halévy famously called the era of tyrannies Vincent distinguishes three broad phases in the development of Halévy's thought In the first Halévy brought his version of neo-Kantianism to debates with sociologists and philosophers and to his study of English Utilitarianism He forged ties with Xavier Léon Léon Brunschvicg and Alain mile Auguste Chartier life-long intellectual interlocutors Together they founded the *Revue de métaphysique et de morale* a continuing venue for Halévy's reflections The Dreyfus Affair Vincent argues caused Halévy to shift his focus from philosophy to history and from metaphysics to politics He became a philosopher-historian less interested in abstract neo-Kantianism and more in real-world action less given to rarified debates over truth and more to investigation of how theories and their applications were situated within broader political economic and cultural movements World War I and its destabilizing effects provoked the third phase Vincent explains As he watched reason recede before rabid nationalism and a pox of political enthusiasms Halévy sounded the alarm about liberal democracy's vulnerabilities Vincent situates Halévy on the unsteady and narrowing middle ground between state socialism and fascism showing how he defended liberalism while at the same time appreciating socialists' analyses of capitalism's negative impact and their calls for reform and greater economic equality Through his analysis of Halévy's life and works Vincent illuminates the complexity of the Third Republic's philosophical historical and political thought and concludes with
