

# OPTIONAL RULES

## PUSH DAMAGE

When you push a target but its movement got stopped before it has traveled the full distance (because of an obstacle such as a wall, a tree, a barrel etc.), then the target takes 1d4 bludgeoning damage for each 5 feet of movement it hasn't been able to travel.

## LESS RANDOM INITIATIVE

When you roll initiative, roll 3d6 instead of 1d20. This optional way to roll initiative favors the creatures that have a higher initiative bonus so that they are more often on the firsts ones to act.

## SUMMONED CREATURES INITIATIVE

The creatures conjured/summoned by a spell or a feature always play their turn directly after the creature that conjured/summoned them. If a same character controls multiple conjured creatures, the first one to play is the one with the highest dexterity. In case of an equality, the conjurer chooses which one acts first.

## HOLDING BREATH

When you take damage while you are holding your breath, you must make a constitution saving throw with a DC equal to 10 or half the damage you take, whichever number is higher. On a fail, you stop holding your breath.

ART CREDIT : WIZARDS OF THE COAST

## POTION INTERACTION

Taking a potion from your package counts as an object interaction. Drinking a potion is also an object interaction. So you can keep a potion ready in your hand and drink it more easily if needed.

## SPELL SCROLLS FOR EVERYONE

Everyone can use any spell scrolls, even if they can't cast spells. The spellcasting modifier is Intelligence for all scrolls/spells. If the spell is of a level higher than half your character level, you must make an Intelligence (arcana) check with a DC equal to 8 + twice the spell's level. On a failed check, the spell fails and the scroll becomes unusable for the next 24 hours.

## SWIMMING IN ARMOR

When you start your turn submerged in a liquid (you are underwater for instance), you sink a number of feet that depends on your encumbrance (the weight you are carrying).

Encumbrance	Sink Distance
2.5 times your strength	5 ft.
5 times your strength	10 ft.
7.5 times your strength	15 ft.
