of actions check bet call raise and fold The purpose of this book is to provide a uniform set of rules for the most popular poker games spread in public cardrooms Some rules apply to all games Some apply to particular games In deciding upon which rules to use the rulebooks of nearly every major cardroom in the country have been consulted Where rules differ the authors have given preference to the rule that best serves the interest of fairness in the game Indeed that is one of the first rules of the game that all rules should be interpreted with the spirit of the game in mind Beyond the issue of fairness which is paramount the next greatest weight has been given to the efficiency of the game getting more hands out per hour benefits everyone players get more hands the house gets more rake dealers get more tips After fairness and efficiency the next most important factor is simplicity All other things being equal where there is a simple and a complicated way to do things the simpler rule has been chosen Lastly tradition has been considered. The game has a great history and the aforementioned variables being equal the traditional rule has been given preference Fairness Efficiency Simplicity and Tradition the foundations of the Rules of Poker An additional factor in establishing rules is inducing action Although it is not as important as the other influences action is important to the game Rules can be constructed and interpreted to encourage action or to inhibit it All other things being equal when one rule would limit action and another would induce it the authors have given preference to the rule that will encourage players to get involved and play the hand That said there are other reasons for preferring one rule to another When several different rules applying to a certain situation meet the tests of fairness efficiency simplicity and tradition the preferred rule is listed first and an alternate rule or rules if there are several are listed afterward as Alternate Rules At times explanatory notes and or examples are added after a rule When interpreting a rule the explanatory notes and examples should be taken into consideration These notes and examples together with the Definitions and Appendices for suggested procedures at the end of the Rules are the components of Cooke's Rules of Real Poker While some players and cardroom managers may not agree with all the rules included it is hoped that the comprehensiveness of Cooke s Rules of Real Poker will result in it being used as a standard in cardrooms across the country The inclusion of alternate rules that may be used in lieu of the preferred rule at the discretion of cardroom management is an attempt to address the legitimate differences of opinion regarding exactly what rule should be in force at a given establishment Cardrooms will have the choice of adopting Cooke's Rules exactly as they stand or Cooke's Rules as modified by house policy
