

A Poem Of Ruminations

**I was confidence personified
I was fire that can't be put off**

**I also had this thirst, unquenchable
You see, like every other, I too
Was engaged in those feelings
All because you loved me**

Ah, the confidence

**That love can instill!
What I was made to believe
All because you loved me**

**Now, I chew the cud off
The stuff ruminations
Are made of!
All because you once loved me**

Poetic Inquiry: Unearthing the Rhizomatic Array Between Art and Research Adam Vincent, 2022-08-02 This book identifies and describes facets of poetic inquiry a research method methodology tool that uses poetry in the research process information gathering analysis and or dissemination Specifically this book explores how and why it is in use provides revelations around its unparalleled function s in research and presents an exemplification of a close reading approach trialled in the study framed in the book that can draw further knowledge from the products of poetic inquiry studies Poetic inquiry studies are somewhat established and their findings are being published in academic journals and books however poetic inquiry is currently undertheorized and noticeably missing from notable research methods textbooks and publications that discuss the merits of arts based research This may have the negative result of knowledge being lost or overlooked that could hold answers to previously unanswered questions that exist across the disciplines In response to this problem this book drawing from the doctoral research study therein highlights poetic inquiry s theoretical underpinnings and pragmatic uses in research and scholarship that can be adopted and adapted by new and established scholars This is done using the tenets of poetic inquiry as a frame and includes in depth literature review and an

exploration of the findings of interview with four notable poetic inquiry scholars in education in Canada Detailed profiles for each participant have been created to analyze and emphasize their distinctive poetics and approaches to scholarship Lastly this book considers ways that poetic inquiry can inform teaching practices as poetry is seen to permeate the participants lives and influence their approaches to teaching at the post secondary level This book is written for both early career and well established scholars who have an interest in exploring ways that poetic inquiry which marries art and epistemology can enhance their research and teaching practices *Faith and Power in Japanese Buddhist Art, 1600-2005* Patricia J.

Graham,2007-09-30 *Faith and Power in Japanese Buddhist Art* explores the transformation of Buddhism from the premodern to the contemporary era in Japan and the central role its visual culture has played in this transformation Although Buddhism is generally regarded as peripheral to modern Japanese society this book demonstrates otherwise Its chapters elucidate the thread of change over time in the practice of Buddhism as revealed in temple worship halls and other sites of devotion and in imagery representing the religion s most popular deities and religious practices It also introduces the work of modern and contemporary artists who are not generally associated with institutional Buddhism and its canonical visual requirements but whose faith inspires their art The author makes a persuasive argument that the neglect of these materials by scholars results from erroneous presumptions about the aesthetic superiority of early Japanese Buddhist artifacts and an asserted decline in the institutional power of the religion after the sixteenth century She demonstrates that recent works constitute a significant contribution to the history of Japanese art and architecture providing evidence of Buddhism s compelling presence at all levels of Japanese society and its evolution in response to the needs of new generations of supporters The Poem Don
