Rumke Religie En Godsdienstpsychologie:

Psychology of Religion Jacob A. van Belzen, 2012-01-16 In the past four decades or so the so called psychology of religion after having been deemed extinct impossible or unlikely has risen to prominence again the number of publications is rapidly growing an impressive secondary literature handbooks introductions etc is available already infrastructure has been developed a number of new journals devoted to the subject have been founded organizations have been established increasingly funding is going to the area attracting many new researchers Organizations like the American Psychological Association are now publishing in the field of psychology of religion and its Div 36 psych of rel with almost 3 000 members is already midsized among the APA divisions This book documents this re emergence and development **Belief and**

Unbelief Corveleyn, 2023-09-20 **Hermeneutical Approaches in Psychology of Religion**, 1997 Contemporary psychology is reviving with new vigor an interest in hermeneutics or the human science of interpretation After a period in which positivistic and statistical approaches have been dominant new methods are being explored Most of these focus on narrative cultural analysis embodiment and interdisciplinarity Because of its specific object of study psychology of religion has never been without an hermeneutical emphasis In this field of psychology scholarship these new directions are especially welcomed as they offer perspectives for research which attempts to interpret religion as a human phenomenon This volume presents hermeneutical psychological studies on religion which rely on both classical and contemporary approaches Dealing with topics like mysticism religious symbols life stories and mental health contributions to the volume draw on a variety of perspectives These range from psychoanalysis narrative psychology and feminism to perspectives drawn deep from the wellspring of interdisciplinary collaboration with anthropology and history **The Emergence of the Science of Religion in the Netherlands** Arie Molendijk, 2018-08-14 This book explores the emergence of the science of religion in the Netherlands in the second half of the nineteenth century The emphasis is on processes of institutionalization professionalization and internationalization on the one hand and on contemporary discussions about method and conceptualization on the other

Disciplining Freud on Religion Greg Kaplan, William Parsons, 2010-08-04 It is well known that in formulating his general theoretical framework and views on religion Freud drew on multiple disciplines within the natural and social sciences as well as from the humanities This edited collection adds to the continued multidisciplinary interest in Freud by focusing on his understanding and interpretation of _as well as his relationship to _religion It disciplines Freud by situating his work on religion from the methodological interests and theoretical advances found in diverse disciplinary contexts Scholars within the field of religious studies Jewish Studies philosophy and the natural sciences bring together their diverse voices to heighten the academic understanding of Freud on religion The contributors aim to establish closer and more direct interdisciplinary communication and collaboration with regard to Freudian Studies This volume should appeal to a wide range of scholars for upper level undergraduate and graduate classes and those training in psychoanalysis **Aspects in Contexts**, 2021-07-26

Psychology of religion has been enjoying considerable attention of late the number of publications and people involved in the field is rapidly increasing It is however one of the oldest branches within psychology in general and one of the few in which an interdisciplinary approach has been kept alive and fostered The fate of the field has been quite varied in the countries where psychology of religion has been initiated and developed during the 20th century In this volume some aspects of this international history are examined Coming from six different Western countries each of the contributors has a record in the historiography of psychology and profound knowledge of psychology of religion Their approaches combine elements from the history of mentalities the social history of science and biographical studies The volume contains in depth treatments of such topics as the growth of the field as reflected in university politics developments within international organizations and the personal involvement of contributors to the field A wealth of information is provided on the background of the work of well known psychologists of religion like James Henry Leuba Oskar Pfister Gordon Allport Werner Gruehn Antoine Vergote and others

Controversy and Challenge Herman Westerink, 2009 In this study the engagement of scholars in theology and religious studies with Freudian psychoanalysis is examined The book focuses on the explicit or implicit theological ideas and aims that have determined its reception The analysis includes a review of Freud's theories as suggestions for reconfigurations of psychoanalysis are made in order to further theorize on concepts or fields of attention that are important in theology and religious studies The aim of this double critical review is to establish what the theoretical potential of Freud's psychoanalysis might be

Research in the Social Scientific Study of Religion Ralph L. Piedmont, Andrew Village, 2009 Research in the Social Scientific Study of Religion publishes empirical and theoretical studies of religion from a wide range of disciplines and from all parts of the globe This volume has a special section on Islam and Mental Health an important and neglected area of study The section draws on work from six countries that have applied different theoretical frameworks and empirical methods to examine the link between religion psychology and health in very diverse Muslim communities Other articles examine topics as diverse as spirituality psychological health conversion and the cultural psychology of religion Disciplines represented include those that draw on qualitative quantitative and theoretical methods of study which together represent an important contribution to the contemporary study of religion

Modern Societies & the Science of Religions Gerard Wieggers, 2018-11-13 This book brings together

studies by seventeen specialists in the science of religions in which they relate the changes in their discipline to the changes which have occurred in a select number of modernising societies worldwide. It attempts to study these developments in their relation to and as conditioned and constrained by cultural change, changes in educational systems, technology, population, for example, migration, economic patterns, politics, and last but not least, religious systems. The essays focus on resp. France, Germany, the Netherlands, Spain, the USA, Turkey, Israel, Morocco, Saudi Arabia, South Africa, Indonesia, Japan, and China. Written in honour of Dr Lammert Leertouwer, professor of History of Religions and the Comparative Study of Religions at Leiden University from 1979 until his retirement in 1997, the book is particularly important for all those who are interested in the religious, social, and political contexts of the academic Study of Religions in general and in the various countries dealt with in particular.

Practical Theology Gerben Heitink, 1999. This work by a leading figure in the field offers one of the first attempts to formulate a complete theory of practical theology for scholars, teachers, students, and those directly involved in pastoral ministry. Designed to serve as a reference tool, this volume provides the necessary theoretical discussion for work in the entire discipline of practical theology. Gerben Heitink first surveys the historical development of practical theology from the thought of Schleiermacher to the present. He then outlines the theoretical aspects of practical theology, looking especially at the hermeneutical, empirical, and strategic points of view. Finally, Heitink discusses the various contexts in which practical theology takes place.

Over religie H.M. Kuitert, 2000. Historische verkenning van het predikantschap en praktisch theologische bezinning op de mogelijkheden om dit ambt in de toekomst voor de kerk zinvol en voor de beoefenaren vreugdevol te maken.

Religionspsychologie Jacob A. van Belzen, 2015-05-11. Religionspsychologie ist erneut dabei in Mode zu kommen. Doch was ist Religionspsychologie? Diese und andere interessante Fragen werden beantwortet, indem sich der Autor der International Association for the Psychology of Religion zuwendet, die 2015 ihr erstes Jahrhundert vollendet und damit eine der ältesten Organisationen in der Psychologie, den Religionswissenschaften und der Theologie ist. Ihre Geschichte war bewegt, lag aber bisher weitgehend im Dunkeln. Dieses spannend geschriebene Buch bietet nicht nur eine Fülle von Details zur Geschichte und Gegenwart des Faches, sondern vor allem auch eine hervorragende Grundlage für eine Bestandsaufnahme und Evaluierung der Religionspsychologie. Kritisch, aber nicht ohne Humor, ist es einzigartig im ständigen Einbeziehen internationaler Perspektiven. Empfehlenswert für jeden an Religionspsychologie Interessierten.
