Runaway Slave Settlements in Cuba Gabino La Rosa Corzo,2004-07-21 Combining archaeological and historical methods Gabino La Rosa Corzo provides the most detailed and accurate available account of the runaway slave settlements palenques

that formed in the inaccessible mountain chains of eastern Cuba from 1737 to 1850 decades before the end of slavery on the island The traces that remain of these communities provide important clues to historical processes such as slave resistance and emancipation anticolonial insurgency and the emergence of a free peasantry Some of the communities developed into thriving towns that still exist today La Rosa challenges the claims of previous scholars and demonstrates how romanticized the communities have become in historical memory In part by using detailed maps drawn on site La Rosa shows that palenques were smaller and fewer in number than previously thought and they contained mostly local rather than long distance fugitives In addition the residents were less aggressive and violent than myth holds often preferring to flee rather than fight a system of oppression that was even more effective and organized than generally supposed La Rosa's study illuminates many social and economic issues related to the African diaspora in the Caribbean with particular focus on slavery resistance and independence This translation makes the book available in English for the first time *My First Kafka*

Bhutto vividly renders the seductions of Islamic radicalization and its universal roots in idealism and desire rage and romance youth and rebellion Viet Thanh Nguyen author of *The Sympathizer* The lives of three radicalized Muslim teenagers two from Pakistan one from the United Kingdom intersect in the Iraqi desert as they travel to a jihadi training camp in Mosul Anita lives in Karachi's biggest slum Her mother is a maalish wali paid to massage the tired bones of rich women But Anita's life will change forever when she meets her elderly neighbor a man whose shelves of books promise an escape to a different world On the other side of Karachi lives Monty whose father owns half the city and expects great things of him But when a beautiful and rebellious girl joins his school Monty will find his life going in a very different direction Sunny's father left India and went to England to give his son the opportunities he never had Yet Sunny doesn't fit in anywhere It's only when his

Empire of Brutality Christopher Michael Blakley, 2023-08-23 In the early modern British Atlantic world the comparison of enslaved people to animals particularly dogs cattle or horses was a common device used by enslavers to dehumanize and otherwise reduce the existence of the enslaved Letters memoirs and philosophical treatises of the enslaved and formerly enslaved bear testament to the methods used to dehumanize them In *Empire of Brutality* Christopher Michael Blakley explores how material relationships between enslaved people and animals bolstered the intellectual dehumanization of the enslaved By reconsidering dehumanization in the light of human animal relations Blakley offers new insights into the horrific institution later challenged by Black intellectuals in multiple ways Using the correspondence of the Royal African Company specimen catalogs and scientific papers of the Royal Society plantation inventories and manuals and diaries kept by slaveholders Blakley describes human animal networks spanning from Britain s slave castles and outposts throughout western Africa to plantations in the Caribbean and American Southeast They combine approaches from environmental history history of science and philosophy to examine slavery from the ground up and from the perspectives of the enslaved Blakley s work reveals how African captives who became commodified through exchanges of cowry sea snails between slavers in the Bight of Benin later went on to collect zoological specimens in Barbados and Virginia for institutions such as the Royal Society On plantations where enslaved people labored alongside cattle donkeys horses and other animals to make the agricultural fortunes of slaveholders Blakley shows how the enslaved resisted these human animal pairings by stealing animals for their own purposes such as fugitives who escaped their slaveholder s grasp by riding stolen horses Because of experiences like these writers and thinkers of African descent who survived slavery later attacked the institution in public as fundamentally dehumanizing one that corrupted the humanity of both slaveholders and the enslaved

Runaway Children S Hariharan, 2015-01-30 It was quite chilly and I got up with a start feeling the roadside dirt on my lips I was at this time one of many children on the street dirty hungry with nowhere to go The night s stale loaf of bread had already been digested and I was ravenous Nevertheless I started the morning s work This was at a tea shop where I carried fifty buckets of water two at a time over some hundred meters The chore took the best part of two hours and young as I was I could have eaten a ton by the end of it Instead I got a fistful of watery rice and a cup of tea We laboured a good fourteen hours each day not for money but from the dire need of those few and paltry meals Come night we fell asleep on cold bare floors and crawling insects feasted on our shivering flesh This book is for all the sorry street bound children of our world vulnerable struggling to get by on a few rupees and embraced only by despair As citizens and as humans we must pull them out from this state educate them give them homes and above all their lost childhood S Hariharan runs a BPO business and lives in Mumbai with his wife and two children An avid traveller he plans to cover 200 countries before he turns sixty He is

passionate about cooking philosophy and improving the life of street children across the world The author can be reached at hariharan pacesetters co in
