Running Away From Richard Isis General Fiction:

Black Cloud Rising David Wright Faladé, 2022-02-15 Already excerpted in the New Yorker *Black Cloud Rising* is a compelling and important historical novel that takes us back to an extraordinary moment when enslaved men and women were shedding their bonds and embracing freedom By fall of 1863 Union forces had taken control of Tidewater Virginia and established a toehold in eastern North Carolina including along the Outer Banks Thousands of freed slaves and runaways flooded the Union lines but Confederate irregulars still roamed the region In December the newly formed African Brigade a unit of these former slaves led by General Edward Augustus Wild a one armed impassioned Abolitionist set out from Portsmouth to hunt down the rebel guerillas and extinguish the threat From this little known historical episode comes *Black Cloud Rising* a dramatic moving account of these soldiers men who only weeks earlier had been enslaved but were now Union infantrymen setting out to fight their former owners At the heart of the narrative is Sergeant Richard Etheridge the son of a slave and her master raised with some privileges but constantly reminded of his place Deeply conflicted about his past Richard is eager to show himself to be a credit to his race As the African Brigade conducts raids through the areas occupied by the Confederate Partisan Rangers he and his comrades recognize that they are fighting for more than territory Wild's mission is to prove that his troops can be trusted as soldiers in combat And because many of the men have fled from the very plantations in their path each raid is also an opportunity to free loved ones left behind For Richard this means the possibility of reuniting with Fanny the woman he hopes to marry one day With powerful depictions of the bonds formed between fighting men and heartrending scenes of sacrifice and courage *Black Cloud Rising* offers a compelling and nuanced portrait of enslaved men and women crossing the threshold to freedom

Terrorist John Updike, 2007-05-29 From one of the most gifted American writers of the twentieth century and the author of the acclaimed Rabbit series A chilling tale that is perhaps the most essential novel to emerge from September 11 People about an eighteen year old devoted to Allah who's convinced he's discovered God's purpose for him The most satisfactory elements in *Terrorist* are those that remind us that no amount of special pleading can set us free of history no matter how oblivious and unresponsive to it we may be The New York Times Book Review The terrorist of John Updike's title is eighteen year old Ahmad Ashmawy Mulloy the son of an Irish American mother and an Egyptian father who disappeared when he was three Devoted to Allah and to the Qur'an as expounded by the imam of his neighborhood mosque Ahmad feels his faith threatened by the materialistic hedonistic society he sees around him in the slumping New Jersey factory town of New Prospect Neither Jack Levy his life weary guidance counselor at Central High nor Joryleen Grant his seductive black classmate succeeds in diverting Ahmad from what the Qur'an calls the Straight Path Now driving a truck for a local Lebanese furniture store a job arranged through his imam Ahmad thinks he has discovered God's purpose for him But to quote the Qur'an Of those who plot God is the best

Information Wars Richard Stengel, 2019-10-08 A well told insider account of the State Department s twenty first century struggle to defend America against malicious propaganda and disinformation The Washington Post

Disinformation is nothing new When Satan told Eve nothing would happen if she bit the apple that was disinformation But today social media has made disinformation even more pervasive and pernicious In a disturbing turn of events authoritarian governments are increasingly using it to create their own false narratives and democracies are proving not to be very good at fighting it During the final three years of the Obama administration Richard Stengel former editor of Time was an Under Secretary of State on the front lines of this new global information war tasked with unpacking disproving and combating both ISIS s messaging and Russian disinformation Then during the 2016 election Stengel watched as Donald Trump used disinformation himself In fact Stengel quickly came to see how all three had used the same playbook ISIS sought to make Islam great again Putin tried to make Russia great again and we know the rest In Information Wars Stengel moves through Russia and Ukraine Saudi Arabia and Iraq and introduces characters from Putin to Hillary Clinton John Kerry and Mohamed bin Salman to show how disinformation is impacting our global society He illustrates how ISIS terrorized the world using social media and how the Russians launched a tsunami of disinformation around the annexation of Crimea a scheme that would become a model for future endeavors An urgent book for our times now with a new preface from the author

Information Wars challenges us to combat this ever growing threat to democracy A refreshingly frank account revealing

Words on Cassette ,1999 Leviathan and the Air-Pump Steven Shapin, Simon Schaffer, 2011-08-15 Leviathan and the Air Pump examines the conflicts over the value and propriety of experimental methods between two major seventeenth century thinkers Thomas Hobbes author of the political treatise Leviathan and vehement critic of systematic experimentation in natural philosophy and Robert Boyle mechanical philosopher and owner of the newly invented air pump The issues at stake in their disputes ranged from the physical integrity of the air

pump to the intellectual integrity of the knowledge it might yield Both Boyle and Hobbes were looking for ways of establishing knowledge that did not decay into ad hominem attacks and political division Boyle proposed the experiment as cure He argued that facts should be manufactured by machines like the air pump so that gentlemen could witness the experiments and produce knowledge that everyone agreed on Hobbes by contrast looked for natural law and viewed experiments as the artificial unreliable products of an exclusive guild The new approaches taken in *Leviathan* and the Air Pump have been enormously influential on historical studies of science Shapin and Schaffer found a moment of scientific revolution and showed how key scientific givens facts interpretations experiment truth were fundamental to a new political order Shapin and Schaffer were also innovative in their ethnographic approach Attempting to understand the work habits rituals and social structures of a remote unfamiliar group they argued that politics were tied up in what scientists did rather than what they said Steven Shapin and Simon Schaffer use the confrontation between Hobbes and Boyle as a way of understanding what was at stake in the early history of scientific experimentation They describe the protagonists divergent views of natural knowledge and situate the Hobbes Boyle disputes within contemporary debates over the role of intellectuals in public life and the problems of social order and assent in Restoration England In a new introduction the authors describe how science and its social context were understood when this book was first published and how the study of the history of science has changed since then
