Relentless Forward Progress Bryon Powell, 2011 Marathons have become too easy for some runners What was once the pinnacle of

achievement in a runner's life is now a stepping stone for extraordinary adventure in ultramarathoning. The number of ultrarunners, those running distances of 50k, 31 miles, 50 miles, 100k, 62 miles or 100 miles, is growing astronomically each year. Dean Karnazes' *Ultramarathon Man* and Chris McDougall's *Born to Run* have inspired tens of thousands to try these seemingly superhuman distances. But to date there has been no practical guide to ultramarathoning. Now Bryon Powell has written *Relentless Forward Progress*, the first how-to manual for aspiring ultrarunners. Powell covers every aspect of training for and racing ultra distances. This encyclopedic volume prepares runners for going farther than they have ever gone before and in the process shows them that they are capable of the impossible. *Ahead of the Curve* Brian Kenny, 2016-07-05

MLB Network host and commentator Brian Kenny uses stories from baseball's present and past to examine why we sometimes choose ignorance over information and how tradition can trump logic even when directly contradicted by evidence. **Blue Sky Kingdom** Bruce Kirkby, 2020-10-06 A warm and unforgettable portrait of a family letting go of the known world to encounter an unfamiliar one filled with rich possibilities and new understandings. Bruce Kirkby had fallen into a pattern of looking mindlessly at his phone for hours, flipping between emails and social media, ignoring his children and wife and everything alive in his world. When a thought struck him, this wasn't living, this wasn't him. This moment of clarity started a chain reaction which ended with a grand plan: he was going to take his wife and two young sons, jump on a freighter and head for the Himalaya. In *Blue Sky Kingdom*, we follow Bruce and his family's remarkable three-month journey where they would end up living amongst the Lamas of Zaskar Valley, a forgotten appendage of the ancient Tibetan empire and one of the last places on earth where Himalayan Buddhism is still practiced freely in its original setting. Richly evocative, *Blue Sky Kingdom* explores the themes of modern distraction and the loss of ancient wisdom, coupled with Bruce coming to terms with his elder son's diagnosis on the Autism Spectrum. Despite the natural wonders all around them at times, Bruce's experience will strike a chord with any parent from rushing to catch a train with the whole family to the wonderment and beauty that comes with experiencing the world anew with your children. **The Olympic Textbook of Science in Sport** Ronald J. Maughan, 2008-12-15 This new volume in the *Encyclopaedia of Sports Medicine* series, published under the auspices of the International Olympic Committee, delivers an up-to-date state-of-the-art presentation of the scientific aspects of conditioning, injury prevention and competition. The book covers the key areas of scientific knowledge in sport and is divided into physiology and biochemistry, nutrition, anthropometry, immunology, cell biology, biomechanics, engineering and ergonomics, psychology, pharmacology, limitations to performance, special populations and exercise and health.
