Hook, 2007

Harvey Hook touches on the legacy each one of us hopes to leave Hook explores the concept of redemptive action how each of us can impact the world around us He uses true life stories of people in ordinary life who were plunged into remarkable circumstances and achieved extraordinary things Using both stories that are current and historical stories of younger and older people alike this book will appeal to a wide range of people From these stories the author derives insights and truths to help others apply themselves to make a difference in this world **Race across America** Charles B. Kastner, 2020-01-03

2020 Peace Corps Writers Paul Cowan Award for the Best Book of Non Fiction On April 23 1929 the second annual Transcontinental Foot Race across America known as the Bunion Derby was in its twenty fifth day Eddie the Sheik Gardner an African American runner from Seattle was leading the race across the Free Bridge over the Mississippi River Along with the signature outfit that earned him his nickname a white towel tied around his head white shorts and a white shirt Gardner wore an American flag a reminder to all who saw him run through the Jim Crow South that he was an American and the leader of the greatest footrace in the world Kastner traces Gardner s remarkable journey from his birth in 1897 in Birmingham Alabama to his success in Seattle Washington as one of the top long distance runners in the region and finally to his participation in two transcontinental footraces where he risked his life facing a barrage of harassment for having the

audacity to compete with white runners Kastner shows how Gardner's participation became a way to protest the endemic racism he faced heralding the future of nonviolent efforts that would be instrumental to the civil rights movement Shining a bright light on his extraordinary athletic accomplishments and his heroism on the dusty roads of America in the 1920s Kastner gives Gardner and other black bunioneers the attention they so richly deserve **Anything For a T-Shirt** Ron Rubin, 2004-11-01 Fred Lebow was a dreamer the kind of dreamer who pursued his dream and made it a reality And the world is still reaping its rewards So begins this inspiring chronicle of a humbly born Holocaust survivor who parlayed natural marketing smarts and vision into a major position in recent American sports He started the New York City Marathon an event that transformed footracing from an elite austere sport into a wildly applauded attainable pursuit for all Forging a path across the city's five boroughs the marathon covers a daunting 26.2 mile course Ron Rubin's fascinating book tells how Lebow popularized the race With a stroke of marketing wizardry he turned it into the world's largest block party a gritty mixture of urban theater and kindly entrepreneurship This event has honored the spirit of the moment imbued competition with joy and celebrated play It put winning within the realm of every man and woman and became a race for all runners Lebow mainstreamed the notion of marathoning into popular culture some half million Americans now participate in the events Equally significant the book describes how Lebow scored his greatest personal victory by running in the marathon he created after being diagnosed with brain cancer **Blacks at the Net** Sundiata Djata, 2006-01-30 While much has been written about black triumphs in boxing baseball and other sports little has been said of similar accomplishments in tennis In this book the first is the first volume dedicated to that subject Sundiata Djata more than cites facts and figures he explores obstacles to such performance such as the discrimination that kept blacks out of pro tennis for decades He examines the role that this white sport traditionally played in the black community And he provides keen insights into the politics of professional sports and the challenges faced by today's black players Drawing on original and published interviews life writings and newspaper articles the author offers an in depth look at black participation in tennis from the first courts in Tuskegee in 1880 to players Reginald Weir and Gerald Norman Jr who challenged racism in the U S Lawn Tennis Association in the 1920s from Harlem teen Bob Ryland's historic match with two white women in 1944 to the achievements of acclaimed later stars like Althea Gibson Arthur Ashe Yannick Noah and Venus and Serena Williams Thoroughly researched and comprehensive in scope the work's eventual two volumes will cover identity and black tennis in aboriginal Australia North and South Africa the Caribbean and the Americas it is an ideal read for tennis players sports historians readers of black history and or black sports figures and all who are interested in the sport **Muscle and Manliness** Axel Bundgaard, 2005-07-11 Axel Bundgaard has produced a meaningful work on the important but little told history of interschool athletics exploring the introduction and nature of sport in the controlled environment of the American boarding school Beginning in the late eighteenth century American educators looked to the English public school as the educational

archetype for producing good men good Christians and good leaders The British incorporation of sport into the process of education however took root only slowly in the United States where it seemed alien to Puritan values extolling hard work and deploring play as wasted time Only when educators were convinced that sport was an essential tool in the process of raising the next generation by building character team spirit and leadership did the informal physical play initiated by students in early schools begin to evolve toward the highly organized school sponsored sports of today Using archival material from several eastern boarding schools founded in the eighteenth and nineteenth centuries Bundgaard traces this process from its beginnings in the muscular Christianity prevailing in the boarding schools of Victorian England most notably Rugby There athletics and the prefect system older boys shaping the manners and morals of younger ones were used to mold youth into Christian gentlemen and it was believed that the seeds of future military victories were planted on the school playing fields Bundgaard shows how this model of sport and character building was gradually absorbed into the classical curricula of private education in America and then continues to chronicle the dramatic changes in this model through the first decade of the twentieth century as educational philosophies evolved and an ideal of physical vigor and conduct befitting a gentleman emerged Drawing on archival sources at Groton Andover Exeter St Paul s Suffield Williston Woodberry Forest and Worcester Academy interviews personal communications school newspapers and histories of various institutions Bundgaard provides a new critical perspective on the evolution of play and sports for schoolboys This book will stimulate research on the broader subject of American secondary school athletics and pique the interest of sport historians educators and a general audience

Playing Nice and Losing Ying Wushanley, 2004-04-01 For nearly a century women physical educators kept an iron fist control of women s intercollegiate athletics within the sex separate spheres of college campuses and under an educational model of competition According to the author Ying Wushanley that control began to loosen significantly when Congress passed Title IX of the Education Amendments in 1972 Title IX meant greater opportunities for women in educational activities including intercollegiate athletics Ten years after the passage of the law however women not only gave up their educational model but also lost their power and control of women s intercollegiate athletics *Playing Nice and Losing* looks into the evolution of women s intercollegiate athletics from a historical perspective and examines the demise of the Association for Intercollegiate Athletics for Women AIAW Five major themes emerge the movement from protectionism to sex separation of women s college sports the ascendance of women s sports as a result of the Cold War and power struggle within U S amateur sports the challenge to the sex separatist philosophy the NCAA takeover and bankruptcy of the AIAW and the defeat of the AIAW as a defender of these separate but equal doctrine With Title IX and formerly men s organizations entering the governance of women s intercollegiate athletics sustaining the sex separatist AIAW became untenable in American society

Black Baseball Entrepreneurs, 1860-1901 Michael E. Lomax, 2003-04-01 Here is the first in depth account of the birth of black baseball and its dramatic passage from grass roots venture to commercial enterprise In the late

nineteenth century resourceful black businessmen founded ball teams that became the Negro Leagues Racial bias aside they faced vast odds from the need to court white sponsors to negotiating ball parks With no blacks in cities they barnstormed small towns to attract fans employing all manner of gimmickry to rouse attention Drawing on major newspapers and obscure African American journals the author explores the diverse forces that shaped minority baseball He looks unflinchingly at prejudice in amateur and pro circles and constant inadequate press coverage He assesses the impact of urbanization migration and the rise of northern ghettos and he applauds those bold innovators who forged black baseball into a parallel club that appealed to whites yet nurtured a uniquely African American playing style This was black baseball s finest hour at once a source of great ethnic pride and a hard won pathway for integration into the mainstream The New Cathedrals

The Sport of Kings and the Kings of Crime Steven A. Riess, 2011-06-24

Thoroughbred racing was one of the first major sports in early America Horse racing thrived because it was a high status sport that attracted the interest of both old and new money It grew because spectators enjoyed the pageantry the exciting races and most of all the gambling As the sport became a national industry the New York metropolitan area along with the resort towns of Saratoga Springs New York and Long Branch New Jersey remained at the center of horse racing with the most outstanding race courses the largest purses and the finest thoroughbreds Riess narrates the history of horse racing detailing how and why New York became the national capital of the sport from the mid 1860s until the early twentieth century The sport's survival depended upon the racetrack being the nexus between politicians and organized crime The powerful alliance between urban machine politics and track owners enabled racing in New York to flourish Gambling the heart of racing's appeal made the sport morally suspect Yet democratic politicians protected the sport helping to establish the State Racing Commission the first state agency to regulate sport in the United States At the same time racetracks became a key connection between the underworld and Tammany Hall enabling illegal poolrooms and off course bookies to operate Organized crime worked in close cooperation with machine politicians and local police officers to protect these illegal operations In The Sport of Kings and the Kings of Crime Riess fills a long neglected gap in sports history offering a richly detailed and fascinating chronicle of thoroughbred racing's heyday
