Culture and Citizenship Nick Stevenson, 2001-01-26 Culture and citizenship are two of the most hotly contested concepts in the social sciences. What are the relationships between them? This book explores the issues of inclusion and exclusion, the market and policy, rights and responsibilities, and the definitions of citizens and non-citizens. Substantive topics investigated in the various chapters include cultural democracy, intersubjectivity, and the unconscious, globalization and the nation-state, European citizenship, and the discourses on cultural policy.

Governing under Stress Marjorie Griffin Cohen, Stephen Clarkson, 2013-07-04 This volume is the first work to emerge from a major international comparative research project exploring the political economy of globalization. This interdisciplinary team of scholars is focusing on the semi-periphery of world power. Whether defined in social, cultural, economic, or simply spatial terms, semi-peripheral countries share two qualities: they are conscious of their subordination to the hegemonic powers at the centre of the global system (the United States and the European Union); they are also strong enough to have some ability to resist their domination. The structural position of these middle powers in global capitalism is unlike those countries at the centre that do not experience domination and different from those Third World countries on the periphery that have no means to achieve more cultural and political autonomy, more distinctive and diversified development, or greater social equity and better income redistribution. Four countries in North America, Central America, Europe, and the Antipodes—namely Canada, Mexico, Norway, and Australia—have been selected in order to explore the complexities of globalization from the perspective of the semi-periphery. Opening chapters examine the international institutions including the North America Free Trade Agreement, the World Trade Organization, and the European Union, which now amount to a quasi-constitutional conditioning framework for middle powers under globalization. In the second part, contributors detail the pressures with which these countries have to cope and consider their ability to pursue policies appropriate to the needs and democratically defined goals of each. And in the concluding part, after discussing the new economic, political, and social issues of governing under stress, they appraise the possibilities for middle powers to chart distinctive national courses in the face of globalization's constraining challenge.

Media Convergence Graham Meikle, Sherman Young, 2017-09-16 This book focuses on how everyday media such as Facebook, iTunes, and Google can be understood in new ways for the 21st century through ideas of convergence. Key chapters explore the development of the internet, the rise of social media, and the new opportunities for audiences to create, collaborate upon, and share their own media.

Democracy under attack Malcolm Dean, 2013 The ongoing News International phonehacking scandal has made abundantly clear that the media's influence over politics is both immense and largely hidden from public scrutiny. As the scandal grows, a question arises: even when they stay on the right side of the law, to what extent do the media influence the political process? In *Democracy under Attack*, one of the media's own, Malcolm Dean, the Guardian's long-standing chief monitor of social policy, expertly indicts his fellow journalists, revealing the ways their distorted coverage

undermines democracy Based on four decades of upperlevel UK government briefings and interviews with over one hundred senior policy makers Democracy under Attack overflows with incisive observations and colorful stories culminating in a damning list of the seven deadly sins of modern journalists Dean s long experience and insider status inform his detailed and disturbing account of news production in Britain revealing the connections between what goes on in newsrooms lobbyists offices and Parliament as well as how those connections decisively shape government policy **Interpreting News** Graham Meikle,2017-09-16 This core introductory text offers a comprehensive overview of how news has been theorised and understood in key media studies traditions It explores how news is constructed distributed and received and includes up to date examples and discussion of contemporary issues such as the uses of new technologies in news media *Children, Young People and the Press in a Transitioning Society* Faith Gordon,2018-03-10 This book assesses the implications of how children and young people are represented in print media in Northern Ireland a post conflict transitioning society Gordon analyses how children and young people s perceived involvement in anti social and criminal behaviour is constructed and amplified in media as well as in popular and political discourses Drawing on deviancy amplification folk devils and moral panics this original study specifically addresses the labelling perspective and confirms that young people are convenient scapegoats where their negative reputation diverts attention from the structural and institutional issues that are inevitable in a post conflict society Alongside content analysis from six months of print media and a case study on the representation of youth involvement in sectarian rioting this book also analyses interviews with editors journalists politicians policy makers and a spokesperson for the Police Service of Northern Ireland Noting the importance of prioritising the experiences of children young people and their advocates this timely and engaging research will be of specific interest to scholars and students of criminal justice criminology socio legal studies sociology social policy media studies politics and law as well as media professionals and policy makers **David Astor** Jeremy Lewis,2016-03-03 Few newspaper editors are remembered beyond their lifetimes but David Astor of the Observer is a great exception to the rule He converted a staid Conservative supporting Sunday paper into essential reading admired and envied for the quality of its writers and for its trenchant but fair minded views Astor grew up at Cliveden the country house on the Thames which his grandfather had bought when he turned his back on New York the source of the family fortune His liberal minded father was a constant support but his relations with his mother Nancy were always embattled At Oxford he suffered the first of the bouts of depression that were to blight his life a lost soul for much of the Thirties he became involved in attempts to put the British Government in touch with the German opposition in the months leading up to the war George Orwell had urged Astor to champion the decolonisation of Africa and Nelson Mandela always acknowledged how much he owed to the Observer s long standing support A generous benefactor to good causes he helped to set up Amnesty International and Index on Censorship A good man and a great editor he deserves to be better remembered **James Callaghan** Kevin Hickson,Jasper Miles,2020-11-03 In November 1980 James Callaghan
