Globalisation contested Louise Amoore, 2013-07-19 This electronic version has been made available under a Creative Commons BY NC ND open access license This exciting book provides an illuminating account of contemporary globalisation that is grounded in actual transformations in the areas of production and the workplace It reveals the social and political contests that give global its meaning by examining the contested nature of globalisation as it is expressed in the restructuring of work Rejecting conventional explanations of globalisation as a process that automatically leads to transformations in working lives or as a project that is strategically designed to bring about lean and flexible forms of production this book advances an understanding of the social practices that constitute global change Through case studies that span from the labour flexibility debates in Britain and Germany to the strategies and tactics of corporations and workers the author examines how globalisation is interpreted and experienced in everyday life Contestation she argues is about more than just direct protests and resistances It has become a central feature of the practices that enable or confound global restructuring This book offers students and scholars of international political economy sociology and industrial relations an innovative framework for the analysis of globalisation and the restructuring of work Stalingrad Antony Beevor, 1999-05-01 The Battle of Stalingrad was not only the psychological turning point of World War II it also changed the face of modern warfare From Antony Beevor the internationally bestselling author of D Day and The Battle of Arnhem In August 1942 Hitler s huge Sixth Army reached the city that bore Stalin s name In the five month siege that followed the

Russians fought to hold Stalingrad at any cost then in an astonishing reversal encircled and trapped their Nazi enemy This battle for the ruins of a city cost more than a million lives Stalingrad conveys the experience of soldiers on both sides fighting in inhuman conditions and of civilians trapped on an urban battlefield Antony Beevor has interviewed survivors and discovered completely new material in a wide range of German and Soviet archives including prisoner interrogations and reports of desertions and executions As a story of cruelty courage and human suffering Stalingrad is unprecedented and unforgettable Historians and reviewers worldwide have hailed Antony Beevor's magisterial Stalingrad as the definitive account of World War II's most harrowing battle

The Everything Store: Jeff Bezos and the Age of Amazon Brad Stone, 2013-10-17 Winner of the Financial Times and Goldman Sachs Business Book of the Year Award Brad Stone's definitive book on Amazon and Bezos The Guardian A masterclass in deeply researched investigative financial journalism riveting The Times The definitive story of the largest and most influential company in the world and the man whose drive and determination changed business forever Though Amazon.com started off delivering books through the mail its visionary founder Jeff Bezos was never content with being just a bookseller He wanted Amazon to become the everything store offering limitless selection and seductive convenience at disruptively low prices To achieve that end he developed a corporate culture of relentless ambition and secrecy that's never been cracked Until now Jeff Bezos stands out for his relentless pursuit of new markets leading Amazon into risky new ventures like the Kindle and cloud computing and transforming retail in the same way that Henry Ford revolutionised manufacturing Amazon placed one of the first and largest bets on the Internet Nothing would ever be the same again

New Statesman, 1998 **Talking Animals in British Children's Fiction, 1786-1914** Tess Cosslett, 2017-03-02 In her reappraisal of canonical works such as *Black Beauty* *Beautiful Joe* *Wind in the Willows* and *Peter Rabbit* Tess Cosslett traces how nineteenth century debates about the human and animal intersected with or left their mark on the venerable genre of the animal story written for children Effortlessly applying a range of critical approaches from Bakhtinian ideas of the carnivalesque to feminist postcolonial and ecocritical theory she raises important questions about the construction of the child reader the qualifications of the implied author and the possibilities of children's literature compared with literature written for adults Perhaps most crucially Cosslett examines how the issues of animal speech and animal subjectivity were managed at a time when the possession of language and consciousness had become a vital sign of the difference between humans and animals Topics of great contemporary concern such as the relation of the human and the natural masculine and feminine child and adult are investigated within their nineteenth century contexts making this an important book for nineteenth century scholars children's literature specialists and historians of science and childhood
