Rural Adaptation In Russia:

Rural Adaptation in Russia Stephen K. Wegren, 2022-05-19 The current dominant approach to Russian peasant behaviour emphasizes rural resistance to reform in broad terms and to the introduction of market forces in particular Bringing together some of the finest scholars on rural Russia this groundbreaking volume examines this perception with an analysis of both historical and contemporary patterns of rural adaptation in Russia Four articles included analyze peasant responses in the post Soviet era and focus on the relationship between poverty and rural adaptation the social origins of private farmers in southern Russia and Ukraine response patterns by large farms formerly collective and state farms household adaptation using a standardized set of criteria This fascinating book gives an illuminating picture of the ways in which peasants respond to new environmental conditions and stimuli created by reform The substantive material included draws on fieldwork and survey data collected from rural Russia from the Stolypin reforms in the pre Soviet era and collectivisation of agriculture during the 1930s in the Soviet era This book was previously as a special issue of The Journal of Peasant Studies

Special Issue on Rural Adaptation in Russia Stephen K. Wegren, 2004 **Rural Reform in Post-Soviet Russia** David J. O'Brien, Stephen K. Wegren, 2002-03-20 Rural Reform in Post Soviet Russia reviews change in agricultural and rural life since 1990 through historical political sociological and anthropological investigation The contributors interest is not so much in agriculture itself but in agrarian issues such as the relationship between rural interests and changing Russian institutions the economic and social organization of rural households and the quality of life in rural families and villages **Land Reform in Russia** Stephen K. Wegren, 2009-11-24 This ambitious work is the definitive account of Russia's land reform initiatives from the late 1980s to today In Russia a country controlling more land than any other nation land ownership is central to structures of power class division and agricultural production The aim of Russian land reform for the past thirty years to undo the collectivization of the Soviet era and encourage public ownership has been largely unsuccessful To understand this failure Stephen Wegren examines contemporary land reform policies in terms of legislation institutional structure and human behavior Using extensive survey data he analyzes household behaviors in regard to land ownership and usage based on socioeconomic status family size demographic distribution and regional differences Wegren's study is important and timely as Russian land reform will have a profound effect on Russia's ability to compete in an era of globalization

Modernisation in Russia since 1900 Markku Kangaspuro, Jeremy Smith, 2006-12-27 Modernisation has been a constant theme in Russian history at least since Peter the Great launched a series of initiatives aimed at closing the economic technical and cultural gap between Russia and the more advanced countries of Europe All of the leaders of the Soviet Union and post Soviet Russia have been intensely aware of this gap and have pursued a number of strategies some more successful than others in order to modernise the country But it would be wrong to view modernisation as a unilinear process which was the exclusive preserve of the state Modernisation has had profound effects on Russian society and the attitudes of different

social groups have been crucial to the success and failure of modernisation This volume examines the broad theme of modernisation in late imperial Soviet and post Soviet Russia both through general overviews of particular topics and specific case studies of modernisation projects and their impact Modernisation is seen not just as an economic policy but as a cultural and social phenomenon reflected through such diverse themes as ideology welfare education gender relations transport political reform and the Internet The result is the most up to date and comprehensive survey of modernisation in Russia available which highlights both one of the perennial problems and the challenges and prospects for contemporary Russia

The Moral Economy Reconsidered S. Wegren, 2005-08-19 Sure to be controversial and spur debate this book presents a powerful analysis of rural change to marketization and globalization Using Russia as a case study it examines the how the rural population responded to reform policies during the transition away from communism Wegren draws upon extensive field work survey data interviews and wide ranging Russian language source material to investigate adaptive behaviours by different groups of the rural population The differentiated and nuanced analysis sheds considerable light on debates over whether actors are motivated mainly by rational or moral considerations

Russia's Food Policies and Globalization
Stephen K. Wegren, 2005-01-01 The post Soviet period has witnessed Russia's increasing interdependence with other nations in its food trade as in the economy as a whole President Putin has repeatedly identified international integration as an economic necessity if Russia is to share in the benefits of globalization In Russia's Food Policies and Globalization author Stephen K Wegren analyzes the primary questions affecting Russia and globalization How do Russia's domestic and external food policies affect its efforts at international integration How prepared is Russia for global economic integration for instance entrance into the World Trade Organization What are the structural economic and political obstacles that exist in Russia's food policies which in turn hinder closer integration In short will Russia integrate or fall behind and what is the role of food policy in deciding this crucial issue Through an analysis of Russia's contemporary food policies and strategies Wegren places Russia's economic development in a new international context Political scientists economists policymakers and scholars of the Soviet and post Soviet period as well as those interested in rural studies must read this book

The Art and Science of Making the New Man in Early 20th-Century Russia
Yvonne Howell, Nikolai Kremmentsov, 2021-12-02 The idea that morally mentally and physically superior new men might replace the currently existing mankind has periodically seized the imagination of intellectuals leaders and reformers throughout history This volume offers a multidisciplinary investigation into how the new man was made in Russia and the early Soviet Union in the first third of the 20th century The traditional narrative of the Soviet new man as a creature forged by propaganda is challenged by the strikingly new and varied case studies presented here The book focuses on the interplay between the rapidly developing experimental life sciences such as biology medicine

and psychology and countless cultural products ranging from film and fiction dolls and museum exhibits to pedagogical projects sculptures and exemplary agricultural fairs With contributions from scholars based in the United States Canada the UK Germany and Russia the picture that emerges is emphatically more complex contradictory and suggestive of strong parallels with other new man visions in Europe and elsewhere In contrast to previous interpretations that focused largely on the apparent disconnect between utopian new man rhetoric and the harsh realities of everyday life in the Soviet Union this volume brings to light the surprising historical trajectories of new man visions their often obscure origins acclaimed and forgotten champions unexpected and complicated results and mutual interrelations In short the volume is a timely examination of a recurring theme in modern history when dramatic advancements in science and technology conjoin with anxieties about the future to fuel dreams of a new and improved mankind

Works in Progress Jenny Leigh Smith, 2014-10-28 This book is the first to investigate the gap between the plans and the reality of the Soviet Union's mid twentieth century project to industrialize and modernize its agricultural system Historians agree that the project failed badly agriculture was inefficient unpredictable and environmentally devastating for the entire Soviet period Yet assigning the blame exclusively to Soviet planners would be off the mark The real story is much more complicated and

interesting Jenny Leigh Smith reveals in this deeply researched book Using case studies from five Soviet regions she acknowledges hubris and shortsightedness where it occurred but also gives fair consideration to the difficulties encountered and the successes however modest that were achieved Reactions to the Market Laura J. Enríquez,2010-01-01 Analyzes the reaction of existing and former socialist countries to neoliberalism Examines economic transitions in agriculture and the reconfiguration of socialism in Russia China Nicaragua and Cuba Provided by publisher **Household Capital and the Agrarian Problem in Russia** David O'Brien,Valeri Patsiorkovski,Larry Dershem,2017-11-22 This title was first published in 2000 Using micro level data this text shows that rural Russian households have made significant adaptations to an emerging market economy in just a few years It focuses on how household capital household labour social networks and community attachment effect the economic and psychological adaptation of households to rapid socioeconomic change Findings are from 1995 to 1997 panel surveys made in three waves The book deals systematically with micro level processes of household adaptation to a market economy institutional change and emerging informal and formal patterns of land tenure and use in Russia It shows how structural changes are occurring in rural Russia and their impact on household enterprise development and income Difference in household capital explains the emergence of inequality in the countryside and differences in the degree to which households experience stress and a higher or lower subjective quality of life **Putin's Russia** Dale Roy Herspring,2007 A fifth edition of this book is now available This thoroughly revised and updated edition of the classic text provides the most current and authoritative assessment of Russia available Distinguished scholars offer a full scale assessment of Putin s leadership exploring the daunting domestic and international problems facing Russia today Evaluating the regime s continued efforts to rebuild a country in shambles the contributors consider a comprehensive array of economic political and social issues In addition to updated core chapters the book includes new essays on Putin s leadership law foreign policy and the decline of democracy The book concludes that Putin will continue to address his country s problems in an incremental and centralized manner as he moves toward his goal of restoring Russia to the status of a world power

Global Land Grabbing and Political Reactions 'from Below' Marc Edelman,Ruth Hall,Saturnino M. Borrás Jr.,Ian Scoones,Ben White,Wendy Wolford,2017-08-15 When the 2007 2008 food and financial crises triggered a global wave of land grabbing scholars activists and policy practitioners assumed that this would be met with massive peasant resistance As empirical evidence accumulated however it became clear that political reactions from below to land grabbing were quite varied and complex Violent resistance outright expulsions everyday weapons of the weak and demands for better terms of incorporation into land deals were among the outcomes that emerged Readers of this collection will encounter a multinational group of scholars who use the tools of social movements theory and critical agrarian studies to examine cases from Argentina Mexico Guatemala Nicaragua Colombia Ethiopia Madagascar Mozambique Uganda Mali Ukraine India and Laos as well as the Rio 20 Sustainable Development Conference Initiatives from below in response to land deals have

involved local and transnational alliances and the use of legal and extra legal methods and have brought victories and defeats This book was first published as a special issue of The Journal of Peasant Studies **A New Dawn** Deon Vos,Zacharias Louw de Beer,Ewelina Niemczyk,2020-12-31 BRICS is a significant player in the international arena Thus it is important for South Africa as a member of BRICS to explore the implications of the external and internal influences of BRICS This includes comprehensive understanding of the international and national involvement of BRICS in education provision and introducing discovered influences in South African educational planning The size of BRICS as international player in different areas and on different levels necessitates the research of its functioning and in this case the role of BRICS regarding education provisioning Therefore this research and analysis of the contribution of BRICS in education provision are an important addition to the field of effective Education Through the preliminary literature reviews we noticed that current studies often are quantitative in nature and lack comparative qualitative exploration about education development in BRICS countries For this reason the book titled BRICS Education A new dawn will contribute to the flourishing of quality education in South Africa and all BRICS nations The book will also aim to encourage researchers to join efforts with other researchers of the five member states in order to learn from each other and to address common challenges To that end this research will generate scientific knowledge meant to maximize the readers understanding of the current realities of the education aims at the national each member state and collective BRICS organization level The authors of the book are interested in comparing the educational aims across the BRICS countries and explore how successfully these aims are being implemented on the ground Through the discovering of similarities and differences in the educational aims of the five member states and the educational objectives of the BRICS organization the readers of the book will be able to identify best practices that will allow member states to fulfill the education aims of the BRICS organization at large **Scientists' Expertise as Performance** Joris Vandendriessche,Evert Peeters,Kaat Wils,2015-10-06 The essays in this collection explore our reliance on experts within a historical context and across a wide range of fields including agriculture engineering health sciences and labour management Contributors argue that experts were highly aware of their audiences and used performance to gain both scientific and popular support **Climate Change Adaptation** Lisa Dale,2022-07-05 Climate change policy has typically emphasized mitigation calling for reducing emissions and shifting away from fossil fuels Yet while these efforts have floundered floods wildfires droughts and other disasters are becoming more frequent and potent As the risks escalate we must ask how to adapt to a changing climate How might farmers modify their practices to maximize food security Can coastal cities protect their infrastructure from rising seas Are there strategic ways for developing countries to combine climate resilience with economic growth and poverty reduction For people and societies around the world these questions are not theoretical adaptation is already underway This book offers a concise overview of climate adaptation governance In clear accessible language Lisa Dale describes key strategies that governments communities and the private sector are now

Attitudes, Poverty and Agency in Russia and Ukraine

Ann-Mari Sätre, Ildikó Asztalos Morell, 2017-10-02 One of the main ideas behind this book was to trace continuities from the Soviet time to post Soviet Russia There are many similarities between Russia and Ukraine indicating such a continuation Russia and Ukraine had a lot in common in terms of culture language and history partly also because of their common origin After the dissolution of the Soviet Union however the two independent countries chose different routes of development This makes it possible to distinguish between the effects of politics reforms on the one hand and the impacts from the Soviet system on the other After some more or less chaotic development paths in the 1990s showing clear differences between the two countries and before the contemporary conflict broke out in Eastern Ukraine 2013 they had once again more similarities in terms of political leadership and policies in general The chapters in this book focus on Ukraine and on two regions in Russia Nizhny Novgorod and Archangelsk Contributors look at attitudes towards poverty and poor people strategies of the poor and policies against poverty This book was published as a special issue of the Journal of Contemporary Central and Eastern Europe
