Foundation,2017-04-21 The prosperity of China's people has advanced very much in recent decades. However, in many respects, China is still a developing country, and this is especially true of rural areas where economic progress has not been as marked as in urban areas and where many people still live in relative poverty. The Chinese government recognizes that more hard work is needed in order to improve prosperity in the countryside. This book provides a systematic and comprehensive analysis of the situation in China's rural areas, assesses the effectiveness or otherwise of current policies, and puts forward proposals for further development. Subjects covered include the changing population profile of rural areas, land ownership, agricultural improvements, and local self-government.

Scotland's Rural Home John Brennan,2021-06-07 Rural Scotland is a charged landscape alive with history soaked in myth and often rather sublime. For those of us living an urban existence, the countryside is a retreat for refuge and decompression, but it is also a place where infrastructures strain to reach and in which livings must be made. The countryside is resistant to easy explanation and is thus vulnerable to stereotyping. The nine building stories told in this book show how rural households and communities define themselves and the role architecture plays in this. Illustrated with beautiful photography and drawings, the projects range from affordable housing on the islands to exquisite renovations of traditional agricultural stock and all recognised by the Saltire Society's Housing Design Awards, are visually rich both in themselves and the contexts in which they sit.

Big House on the Prairie John M. Eason,2017-03-06 For the past fifty years, America has been extraordinarily busy building prisons. Since 1970, we have tripled the total number of facilities, adding more than 1,200 new prisons to the landscape. This building boom has taken place across the country but is largely concentrated in rural southern towns. In 2007, John M. Eason moved his family to Forrester City, Arkansas, in search of answers to key questions about this trend: Why is America building so many prisons? Why now? And why in rural areas? Eason quickly learned that rural demand for prisons is complicated. Towns like Forrester City choose to build prisons not simply in hopes of landing jobs or economic wellbeing, but also to protect and improve their reputations. For some rural leaders, fostering a prison in their town is a means of achieving order in a rapidly changing world. Taking us into the decision-making meetings and tracking the impact of prisons on economic development, poverty, and race, Eason demonstrates how groups of elite whites and black leaders share power. Situating prisons within dynamic shifts that rural economies are undergoing and showing how racially diverse communities lobby for prison construction, *Big House on the Prairie* is a remarkable glimpse into the ways a prison economy takes shape and operates.

Rural Gays and Lesbians James Donald Smith,1997 This book provides knowledge and practice tips specific to the unique and changing needs of rural lesbians and gay men. It is intended to help social workers construct culturally competent service programs and intervention techniques.

Building Your Own Home Dan Ramsey,2002 A clear, concise, up-to-date guide on all aspects of deciding, designing, hiring, financing, building, and enjoying a home that's really your own. Covers all aspects of the home building process, from deciding what kind of house to build to designing it, planning it, hiring the people to build it, and financing it. Less intimidating than many do-it-yourself books.
