Rural Class Struggles in Ambridge Fred Borage,1982 **Class, Conflict and Protest in the English Countryside, 1700-1880** Mick Reed,Roger Wells,2015-12-22 First Published in 1990 This is Volume IX in the Library of Peasant Studies series edited by Mick Reed and Roger Wells The contributors to this volume discuss the disparity between agricultural history and rural history despite the two becoming synonymous in academic discussion The editors state that exciting developments continue but it is clear that the simple accumulation of empirical detail will not on its own provide explanation and that exploration of the contents within these articles will inform positive change **Essays on the Political Economy of Rural Africa** Robert H. Bates,1987-04-20 The essays in this volume represent a dialogue between theory and data The theory is drawn from a branch of contemporary political economy which can also be labeled the collective choice school The data are drawn from Africa The book extends the methods of reasoning developed in collective choice from their original base the advanced industrial democracies to new territory the literature on rural Africa Such as extension challenges the power of this form of political economy It also enriches it for the central questions which motivate the contemporary study of political economy are often addressed with unique clarity in the scholarship on rural Africa *Gender, Sex and Gossip in Ambridge* Cara Courage,Nicola Headlam,2019-04-05 The Archers Academics are joined by former The Archers editor Alison Hindell and actor Dr Charlotte Connor a k a Susan Carter to examine the power of gossip in Ambridge portrayals of love marriage motherhood female education and career expectations women s mental health and the hard won right of women to play cricket **Rē Records Quarterly Magazine** ,1987 **Flapjacks and Feudalism** Cara Courage,Nicola Headlam,2021-03-16 Flapjacks and Feudalism Social Mobility and Class in The Archers is an excavation into the family and class politics found in the clans of the residents of Ambridge in BBC Radio 4 s The Archers **Vague** ,1988 **The Routledge Companion to Rural Planning** Mark Scott,Nick Gallent,Menelaos Gkartzios,2019-01-28 The Routledge Companion to Rural Planning provides a critical account and state of the art review of rural planning in the early years of the twenty first century Looking across different international experiences from Europe North America and Australasia to the transition and emerging economies including BRIC and former communist states it aims to develop new conceptual propositions and theoretical insights supported by detailed case studies and reviews of available data The Companion gives coverage to emerging topics in the field and seeks to position rural planning in the broader context of global challenges climate change the loss of biodiversity food and energy security and low carbon futures It also looks at old established questions in new ways at social and spatial justice place shaping economic development and environmental and landscape management Planning in the twenty first century must grapple not only with the challenges presented by cities and urban concentration but also grasp the opportunities and understand the risks arising from rural change and restructuring Rural areas are diverse and dynamic This Companion attempts to capture and analyse at least some of this diversity fostering a

Governing the Commons Elinor Ostrom, 2015-09-23

The governance of natural resources used by many individuals in common is an issue of increasing concern to policy analysts Both state control and privatization of resources have been advocated but neither the state nor the market have been uniformly successful in solving common pool resource problems After critiquing the foundations of policy analysis as applied to natural resources Elinor Ostrom here provides a unique body of empirical data to explore conditions under which common pool resource problems have been satisfactorily or unsatisfactorily solved Dr Ostrom uses institutional analysis to explore different ways both successful and unsuccessful of governing the commons In contrast to the proposition of the tragedy of the commons argument common pool problems sometimes are solved by voluntary organizations rather than by a coercive state Among the cases considered are communal tenure in meadows and forests irrigation communities and other water rights and fisheries
