*Abstracts of Reports and Testimony* ,1998 Handbook for Capacity Development ,1999 **The Hidden America** Robert M. Moore,2001 Moore dispels the myths that rural life does not contain urban problems such as poor parenting and substance abuse while its economy depends on farming or mineral extraction The realities and recent changes in rural life mean that social services must adapt to the needs of the rural communities *Rural Development* United States. Buss,2001-03-30 Policy makers Republican and Democrat liberal and conservative call for federal intervention to fund emerging high growth industries believing they are starved for capital Congressional hearings newspapers industry newsletters and government reports all assert that capital gaps exist for these firms But the widely held belief that emerging high growth firms like those in high technology so vital to the growth of the U S economy face severe capital gaps preventing them from starting up or growing to their full potential is false This book systematically brings together for the first time disparate sources of information from a wide variety of disciplines and synthesizes them into a compelling case against federal intervention Scientific studies conventional wisdom among entrepreneurs and investors and economic reasoning all fail to support the

existence of widespread capital gaps for start up high growth firms Nor does this evidence show capital in short supply in some regions in industrial sectors including high technology or for women and minorities Nor do existing federal programs providing capital to emerging high growth businesses reveal capital gaps Rather they either unnecessarily duplicate private investment or represent poor investment decisions This study shows that calls for increased federal intervention using public monies to plug capital gaps are unjustified Rural Credit United States.
