Rural Development In China:

Rural Development in China Xiaotong Fei, 1989-06-13 This collection of essays written from 1947 1986 by Fei Hsiao tung China s most distinguished sociologist and anthropologist presents a rich and representative sampling of the research that has characterized his long career In 1936 Fei conducted field work in Kaixian gong a village in Jiangsu province in east China This village became the subject of his now classic study *Peasant Life in China* in which he argued that because of China s huge population and the scarcity of cultivable land household industries such as production of raw silk were vital to the peasants economic survival His conclusions long rejected by China s policymakers have recently been embraced by the government under the political leadership of Deng Xiaopeng Returning to Kaixian gong in 1957 and again in the 1980s Fei examined the changes that had occurred since his initial research Three essays that resulted from these follow up studies are included in this collection providing a rare summary and analysis of developments in the village between 1936 and 1986 Also included here are four articles based on Fei s 1983 84 research in other areas of Jiangsu province His explorations of the contrast between the wealth of southern Jiangsu and the long standing poverty of the northern half of the province address key issues of public policy in China today Useful to students of rural sociology as well as of Chinese history politics economics and anthropology this collection will provide an overview not only of developments in the small towns of China but also of Fei s thought [Rural Development in China](#) Dwight Heald Perkins, Shahid Yusuf, 1984 Author is an alumnus of Evanston

Township High School class of 1952 **Coordinating Urban and Rural Development in China** Ye Yumin, Richard LeGates, 2013-09-30 The focus of published narrative on the great Chinese urbanization wave was always going to sharpen _ away from the general fascination assertions theories and commentaries to specific issues and specific regions Well here is a first class example

Women, Gender and Rural Development in China Tamara Jacka, Sally Sargeson, 2011 China s countryside is being transformed by rapid far reaching development This wide reaching and multidisciplinary book questions whether gender politics are changing in response to this development and explores how gender politics inform and are reproduced or reconfigured in the languages knowledge processes and practices of development in rural China The contributors prominent scholars in the fields of political science sociology gender development and Chinese studies argue that although gender has been elided in recent development policies women have been singled out as a vulnerable group requiring protection instruction and empowerment from paternalistic state and NGOs Nevertheless development has facilitated the dissemination of gender equality as an ideal and institutional norm increased the channels through which women can advance claims for equal rights and expanded the possibilities for agency available to them Drawing on extensive field research in sites across China from remote communities in Inner Mongolia and Guizhou to the fringes of expanding cities the contributors illustrate how different women are bringing their own aspirations for development to bear in the momentous changes occurring in rural China This compelling and thought provoking book will be of interest to scholars

students and researchers in the fields of public and social policy sociology political economy anthropology gender and development

China's Rural Development Policy Minzi Su, 2009 As China strives to achieve nothing less than a harmonious society despite the pronounced and institutionalized class structure that divides rural Chinese from urban eastern from western and rich from poor a key element of that effort is a new socialist countryside The author assesses the prospects for China's rural revitalization programs now in their initial stages The author draws on her extensive front line field research to discover precisely why Beijing's rural development policies though helping many have thus far bypassed hundreds of millions of farm households Not least she also identifies the capacities and political economic conditions that hold the greatest promise for successful policy implementation This book assesses the prospects for the rural revitalization programs that are a key element of China's quest for a harmonious society

The Internet and Rural Development in China Jinqiu Zhao, 2008 Despite its low penetration in China's vast rural areas the Internet is generally perceived as a new engine for rural empowerment By examining five Internet application initiatives in rural China this book offers a unique view of the diffusion and usage of the Internet and its implications on the lives of rural people Placed in the political socioeconomic and infrastructure contexts of rural China the book departs from the classical diffusion of innovations model and extends the existing knowledge on the adoption and usage of the Internet by rural people In addition to testing the applicability of the diffusion of innovations theory to the diffusion of Information and Communications Technologies in the rural areas today the study provides rich empirical evidence regarding the actual impact of the Internet on the livelihood of rural people It also shows some innovative uses of the Internet in rural development

China's Rural Areas China Development Research Foundation, 2017-04-21 The prosperity of China's people has advanced very much in recent decades However in many respects China is still a developing country and this is especially true of rural areas where economic progress has not been as marked as in urban areas and where many people still live in relative poverty The Chinese government recognizes that more hard work is needed in order to improve prosperity in the countryside This book provides a systematic and comprehensive analysis of the situation in China's rural areas assesses the effectiveness or otherwise of current policies and puts forward proposals for further development Subjects covered include the changing population profile of rural areas land ownership agricultural improvements and local self government

Invisible China Scott Rozelle, Natalie Hell, 2020-09-29 A study of how China's changing economy may leave its rural communities in the dust and launch a political and economic disaster As the glittering skyline in Shanghai seemingly attests China has quickly transformed itself from a place of stark poverty into a modern urban technologically savvy economic powerhouse But as Scott Rozelle and Natalie Hell show in *Invisible China* the truth is much more complicated and might be a serious cause for concern China's growth has relied heavily on unskilled labor Most of the workers who have fueled the country's rise come from rural villages and have never been to high school While this national growth strategy has been effective for three

decades the unskilled wage rate is finally rising inducing companies inside China to automate at an unprecedented rate and triggering an exodus of companies seeking cheaper labor in other countries Ten years ago almost every product for sale in an American Walmart was made in China Today that is no longer the case With the changing demand for labor China seems to have no good back up plan For all of its investment in physical infrastructure for decades China failed to invest enough in its people Recent progress may come too late Drawing on extensive surveys on the ground in China Rozelle and Hell reveal that while China may be the second largest economy in the world its labor force has one of the lowest levels of education of any comparable country Over half of China s population as well as a vast majority of its children are from rural areas Their low levels of basic education may leave many unable to find work in the formal workplace as China s economy changes and manufacturing jobs move elsewhere In Invisible China Rozelle and Hell speak not only to an urgent humanitarian concern but also a potential economic crisis that could upend economies and foreign relations around the globe If too many are left structurally unemployable the implications both inside and outside of China could be serious Understanding the situation in China today is essential if we are to avoid a potential crisis of international proportions This book is an urgent and timely call to action that should be read by economists policymakers the business community and general readers alike Praise for Invisible China Stunningly researched TheEconomist Best Books of the Year UK Invisible China sounds a wake up call The Strategist Not to be missed Times Literary Supplement UK Invisible China provides an extensive coverage of problems for China in the sphere of human capital development the book is rich in content and is not constrained only to China but provides important parallels with past and present developments in other countries Journal of Chinese Political Science

China's Rural Development Road Xiaoshan Zhang,Zhou Li,2017-10-27 This book systematically reviews the experiences and problems encountered in the development of China s rural areas over the past three decades since the start of the country s economic reform As such it addresses the most important aspects in terms of China s rural communities farmers and agriculture from the perspective of development such as the agricultural management system rural land tenure system rural fiscal and taxation system financial system science and technology system rural governance structure poverty alleviation environmental protection etc The approach employed combines essential theories laws and policy strategies with rural development practice in order to analyze the success stories and lingering problems to explore the causes of both and to offer an outlook on the future of rural development Informal Institutions and Rural Development in China Biliang Hu,2007 Providing an account of the role of informal institutions in Chinese rural development this book based on a decade of fieldwork of village life in the Chinese countryside puts forth a distinctive argument on a very important topic in Chinese economic and social affairs Focusing in particular on three major informal institutions village trust and Rotating Savings and Credit Associations ROSCAs guanxi community and Integrating Village with Company IVWC governance it argues that informal institutions traditions and customs are all critical factors for facilitating modernization and social and economic

development promoting the integration of trust reciprocity responsibility and obligation into economic and social exchange processes and considerably lowering risks and transactions costs This detailed account is an invaluable resource for postgraduates and researching studying and working in this area Winner of the 2008 Zhang Peigang Development Economics Award Agricultural Reform and Rural Transformation in China since 1949 Thomas DuBois,Huaiyin Li,2016-07-11 Since its founding the government of the People s Republic of China has strived to transform rural production the theme of this volume of History of Contemporary China Fourteen articles translated from the Chinese journal Contemporary History Dangdai Zhongguo shi yanjiu offer both empirical account and theoretical analysis of a broad range of historical events and issues such as the guiding policy framework of the three rural issues the causes and consequences of the deep plowing movement and the development of public canteens during the Great Leap Forward child care enterprises and collectives and private lending in the post Mao era and the changing dynamics of interregional flows of goods and people throughout the second half of the 20th century These studies shed light on the historical origins of some of the agricultural and rural problems in China today *China's Peasant Agriculture and Rural Society* Jan Douwe van der Ploeg,Jingzhong Ye,2016-05-20 China s agriculture and rural society has undergone rapid changes in recent years Many poorer farmers and younger people have moved to cities and yet China has an immense challenge to feed a growing and more affluent population This book provides a bottom up view of China s agriculture showing how the many millions of Chinese peasants make a living It presents a vivid description of the mechanisms used by rural households to defend and sustain their livelihoods increase their agricultural production and improve the quality of their lives The authors examine the newly emerging trajectories of entrepreneurial and capitalist farming and assess whether such alternatives will be able to meet the enormous social economic and environmental challenges that China faces The book also explores the paradigm that has underpinned the organisation and development of China s agriculture from ancient times to the present day This shows the importance of balancing in the Chinese model as compared to the one sided imposition of continual modernization in the western model It is argued that such balancing is at the core of the current Sannong policy referring to the three ruralities of food sovereignty wellbeing for peasant households and an attractive countryside Agricultural Development in China, 1368-1968 Dwight H. Perkins,2017-07-12 Agricultural Development in China explains how China s farm economy historically responded to the demands of a rising population Dwight H Perkins begins in the year A D 1368 the founding date of the Ming dynasty More importantly it marked the end of nearly two centuries of violent destruction and loss of life primarily connected with the rise and fall of the Mongols The period beginning with the fourteenth century was also one in which there were no obvious or dramatic changes in farming techniques or in rural institutions The rise in population and hence in the number of farmers made possible the rise in farm output through increased double cropping extending irrigation systems and much else Issues explored in this book include the role of urbanization and long distance trade in allowing farmers in a few regions to

specialize in crops most suitable to their particular region Backing up this analysis of agricultural development is a careful examination of the quality of Chinese historical data This classic volume now available in a paperback edition includes a new introduction assessing the continuing importance of this work to understanding the Chinese economy It will be invaluable for a new generation of economists historians and Asian studies specialists and is part of Transaction s Asian Studies series

China's Rural Industry World Bank,1990 This book provides a comprehensive multi faceted analysis of China s booming rural nonstate collective and private industrial sector Based on a collaboration between Chinese and World Bank researchers the 19 papers compiled here offer detailed national and provincial information from four representative counties 63 townships 122 rural industrial firms and 1 174 workers and address such topics as performance and efficiency ownership and institutional structure employment and wage systems regional structure and related aspects of China s rural industrial sector This study breaks new ground in the scholarly analysis of an increasingly important highly dynamic part of China s economy

China's Rural Industrialization Policy S. Cheng,2006-08-03 This book is a comprehensive and positive study of the special pattern of China s industrialization and economic development covering all of the relevant main policies more than one hundred from 1949 to the twenty first century *Rural Development in China* Enrich Professional Publishing,2015-08-07 Since the 1950s rural China has experienced several reforms with both varying degrees of success and failure *Rural Development in China The Rise of Innovative Institutions and Markets 3 Volume Set* explores China s rural development path from two angles institutional innovations and the market Looking at China s pace of socio economic development as a key factor in modernization author Lu Yilong discusses the institutional drawbacks and demands to determine the specific issues of China s rural market Using China s unique 3 rurals concept as the basis *Rural Development in China The Rise of Innovative Institutions and Markets 3 Volume Set* gives suggestions of how to stimulate rural socio economic growth and lead China down a path to future economic success *Agricultural Development in China and Africa*

Li Xiaoyun,Qi Gubo,Tang Lixia,Zhao Lixia,Jin Leshan,Guo Zhanfeng,Wu Jin,2012-05-04 Many African countries are increasingly interested in learning from China s experiences in achieving effective agricultural development The Chinese government and academic community are also keen to share experiences and lessons with Africa China made agriculture one of its development assistance priorities at the Third FOCAC Summit in Beijing in 2006 This systematic comparative study of agricultural development in China and Africa provides a unique basis for African countries and international organizations seeking to understand agricultural development in China and for China to understand agricultural development on the African continent The book highlights experiences and lessons from China and in particular analyzes why Africa has not yet been able to emulate China s agricultural development trajectory It compares the similarities and discrepancies in conditions processes and outcomes between China and Africa from the perspectives of investment science and technology policies and international development aid Based on this it explores which experiences and lessons from China s agriculture development

can be shared with African countries in order to contribute to the sustainable improvement and transformation of African agriculture It does not claim that China has all of the answers but while recognizing the diversity within both China and Africa concludes that much can be gained from such a comparison *Industrialization and China's Rural Modernization* Dong Fureng, 2016-07-27 This book analyses China's historical experience of industrialization It adopts a critical stance towards China's development strategy and proposes an alternative approach outlining its main features Due to the great importance and special problems of China's rural modernization special attention is devoted to analysis of the rural sector Many of China's rural socio economic problems are similar to those encountered in other developing countries It is intended that the book will increase understanding of China's socio economic development as well as contributing to wider debates in the theory of economic development Rural-Urban Migration and Agro-Technological Change in Post-Reform China Lena Kaufmann, 2021-02-19 How do rural Chinese households deal with the conflicting pressures of migrating into cities to work as well as staying at home to preserve their fields This is particularly challenging for rice farmers because paddy fields have to be cultivated continuously to retain their soil quality and value Drawing on ethnographic fieldwork and written sources this book describes farming households strategic solutions to this predicament It shows how in light of rural urban migration and agro technological change they manage to sustain both migration and farming It innovatively conceives rural households as part of a larger farming community of practice that spans both staying and migrating household members and their material world Focusing on one exemplary resource paddy fields it argues that socio technical resources are key factors in understanding migration flows and migrant home relations Overall this book provides rare insights into the rural side of migration and farmers knowledge and agency
