Good Governance and the Sustainable Development Goals in Southeast Asia

Rasyikah Md Khalid,Ainul Jaria Maidin,2022-06-09 This book discusses management and governance initiatives undertaken by agencies and stakeholders towards achieving the Sustainable Development Goals SDGS in the Southeast Asian region specifically Malaysia Indonesia Thailand and Singapore It highlights the theories methodologies and action plans involved in

implementing the goals in these countries and the importance of developing a positive relationship between the public and government agencies. With contributors coming from a range of disciplines and backgrounds across the Association of Southeast Asian Nations (ASEAN) region, this edited collection provides a holistic quantitative and qualitative approach to achieving the SDGs. In order to realise these development objectives, it argues that a strong understanding of the basic principles of governance across all levels is required, supported by effective citizen participation and conflict resolution. It provides a detailed overview of the importance of governance at the country level, addressing the key elements of an integrated framework to support sustainable transitions. Regional case studies highlight processes and recommendations for improving governance and risk management and elevating citizen awareness and participation. Good Governance and the Sustainable Development Goals in Southeast Asia is a comprehensive and valuable companion for researchers, government agencies and professionals with an interest in the SDGs in Southeast Asia and beyond.

Rural Electrification Najib Altawell, James Milne, Patrice Seuwou, Luisa Sykes, 2020-12-04 Rural Electrification poses solutions to the insuperable modern challenge of providing 24/7 electricity for populations housing and territory located outside towns and cities. The book reviews the historical development of rural energy systems, their status quo and the role of renewable and fossil-fueled solutions in delivering electricity. It addresses core issues of energy source typologies, resource deployment, fundamental challenges and limitations, the burgeoning threat of climate change and the role of the renewable energy transition. Chapters account for almost all forms of fuel solutions with a focus on electrification, economics, planning and policy using the most cost-effective fuels and systems available. Novel approaches to address the challenges of rural electrification, including distributed generation systems, new management and ownership models, off-grid systems and future energy technologies, are thoroughly explored. The work concludes with a comparative assessment of different energy supply technologies and scenarios, contrasting the pros and cons of fossil fuels versus renewable energy resources to achieve the goal of comprehensive rural electrification. Provides a suite of new approaches to deliver and expand electrification across challenging rural environments. Describes optimal economics, planning and policy for electrification where there is no access to electricity. Reviews how practitioners can achieve cost reductions for rural energy supply using existing technologies. Addresses routes to power rural electrification within a transitioning energy economy while simultaneously accounting for climate change considerations.

Integrating Sustainable Development Into National Frameworks Janet R. Strachan, Constance Vigilance, 2011 This book brings policy making for sustainable development into the mainstream of decision making at all levels of governance and in all sectors. It builds on the 2005 internationally agreed Mauritius Strategy, which aims to implement the integration of sustainable development by small island developing states. Designed as a handbook for policy makers and planners in government as well as business and civil society leaders, it covers seven of the twenty issues that have been outlined in the Mauritius Strategy as being important for the sustainable development of SIDS.
