Rural Poverty Special Causes And Policy Reforms:

Rural Poverty Harrell R. Rodgers, Gregory Weiher, 1989-09-07 This volume takes the unexplored and timely approach of studying the differences between the rural and urban poor The studies presented conclude that rural poverty is more likely than its urban counterpart to be caused by inadequate unemployment compensation rising unemployment depression in the agricultural sector the farm crisis and discriminatory welfare regulations As well as establishing the differences the contributors elucidate the alternate strategies necessary to reach this less visible but equally needy group They also suggest alternate reforms designed to mitigate poverty in rural America Inequitable treatment of the rural poor is evidenced by the fact that although by conventional measures at least poverty rates are higher in rural than in urban regions of this country the rural poor are far less likely to receive assistance One significant reason is that the rural poor are more often employed and more likely to have assets that make them ineligible for benefits This is only one of several indications that rural poverty requires specifically tailored programs to address its unique causes and problems The work begins with an examination of ways of measuring poverty and goes on to look at the utilization of welfare programs Two essays are then devoted to the role of the labor force The work concludes with three approaches to reform An index and a bibliography complete the volume which will provide fresh research and insights for courses in poverty rural sociology and rural economic development

Stuart S. Nagel, 2018-08-13 First published in 1998 this volume examines how super optimum decisions involve finding alternatives to controversies whereby Conservatives Liberals or other major groups can all come out ahead of their best initial expectations simultaneously This book is organised in terms of concepts methods causes process substance and the policy studies profession Concepts clarify that policy evaluation traditionally involves 1 Goals to be achieved 2 Alternatives available for achieving them 3 Relations between goals and alternatives 4 Drawing a conclusion as to the best alternative in light of the goals alternatives and relations and 5 Analysing how the conclusion would change if there were changes in the goals alternatives or relations Super optimizing also involves five related steps but with the following improvements 1 Goals are designed as conservative liberal or neutral 2 Alternatives get the same designations 3 Relations are simplified to indicate which alternatives are relatively high or low on each goal 4 The conclusion involves arriving at an alternative that does better on Goal A than Alternative A and simultaneously better on Goal B than Alternative B and 5 The fifth step involves analysing the super optimum or win win alternative in terms of its feasibility as to the economic technological psychological political

administrative and legal matters *Rural Poverty in the United States* Ann R. Tickamyer, Jennifer Sherman, Jennifer Warlick, 2017-08-22 America's rural areas have always held a disproportionate share of the nation's poorest populations. *Rural Poverty in the United States* examines why. What is it about the geography, demography, and history of rural communities that keeps them poor? In a comprehensive analysis that extends from the Civil War to the present, *Rural Poverty in the United States* looks at access to human and social capital, food security, healthcare, and the environment, homelessness, gender roles, and relations, racial inequalities, and immigration trends to isolate the underlying causes of persistent rural poverty. Contributors to this volume incorporate approaches from multiple disciplines including sociology, economics, demography, race and gender studies, public health, education, criminal justice, social welfare, and other social science fields. They take a hard look at current and past programs to alleviate rural poverty and use their failures to suggest alternatives that could improve the well-being of rural Americans for years to come. These essays work hard to define rural poverty's specific metrics and markers, a critical step for building better policy and practice. Considering gender, race, and immigration, the book appreciates the overlooked structural and institutional dimensions of ongoing rural poverty and its larger social consequences. *Quick Bibliography Series*, 1976 The Family Support Act, 1978 **Quick Bibliography Series**

National Agricultural Library (U.S.). Reference Division, 1994 Rural Poverty in Developing Countries Mr. Mahmood Hasan Khan, 2000-04-01 In most developing countries, poverty is more widespread and severe in rural than in urban areas. The author reviews some important aspects of rural poverty and draws key implications for public policy. He presents a policy framework for reducing poverty, taking into account the functional differences and overlap between the rural poor. Several policy options are delineated and explained, including stable management of the macroeconomic environment, transfer of assets, investment in, and access to the physical and social infrastructure, access to credit and jobs, and provision of safety nets. Finally, some guideposts are identified for assessing strategies to reduce rural poverty. Rural Gays and Lesbians James Donald Smith, 1997 This book provides knowledge and practice tips specific to the unique and changing needs of rural lesbians and gay men. It is intended to help social workers construct culturally competent service programs and intervention techniques. **Retirement Communities in Rural America**, 1993 Choice, 1994 **The American Dream** Joseph L. Daleiden, Can each of us achieve our own American dream while recognizing needs of other individuals, society, and future generations? Not if our present national policies continue, warns long-term planning expert Joseph L. Daleiden. He persuasively argues that if present socioeconomic trends remain, our nation faces social disaster before the middle of the 21st century. These trends can be reversed, he insists, but only if we are willing to 1 reject failed policies, both liberal and conservative, directed at population growth, the environment, the national debt, trade, poverty, crime, race relations, education, healthcare, social security, and tax reform; 2 accept that all of these areas of concern are intertwined; and 3 take responsibility for our decisions. Avoiding ideology and platitudes, Daleiden's pragmatic approach relies on actual evidence of how prospective

policies will influence human behavior and whether their outcomes will increase or decrease human happiness in the long run Joseph L Daleiden Evanston IL is also the author of *The Final Superstition A Critical Evaluation of the Judeo Christian Legacy and The Science of Morality The Individual Community and Future Generations* *Future Survey Annual 1992* Michael Marien,1993-01-30 Women Reformed, Women Empowered Lynda J. Ames,Jeanne Ellsworth,1997 By chronicling the everyday experiences of women in a rural Head Start program this book examines the processes of underprivileged women working to make a better life for themselves and their families It explains that in order to empower its participants the Head Start program allows many women to work as aides or on advisory boards **Rural Poverty in Developing Countries** Mr.Mahmood Hasan Khan,2001-03-14 Reviews causes of poverty in rural areas and presents a policy framework for reducing rural poverty including through land reform public works programs access to credit physical and social infrastructure subsidies and transfer of technology Identifies key elements for drafting a policy to reduce rural poverty
