Rural Aint Necessarily Country, 1985 *Forthcoming Books* Rose Army, 1986 *Books in Print Supplement*, 1985 *It Ain't Necessarily So* Richard Lewontin, 2001-09-30

Is our nature as individuals as a species determined by our evolution and encoded in our genes If we unravel the protein sequences of our DNA will we gain the power to cure all of our physiological and psychological afflictions and even to solve the problems of our society Today biologists especially geneticists are proposing answers to questions that have long been asked by philosophy or faith or the social sciences Their work carries the weight of scientific authority and attracts widespread public attention but it is often based on what the renowned evolutionary biologist Richard Lewontin identifies as a highly reductive misconception the pervasive error that confuses the genetic state of an organism with its total physical and psychic nature as a human being In these nine essays covering the history of modern biology from Darwin to Dolly the sheep all of which were originally published in *The New York Review of Books* Lewontin combines sharp criticisms of overreaching scientific claims with lucid expositions of the exact state of current scientific knowledge not only what we do know but what we don't and maybe won't anytime soon Among the subjects he discusses are heredity and natural selection evolutionary psychology and altruism nineteenth century naturalist novels sex surveys cloning and the Human Genome Project In each case he casts an ever vigilant and deflationary eye on the temptation to look to biology for explanations of everything we want to know about our physical mental and social lives These essays several of them updated with epilogues that take account of scientific developments since they were first written are an indispensable guide to the most controversial issues in the life sciences today The second edition of this collection includes new essays on genetically modified food and the completion of the Human Genome Project It is an indispensable guide to the most controversial issues in the life sciences today

Holland,1985-12-01 *Ain't That a Knee-Slapper* Tim Hollis,2010-07-27 There was a time when rural comedians drew most of their humor from tales of farmers daughters hogs hens and hill country high jinks Lum and Abner and Ma and Pa Kettle might not have toured happily under the Redneck marquee but they were its precursors In Ain t That a Knee Slapper Rural Comedy in the Twentieth Century author Tim Hollis traces the evolution of this classic American form of humor in the mass media beginning with the golden age of radio when such comedians as Bob Burns Judy Canova and Lum and Abner kept listeners laughing The book then moves into the motion pictures of the 1930s 1940s and 1950s when the established radio stars enjoyed second careers on the silver screen and were joined by live action renditions of the comic strip characters Li l Abner and Snuffy Smith along with the much loved Ma and Pa Kettle series of films Hollis explores such rural sitcoms as The Real McCoys in the late 1950s and from the 1960s The Andy Griffith Show The Beverly Hillbillies Green Acres Hee Haw and many others Along the way readers are taken on side

trips into the world of animated cartoons and television commercials that succeeded through a distinctly rural sense of fun. While rural comedy fell out of vogue and networks sacked shows in the early 1970s the emergence of such hits as *The Dukes of Hazzard* brought the genre whooping back to the mainstream. Hollis concludes with a brief look at the current state of rural humor which manifests itself in a more suburban redneck brand of standup comedy. Paperbound Books in Print, 1991.
