Rural Change In Ireland:

Rural Change in Ireland John Davis, 1999 Written by leading scholars this provides penetrating insights and analyses of economic and social change in rural Ireland from the early 19th century to the end of the 20th century Ireland R. W. G. Carter, A. J. Parker, 2020-10-28 This book looks at Ireland's problems from geographic and environmental perspectives placing them within their regional national and international context It is invaluable to students decision makers and all those interested in the current situation in Ireland and its future *The End of Outrage* Breandán Mac Suibhne, 2017 Tells the absorbing story of post famine Donegal the Molly Maguires a secret society who had set themselves up against the exploitation of the rural poor and Patrick McGlynn an avaricious schoolmaster who turned informer on them availing of hunger disease debt hardship and death to expand his holding at the expense of his neighbours **Understanding Contemporary Ireland** Brendan Bartley, Rob Kitchin, 2007 This book provides a detailed student friendly overview of Ireland in the twenty first century and the remarkable economic and social transformations that have occurred since the late 1980s The Celtic Tiger phenomenon has made Ireland the focus of much attention in recent years Other countries have openly declared that they want to follow the Irish economic and social model Yet there is no book that gives a comprehensive spatially informed analysis of the Irish experience This book fills that gap Divided into four parts planning and development the economy the political landscape and population and social issues the chapters provide an explanation of a particular aspect of Ireland and Irish life accompanied by illustrative material In particular the authors reveal how the transformations that have occurred are uneven and unequal in their effects across the country and highlight the challenges now facing Irish society and policy makers Written by experts in the field it is a key text for those wishing to understand the contemporary Irish economic and social landscape **Social change and everyday life in Ireland, 1850-1922** Caitriona Clear, 2013-07-19 Men and women who were born grew up and died in Ireland between 1850 and 1922 made decisions to train to emigrate to stay at home to marry to stay single to stay at school based on the knowledge and resources they had at the time This the first comprehensive social history of Ireland for the years 1850 1922 to appear since 1981 tries to understand that knowledge and to discuss those resources for men and women at all social levels on the island as a whole Original research particularly on extreme poverty and public health is supplemented by neglected published sources local history journals popular autobiography newspapers Folklore and Irish language sources are used extensively All recent scholarly books in Irish social history are of course referred to throughout the book but it is a lively read reproducing the voices of the people and the stories of individuals whenever it can questioning much of the accepted wisdom of Irish historiography over the past five decades Statistics are used from time to time for illustrative purposes but tables and graphs are consigned to the appendix at the back There are some illustrations An idea summary for the student loaded with prompts for future research this book is written in a non cliched jargon free style aimed at the general reader *Participatory Rural*

Planning Michael Murray, 2016-05-13 Participatory Rural Planning presents the argument that citizen participation in planning affairs transcends a rights based legitimacy and an all too frequent perception of being mere consultation Rather it is part of a social learning process that can enhance the prospects for successful implementation provide opportunity for reflection and create a mutuality of respect between different stakeholders in the planning arena Accordingly Michael Murray signposts what can work well and what should work differently in regard to participatory planning by taking rural Ireland as the empirical laboratory and exploring the Irish experience at different spatial scales from the village through to the locality the sub regional and the regional levels The Environmental Movement in Ireland Liam Leonard, 2007-12-03 This book examines key themes in Irish environmental politics including the main components that have come to define such events and incidents of environmental collective action in this country during forty years of growth and development The author analyses the mobilization and framing processes undertaken in these disputes locating them in the context of a wider rural identity that has shaped grassroots environmentalism in the Irish case A History of Settlement in Ireland Terry Barry, 2012-11-12 A History of Settlement in Ireland provides a stimulating and thought provoking overview of the settlement history of Ireland from prehistory to the present day Particular attention is paid to the issues of settlement change and distribution within the contexts of environment demography culture The collection goes further by setting the agenda for future research in this rapidly expanding area of academic interest This volume will be essential reading for all those with an interest in the archaeology history and social geography of Ireland **Transition and Change in the Mid-West of Ireland** Joyce O'Connor, 1983 **Ireland** Terence Brown, 1985 Terence Brown juxtaposes such key topics as nationalism industrialization religion language revival and censorship with his assessments of the major literary and artistic advances to give us a lively and perceptive view of the Irish past In the first two parts he analyzes the ideas images and symbols that provided the Irish people with part of their sense of national identity He considers in Part Three how these conceptions and aspirations fared in the new social order that evolved following the economic revival of the early 1960s *Two Paths, One Purpose : Voluntary Action in Ireland, North and South* Nicholas Acheson, 2004 **Ireland** P. J. Drudy, 1982 **Rural Ireland** Vera Kreilkamp, 2012 This publication is issued in conjunction with the exhibition Rural Ireland the inside story at the McMullen Museum of Art Boston College February 11 June 3 2012 **Contemporary Ireland** Sara O'Sullivan, 2007

Daly, 2006-04-06 Today Ireland's population is rising immigration outpaces emigration most families have two or at most three children and full time farmers are in steady decline But the opposite was true for more than a

century from the great famine of the 1840s until the 1960s Between 1922 and 1966 most of the first fifty years after independence the population of Ireland was falling in the 1950s as rapidly as in the 1880s Mary Daly's *The Slow Failure* examines not just the reasons for the decline but the responses to it by politicians academics journalists churchmen and others who publicly agonized over their nation's slow failure Eager to reverse population decline but fearful that economic development would undermine Irish national identity they fashioned statistical evidence to support ultimately fruitless policies to encourage large rural farm families Focusing on both Irish government and society Daly places Ireland's population history in the mainstream history of independent Ireland Daly's research reveals how pastoral visions of an ideal Ireland made it virtually impossible to reverse the fall in population Promoting large families for example contributed to late marriages actually slowing population growth further The crucial issue of emigration failed to attract serious government attention except during World War II successive Irish governments refused to provide welfare services for emigrants leaving that role to the Catholic Church Daly takes these and other elements of an often sad story weaving them into essential reading for understanding modern Irish history

Racism and social change in the Republic of Ireland Bryan Fanning, 2018-09-30 Now in its second edition *Racism and Social Change in the Republic of Ireland* provides an original and challenging account of racism in twenty first century Irish society and locates this in its historical political sociological and policy contexts It includes specific case studies of the experiences of racism in twenty first century Ireland alongside a number of historical case studies that examine how modern Ireland came to marginalize ethnic minorities Various chapters examine responses by the Irish state to Jewish refugees before during and after the Holocaust asylum seekers and Travellers Other chapters examine policy responses to and academic debates on racism in Ireland A key focus of the various case studies is upon the mechanics of exclusion experienced by black and ethnic minorities within institutional processes and of the linked challenge of taking racism seriously in twenty first century Ireland

Sport and Ireland Paul Rouse, 2015-10-08 This is the first history of sport in Ireland locating the history of sport within Irish political social and cultural history and within the global history of sport *Sport and Ireland* demonstrates that there are aspects of Ireland's sporting history that are uniquely Irish and are defined by the peculiarities of life on a small island on the edge of Europe What is equally apparent though is that the Irish sporting world is unique only in part much of the history of Irish sport is a shared history with that of other societies Drawing on an unparalleled range of sources government archives sporting institutions private collections and more than sixty local national and international newspapers this volume offers a unique insight into the history of the British Empire in Ireland and examines the impact that political partition has had on the organization of sport there Paul Rouse assesses the relationship between sport and national identity how sport influences policy making in modern states and the ways in which sport has been colonized by the media and has colonized it in turn Each chapter of *Sport and Ireland* contains new research on the place of sport in Irish life the playing of hurling matches in London in the eighteenth century

the growth of cricket to become the most important sport in early Victorian Ireland and the enlistment of thousands of members of the Gaelic Athletic Association as soldiers in the British Army during the Great War Rouse draws out the significance of animals to the Irish sporting tradition from the role of horse and dogs in racing and hunting to the cocks bulls and bears that were involved in fighting and baiting

Population Growth and Agrarian Change David B.

Grigg,1980-12-18 This book first published in 1980 suggests some ways of looking at the interrelationships between population growth and agrarian change and uses these approaches to consider the demographic and agrarian problems of various parts of Europe in the past in the fourteenth century the sixteenth and early seventeenth centuries and in the early nineteenth century
