Rural Development And Bureaucracy In Tanzania The Case Of Mwanza Region:

Rural Development and Bureaucracy in Tanzania James R. Finucane, 1974 Monograph on the role of the bureaucracy in the promotion of rural development illustrated by a case study of Mwanza region of Tanzania discusses the role of the political system and political leadership of all levels in modernization of traditional culture and social change political participation of the rural population in community development etc References and statistical tables *Beyond Ujamaa in Tanzania* Goran Hyden, 2023-11-10 *Beyond Ujamaa in Tanzania* Underdevelopment and an Uncaptured Peasantry explores the challenges of development and underdevelopment in Africa with a focus on Tanzania's experience during its early socialist years The book critiques the dominant ideologies of development whether capitalist or socialist as being rooted in Western industrial paradigms that often fail to address the realities of pre capitalist African societies It argues that the underdevelopment in Africa is not solely due to excessive penetration by global capitalism but also to capitalism's inability to dismantle the resilient pre capitalist structures in many rural societies The author highlights the role of the Tanzanian peasantry whose economic and social autonomy often resists the centralizing tendencies of modern development presenting them not as mere appendages to the global economy but as key players with their own modes of production and unique societal structures The book is grounded in over a decade of fieldwork and engagement with rural Tanzanian communities enriched by the author's fluency in Swahili and deep involvement in local life It argues for a more nuanced approach to studying African societies one that goes beyond Western assumptions and models By placing the peasant mode of production at the center of analysis the study challenges conventional wisdom and suggests that the primary development challenge in Africa lies not with multinational corporations but with understanding and working within the dynamics of the smallholder peasant economy The author also reflects on the limitations of conventional social science research and calls for greater involvement in the lived realities of the communities studied emphasizing the need for research methods that are sensitive to local contexts and values The book combines academic critique field observations and a focus on the epistemological biases of Western scholarship to present a compelling argument for rethinking development in Africa This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1980

Political Thought and the Public Sphere in Tanzania Emma Hunter, 2015-04-27 *Political Thought and the Public Sphere in Tanzania* is a study of the interplay of vernacular and global languages of politics in the era of decolonization in Africa Decolonization is often understood as a moment when Western forms of political order were imposed on non Western societies but this book draws attention instead to debates over universal questions about the nature of politics concept of freedom and the meaning of citizenship These debates generated political narratives that were formed in dialogue with both

global discourses and local political arguments The United Nations Trusteeship Territory of Tanganyika now mainland Tanzania serves as a compelling example of these processes Starting in 1945 and culminating with the Arusha Declaration of 1967 Emma Hunter explores political argument in Tanzania s public sphere to show how political narratives succeeded when they managed to combine promises of freedom with new forms of belonging at local and national level *Regional Rural Banks and Rural Development* Dr. Sunil Kumar,1990 Tanzania Kjell J. Havnevik,1993 **Geographers** Patrick H. Armstrong,Geoffrey Martin,2015-12-14 An annual collection of studies of individuals who have made major contributions to the development of geography and geographical thought Subjects are drawn from all periods and from all parts of the world and include famous names as well as those less well known explorers independent thinkers and scholars Each paper describes the geographer s education life and work and discusses their influence and spread of academic ideas Each study includes a select bibliography and brief chronology The work includes a general index and a cumulative index of geographers listed in volumes published to date *The Development State* Maia Green,2014 A timely ethnographically informed account of the development state of Tanzania showing how development practice and culture have become integrated into everyday life politically socially and economically How has development affected the practices of the state in Africa How has the development state become the basis of social organisation How do Tanzanians position themselves to obtain aid money to effect change in their personallives Financial aid flows have entrenched an economy of intervention in which the main beneficiaries are those who can claim to undertake development activities Even for those not formally engaged in the development sector its discourses influence everyday discussion about class and inequality poverty and wealth modernity and tradition With Tanzania as the country focus the author shows how the practices of development have infiltrated not only the state at large but many aspects of people s everyday lives Maia Green is Professor of Social Anthropology at the University of Manchester *Socialist and Self-Reliance In Tanzania* Kimse A.B. Okoko,2024-11-01 This study developed from a keen interest in the politics of contemporary Africa especially in regard to the seemingly intractable problem of political dependence with its economic correlate of underdevelopment The most interesting contemporary work on African political economy explores the link between economic underdevelopment and political dependence Development and independence are seen as moving in the same direction in the long run even if in the short run there appear to be inherent contradictions in their immediate needs in a concrete situation The focus of this work emphasizes the internal contradictions such as exist between the bureaucracy and the political leadership within Tanzania rather than the external linkages "I am just a Sukuma" Frans Wijzen,Ralph Tanner,2016-08-29 Introduction Culture and identity among the Sukuma Origin and growth of Sukuma identity The intrusions of colonialism The hopes and frustrations of socialist ideology The Sukuma and the ideology of a free market Sukuma identity and modernization References About the authors **Peasant Cooperatives and Political Change in Peru** Cynthia McClintock,2014-07-14 This is the first study to apply to the topics of workplace democracy or

change in political culture both before and after sample survey data as well as long term participant observation Originally published in 1981 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
