**Rural Information Systems** Rueben C. Buse,James Lawrence Driscoll,1992 *ARED News* United States. Department of Agriculture. Economic Research Service. Agriculture and Rural Economy Division,1990 **Survey Research**

**Methodology, 1990-1999** Graham R. Walden,2002-09-30 Survey research is one of the most widely used research methodologies across the social and behavioral sciences Two trends that have had a major impact on the development of survey methods over the last decade are 1 the application of techniques and theories from cognitive psychology to the understanding and reduction of survey measurement error and 2 the application of new computer and telephony technologies to data collection and analysis These trends and other emerging issues from the 1990 s literature on survey research methods are captured here in 617 detailed annotations to monographs journals government documents dissertations and ERIC documents Annotations include examples from business criminology education health and medicine law library science mass media military science political science psychology sociology social work religion and women s studies The bibliographic entries provide every useful element including series names complete subtitles and overall text page numbers as well as chapter page numbers The extensive annotations are more complete and more detailed than is typical for annotated bibliographies The descriptions include highlights of the study data and sufficient detail to enable the reader to make an informed choice as to whether to seek the full text Appendices include journals cited and the major survey research organizations The annotations are easily accessed through author and subject indexes **Guide to Rural Data**

Priscilla Salant,Anita J. Waller,1995 This book aims to acquaint researchers primarily in local organizations with data they can use to describe and better understand rural communities Chapter 1 describes a few basic data concepts for readers who are not experienced data users Chapter 2 provides an overview of major data sources that can be used to describe rural communities including the Census Bureau s decennial and current population programs the Census Bureau s agricultural economic and government censuses personal income data from the Bureau of Economic Analysis and labor market data from the Bureau of Labor Statistics The chapter also explains where researchers can find data issued by these agencies and where they can find more information by state or region Chapters 3 5 show how researchers can use federal state and local data to understand social and economic change in very diverse rural communities Data sources cover general population education labor force income housing health industry specific data and local government Sample counties from the Economic Research Service County Typology groups are used to put the data sources in context Appendices provide postal and electronic addresses and phone numbers for state and federal offices that house or collect data and give details about Census Bureau publications and economic census programs Contains 49 references 36 data tables and figures a glossary and an index SV

**Extractives, Manufacturing, and Services** David O. Whitten,1997-04-22 The second volume in the Handbook of American Business History series this book offers concise histories of extractive manufacturing and service industries as well

as extensive bibliographic essays pointing to the leading sources on each industry and bibliographic checklists Supplementing other bibliographic materials in business history this volume provides researchers with a much needed path through the vast array of material available in the library and on the Internet Indicating which resources to check and which to bypass the book is a guide to a sometimes overwhelming amount of information Each of the book's chapters provides a concise industry history beginning with the industry's rise to importance in the U S and continuing to the present The bibliographic essays provide a narrative outline of the leading sources published or made available in archives libraries or museum collections since 1971 when Lovett's American Economic and Business History Information Sources was published Each discussion concludes with a bibliographic checklist of the titles mentioned in the essay as well as other titles In a rapidly expanding information society researchers teachers and students may be easily overwhelmed by the exhaustive material available in print and electronically What is useful and what can be ignored is a strategic question and few know where to begin This book provides a guide

*Using the Agricultural, Environmental, and Food Literature* Barbara S. Hutchinson,Antoinette Paris-Greider,2002-07-17 This text discusses a wide range of print and electronic media to locate hard to find documents navigate poorly indexed subjects and investigate specific research topics and subcategories It includes a chapter on grey and extension literature covering technical reports and international issues
