Rural Life In Eighteenth Century English Poetry:

Rural Life in Eighteenth-Century English Poetry John Goodridge, 1995 Recent research into a self taught tradition of English rural poetry has begun to offer a radically new dimension to our view of the role of poetry in the literary culture of the eighteenth century In this important new study John Goodridge offers a detailed reading of key rural poems of the period examines the ways in which eighteenth century poets adapted Virgilian Georgic models and reveals an illuminating link between rural poetry and agricultural and folkloric developments Goodridge compares poetic accounts of rural labour by James Thomson Stephen Duck and Mary Collier and makes a close analysis of one of the largely forgotten didactic epics of the eighteenth century John Dyer's *The Fleece* Through an exploration of the purpose of rural poetry and how it relates to the real world Goodridge breaks through the often brittle surface of eighteenth century poetry to show how it reflects the ideologies and realities of contemporary life *A Companion to Eighteenth-Century Poetry* Christine Gerrard, 2014-02-10 A COMPANION TO EIGHTEENTH CENTURY POETRY A COMPANION TO EIGHTEENTH CENTURY POETRY Edited by Christine Gerrard This wide ranging Companion reflects the dramatic transformation that has taken place in the study of eighteenth century poetry over the past two decades New essays by leading scholars in the field address an expanded poetic canon that now incorporates verse by many women poets and other formerly marginalized poetic voices The volume engages with topical critical debates such as the production and consumption of literary texts the constructions of femininity sentiment and sensibility enthusiasm politics and aesthetics and the growth of imperialism The Companion opens with a section on contexts considering eighteenth century poetry's relationships with such topics as party politics religion science the visual arts and the literary marketplace A series of close readings of specific poems follows ranging from familiar texts such as Pope's *The Rape of the Lock* to slightly less well known works such as Swift's *Stella* poems and Lady Mary Wortley Montagu's *Town Eclogues* Essays on forms and genres and a series of more provocative contributions on significant themes and debates complete the volume The Companion gives readers a thorough grounding in both the background and the substance of eighteenth century poetry and is designed to be used alongside David Fairer and Christine Gerrard's *Eighteenth Century Poetry: An Annotated Anthology* 3rd edition 2014 **Eighteenth Century English Poetry** Peter Thorpe, 1975 To find more information about Rowman and Littlefield titles please visit www.rowmanlittlefield.com **The Thresher's Labour (1736)** Stephen Duck, 1985 *The Cambridge Companion to English Literature, 1740-1830* Thomas Keymer, Tom Keymer, Jon Mee, 2004-06-17 This volume offers an introduction to British literature that challenges the traditional divide between eighteenth century and Romantic studies Contributors explore the development of literary genres and modes through a period of rapid change They show how literature was shaped by historical factors including the development of the book trade the rise of literary criticism and the expansion of commercial society and empire The wide scope of the collection juxtaposing canonical authors with those now gaining new attention from scholars makes it essential reading for students of

eighteenth century literature and Romanticism Patriotism and Poetry in Eighteenth-Century Britain Dustin Griffin, 2005-11-17 The poetry of the mid and late eighteenth century has long been regarded as primarily private and apolitical in this wide ranging study Dustin Griffin argues that in fact the poets of the period were addressing the great issues of national life rebellion at home imperial wars abroad an expanding commercial empire an emerging new British national identity Taking up the topic of patriotic verse Griffin shows that poets such as Thomas Gray Christopher Smart Oliver Goldsmith and William Cowper were engaged in the century long debate about the nature of true patriotism **Mania and Literary Style** Clement Hawes, 1996-01-26 This highly original study of the manic style in enthusiastic writing of the seventeenth and eighteenth centuries identifies a literary tradition and line of influence running from the radical visionary and prophetic writing of the Ranters and their fellow enthusiasts to the work of Jonathan Swift and Christopher Smart Clement Hawes offers a counterweight to recent work which has addressed the subject of literature and madness from the viewpoint of contemporary psychological medicine putting forward instead a stylistic and rhetorical analysis He argues that the writings of dissident enthusiastic groups are based in social antagonisms and his account of the dominant culture s ridicule of enthusiastic writing an attitude which persists in twentieth century literary history and criticism provides a powerful and daring critique of pervasive assumptions about madness and sanity in literature Philosophical Dialogue in the British Enlightenment Michael Prince, 1996 This book offers the first full length study of philosophical dialogue during the English Enlightenment It explains why important philosophers Shaftesbury Mandeville Berkeley and Hume and innumerable minor translators imitators and critics wrote in and about dialogue during the eighteenth century and why after Hume philosophical dialogue either falls out of use or undergoes radical transformation Philosophical Dialogue in the British Enlightenment describes the extended heavily coded and often belligerent debate about the nature and proper management of dialogue and it shows how the writing of philosophical fictions relates to the rise of the novel and the emergence of philosophical aesthetics Novelists such as Fielding Sterne Johnson and Austen are placed in a philosophical context and philosophers of the empiricist tradition in the context of English literary history Poetic Sisters Deborah Kennedy, 2013 In Poetic Sisters Deborah Kennedy explores the personal and literary connections among five early eighteenth century women poets Anne Finch Countess of Winchelsea Elizabeth Singer Rowe Frances Seymour Countess of Hertford Sarah Dixon and Mary Jones Richly illustrated and elegantly written this book brings the eighteenth century to life presenting a diverse range of material from serious religious poems to amusing verses on domestic life The work of Anne Finch author of A Nocturnal Reverie provides the cornerstone for this well informed study But it was Elizabeth Rowe who achieved international fame for her popular religious writings Both women influenced the Countess of Hertford who wrote about the beauty of nature centuries before modern Earth Day celebrations Sarah Dixon a middle class writer from Kent had a strong moral outlook and stood up for those whose voices needed to be heard including her own Finally Mary Jones who lived in Oxford was praised for

both her genius and her sense of humor Poetic Sisters presents a fascinating female literary network revealing the bonds of a shared vocation that unites these writers It also traces their literary afterlife from the eighteenth century to the present day with references to contemporary culture demonstrating how their work resonates with new generations of readers *The Oxford Handbook of British Poetry, 1660-1800* John T. Lynch, 2016 In the most comprehensive up to date account of the poetry published in Britain between the Restoration and the end of the eighteenth century a team of leading experts surveys the poetry of the age in all its richness and diversity They provide a systematic overview and restore these poetic works to a position of centrality in modern criticism

Lady Mary Wortley Montagu Isobel Grundy, 1999 This book is the first to look at Lady Mary Wortley Montagu's achievement as a vital figure in the women's literary tradition Robert Halsband's book on her life the sixth this century and published in 1956 was the first to apply scholarly techniques to establishing the facts The inaccurate accounts given before Halsband testify to Lady Mary's compelling interest as a woman who wrote travelled campaigned publicly for medical advance gossiped and was involved in high profile literary quarrels Knowledge of her life has made considerable gains since Halsband as understanding of the issues involved in trying to move between the roles of proper lady and woman writer has increased enormously This life fruitfully exploits the tension between literary history and feminist reading Isobel Grundy highlights Montagu's adolescent longing for literary fame her growing understanding of the implications of this for gender and class imperatives the frustrations and concessions involved in her collaborations with male writers the punitive responses of society the gaps at every stage of her life between her ascertainable circumstances and her construction of herself in letters and other writings The book situates those writings in relation to her own theorizing and her very wide reading in women's texts as well as men's Finally it looks at a range of contemporary and near contemporary responses

Poetry, Enclosure, and the Vernacular Landscape, 1700-1830 Rachel Crawford, 2002-09-05 Publisher Description

Natural Rights and the Birth of Romanticism in the 1790s R. White, 2005-11-22 Following the American War of Independence and the French Revolution ideas of the Natural Rights of Man later distinguished into particular issues like rights of association rights of women slaves children and animals were publicly debated in England Literary figures like Wollstonecraft Godwin Thelwall Blake and Wordsworth reflected these struggles in their poetry and fiction With the seminal influences of John Locke and Rousseau these and many other writers laid for high Romantic Literature foundations that were not so much aesthetic as moral and political This new study by R S White provides a reinterpretation of the Enlightenment as it is currently understood

Breeding Jenny Davidson, 2023-05-09 The Enlightenment commitment to reason naturally gave rise to a belief in the perfectibility of man Influenced by John Locke and Jean Jacques Rousseau many eighteenth century writers argued that the proper education and upbringing breeding could make any man a member of the cultural elite Yet even in this egalitarian environment the concept of breeding remained tied to theories of blood lineage caste distinction and biological difference Turning to the works of Locke Rousseau

Swift Defoe and other giants of the British Enlightenment Jenny Davidson revives the debates that raged over the husbandry of human nature and highlights their critical impact on the development of eugenics the emergence of fears about biological determinism and the history of the language itself Combining rich historical research with a keen sense of story she links explanations for the physical resemblance between parents and children to larger arguments about culture and society and shows how the threads of this compelling conversation reveal the character of a century A remarkable intellectual history Breeding not only recasts the fundamental concerns of the Enlightenment but also uncovers the seeds of thought that bloomed into contemporary notions of human perfectibility

Bard of Liberty Geraint H. Jenkins, 2012-06-15 This is the first full scale study of the political radicalism of Iolo Morganwg the renowned Welsh romantic whose colourful life as a Glamorgan stonemason poet writer political activist and humanitarian made him one of the founders of modern Wales This path breaking volume offers a vivid portrait of a natural contrarian who tilted against the forces of the establishment for the whole of his adult life Known as the Bard of Liberty or the little republican bard he moved in highly politicized circles embraced republicanism founded the Gorsedd of the Bards of the Isle of Britain threw in his lot with Unitarians promoted a sense of cultural nationalism and supported the anti slave trade campaign and the anti war movement during years of war oppression and cruelty

Cultivating Peace Melissa Schoenberger, 2019-05-17 During the decades following the English civil wars British poets seeking to make sense of lingering political instabilities turned to Virgil s Georgics This ancient poem betrays deep ambivalences about war political power and empire and such poets as Andrew Marvell John Dryden and Anne Finch found in these attitudes valuable ways of responding to the uncertainties of their own time Composed during a period of brutal conflict in Rome Virgil s agricultural poem distrusts easy stability urging its readers to understand that lasting peace must be sowed tended reaped and replanted year after year Like the ancient poet who famously depicted a farmer s scythe suddenly recast as a sword the poets discussed in Cultivating Peace imagine states of peace and war to be fundamentally and materially linked In distinct ways they dismantle the dream of the golden age renewed proposing instead that peace must be sustained by constant labor Published by Bucknell University Press Distributed worldwide by Rutgers University Press

The Country and the City Revisited Gerald M. MacLean, Donna Landry, Joseph P. Ward, 1999-01-21 A revisionist interdisciplinary study of the transformation of England into an imperial power between 1550 and 1850

The Wreckage of Intentions David Alff, 2017-09-12 The seventeenth and eighteenth centuries in Britain saw the proposal of so many endeavors called projects a catchphrase for the daring sometimes dangerous practice of shaping the future that Daniel Defoe dubbed his era a Projecting Age These ideas spanned a wide variety of scientific technological and intellectual interventions intended for the betterment of England But for all the fanfare surrounding them few such schemes actually materialized leaving scores of defunct visions from Defoe s own attempt to farm cats for perfume to Mary Astell s proposal to charter a college for women to countless ventures for improving land streamlining government and inventing new consumer

goods Taken together these failed plans form a compelling alternative history of a Britain that might have been The Wreckage of Intentions offers a comprehensive and critical account of projects exploring the historical memory surrounding these concrete yet incomplete efforts to advance British society during a period defined by revolutions in finance and agriculture the rise of experimental science and the establishment of constitutional monarchy Using methods of literary analysis David Alff shows how projects began as written proposals circulated as print objects spurred physical undertakings and provoked responses in the realms of poetry fiction and drama Mapping this process discloses the ways in which eighteenth century authors applied their faculties of imagination to achieve finite goals and in so doing devised new ways of seeing the world through its future potential Approaching old projects through the language landscapes data and personas they left behind Alff contends this vision was and remains vital to the functions of statecraft commerce science religion and literature *Eighteenth-Century English Labouring-Class Poets, vol 1* John Goodridge, Simon Kövesi, David Fairer, Tim Burke, William Christmas, 2020-04-28 Poets of labouring class origin were published in Britain in the 18th and 19th centuries Some were popular and important in their day but few are available today This is a collection of some of those poems from the 18th century *Women, Work, and Wages in England, 1600-1850* Penelope Lane, Neil Raven, K. D. M. Snell, 2004 The work of women is recognised as having been fundamental to the industrialization of Britain These studies explore how that work was remunerated in studies that range across time region and occupation Topics include the changing nature of women s work customary norms and women and the East India Company
