**Running Against the Wind** Michael Wartell, 2016-06-14 Leading an institution of higher education requires an understanding of the responsibilities of the position the diversity of its constituencies and the complexity of the environment This volume describes the structure and function of campus leadership and the interests of constituent groups as well as offering practical suggestions and advice on succeeding in the position Organized by first describing the position then explaining interactions with internal and external constituent groups and the organizational structure within the university and finally discussing situations and behaviors with which a president or chancellor must deal the book offers specific suggestions and tips for dealing with real situations The average tenure of a primary campus leader is fewer than five years Effecting authentic change in higher education requires a longer time horizon This volume may help leaders to persevere and manage productive change

**Against the Wind** Lee DiPietro, 2015-09-15 To one woman running was more than a passion it was a lesson in perseverance Lee DiPietro discovered the exhilaration of endurance athletics when she ran her first half marathon in her late twenties From that day forward she took on every marathon that she could and despite having to juggle her running with her responsibilities as mother and wife she quickly established herself as one of the best runners in the United States Over the next thirty years Lee won race after race running in everything from local competitions to the three most challenging endurance races the Boston Marathon the New York City Marathon and the Ironman triathlon What she did not know as she climbed the ranks of the running world was the struggle her family would face and the role her running would play in helping her persevere in the face of great adversity When Lee's husband was diagnosed with cancer and her son suffered a devastating accident she found herself falling back on the lessons she had learned as a marathoner to help her endure the sudden family trials In *Against the Wind* DiPietro takes us through her harrowing yearlong fight for the lives of her husband and son Despite the great difficulties she faced throughout it all remained her love for running *Against the Wind* is a story that will resonate with readers whose lives have been affected by cancer as well as those who are dedicated to endurance sports It proves that running is a tool to save lives far from just a sport and test of one's mettle Skyhorse Publishing as well as our Sports Publishing imprint is proud to publish a broad range of books for readers interested in sports books about baseball pro football college football pro and college basketball hockey or soccer we have a book about your sport or your team In addition to books on popular team sports we also publish books for a wide variety of athletes and sports enthusiasts including books on running cycling horseback riding swimming tennis martial arts golf camping hiking aviation boating and so much more While not every title we publish becomes a New York Times bestseller or a national bestseller we are committed to publishing books on subjects that are sometimes overlooked by other publishers and to authors whose work might not otherwise find a home

**Crops Against the Wind on the Southern Great Plains** Glenn Kenton Rule, 1939 **The Great Texas Wind Rush** Kate Galbraith, Asher Price, 2013-07-01 From two environmental journalists the improbable story of how the oil and gas state became the nation's wind power leader. The Texas Observer. In the late 1990s West Texas was full of rundown towns and pumpjacks, aging reminders of the oil rush of an earlier era. Today the towns are thriving as 300-foot tall wind turbines tower above those pumpjacks. Wind energy has become Texas's latest boom. How did this dramatic transformation happen in a state that fights federal environmental policies at every turn? In *The Great Texas Wind Rush* environmental reporters Kate Galbraith and Asher Price tell the compelling story of a group of unlikely dreamers and innovators, politicians and profiteers. The tale spans a generation and more and it begins with the early wind pioneers, precocious idealists who saw opportunity after the 1970s oil crisis. Operating in an economy accustomed to exploiting natural resources and always looking for the next big thing, their ideas eventually led to surprising partnerships between entrepreneurs and environmentalists as everyone from Enron executives to T. Boone Pickens as well as Ann Richards, George W. Bush, and Rick Perry ended up backing the new technology. In this down-to-earth account the authors explain the policies and science that propelled the windcatters to reap the great harvest of Texas wind. They also explore what the future holds for this relentless resource that is changing the face of Texas energy. Enjoyable to read. I learned something on every page. Michael Webber, Associate Director, Center for International Energy and Environmental Policy, University of Texas at Austin. A thoughtful, valuable story for anyone who cares about renewable energy or climate change. The Associated Press. *Running with the Wind* Nell Stark, 2007-03-01 Love like the wind charts its own course. Once upon a time Corrie Marsten fell hard and got dumped. Now her only loves are sailing and power. By day she works as the head instructor for the University of Rhode Island's Sailing Center. Once night falls she indulges in frequent casual sex with her friends, all of whom know that like the wind she can't be tethered. When Corrie meets vet student Quinn Davies, an enrollee in the summer sailing course, she senses Quinn's attraction and comes on strong. Quinn, though drawn to the charismatic Corrie, doesn't reciprocate for important reasons of her own, leaving Corrie frustrated.

tantalized and intrigued As the summer progresses Corrie and Quinn gradually develop a friendship that hints at so much more Will Quinn admit her growing attraction Will Corrie be able to forgive forget and love again When fate conspires to make them teammates in a high stakes sailing regatta will they run with the wind or resist it *Explanations and Sailing Directions to accompany the Wind and Current Charts, approved by C.
