**Ruskin's Poetic Argument** Paul L. Sawyer, 1985      Ruskin's Poetic Argument Paul L. Sawyer,      *Ruskin's Culture Wars* Judith Stoddart, 1998 In *Ruskin's Culture Wars* Judith Stoddart provides the first sustained modern critical reading of Fors Clavigera placing this classic work in the context of its Victorian contemporaries art journals liberal and working class periodicals and popular criticism In recreating the intellectual climate she demonstrates the sense of cultural crisis and change evident at the time Rebelling against the tendency to treat Ruskin's letters as the prose lyric of a damaged psyche Stoddart shows how the cumulative text of Fors Clavigera not only records but revises and redirects the preoccupations of his period He was an integral part of Victorian discussions of literary tradition and of the roles of democracy and nationality in late nineteenth century Europe      The Genius of John Ruskin John Ruskin, John D. Rosenberg, 1997 This volume powerfully demonstrates the range and inexhaustible vitality of Ruskin's prose and will once again become an indispensable reference for Victorianists from a range of disciplines      **John Ruskin and the Fabric of Architecture** Anuradha Chatterjee, 2017-10-02 Through the theoretical lenses of dress studies gender science and visual studies this volume analyses the impact John Ruskin has had on architecture throughout the nineteenth and twentieth centuries It explores Ruskin's different ideologies such as the adorned wall veil which were instrumental in bringing focus to structures that were previously unconsidered *John Ruskin and the Fabric of Architecture* examines the ways in which Ruskin perceives the evolution of architecture through the idea that architecture is surface The creative act in architecture analogous to the divine act of creation was viewed as a form of dressing By adding highly aesthetic features to designs taking inspiration from the veil of women's clothing Ruskin believed that buildings could be transformed into meaningful architecture This volume discusses the importance of Ruskin's surface theory and the myth of feminine architecture and additionally presents a competing theory of textile analogy in architecture based on morality and gender to counter Gottfried Semper's historicist perspective This book would be beneficial to students and academics of architectural history and theory gender studies and visual studies who wish to delve into Ruskin's theories and to further understand his capacity for thinking beyond the historical methods The book will also be of interest to architectural practitioners particularly Ruskin's theory of surface architecture      *All Great Art is Praise* Aidan Nichols, 2016-09-30 13 *The Political Economy of Art and Other Critical Matters* 14 *University with a Difference The Oxford Lectures* 15 *From Tuscany to the Somme* 16 *Back to England Again Conclusion* *Final Public Letters Last Look at a Life Selected Bibliography Index of Names*      **The Lamp of Memory** Michael Wheeler, Nigel Whiteley, 1992      **Aestheticism and Deconstruction** Jonathan Loesberg, 2014-07-14 Considered an exemplar of Art for Art's Sake in Victorian art and literature Walter Pater 1839-1894 was co-opted as a standard bearer for the cult of hedonism by Oscar Wilde and this version of aestheticism has since been used to attack deconstruction Here Jonathan Loesberg boldly uses Pater's important work on society and culture *Studies in the History of the Renaissance* 1873

to argue that the habitual dismissal of deconstruction as aestheticist fails to recognize the genuine philosophic point and political engagement within aestheticism Reading Jacques Derrida and Paul de Man in light of Pater's Renaissance Loesberg begins by accepting the charge that deconstruction is aestheticist He goes on to show however that aestheticism and modern deconstruction both produce philosophical knowledge and political effect through persistent self questioning or self resistance and in the internal critique and destabilization of hegemonic truths Throughout Loesberg reinterprets Pater and reexamines the contributions of deconstruction in relation to the apparent theoretical shift away from deconstruction and toward new historicism Originally published in 1991 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905     *Ruskin* Sheila

Emerson,1993-12-02 A remarkable study of how early literary familial sexual and social experiences affect artistic identity

*A Sense of Shock* Adam Parkes,2011-08-19 What does modern British and Irish literature have to do with French impressionist painting And what does Henry James have to do with the legal dispute between John Ruskin and J M W Whistler What links Walter Pater with Conrad's portrait of a genocidal maniac in *Heart of Darkness* Or George Moore with Irish nationalism Virginia Woolf with modern distraction and Ford Madox Ford with the Great Depression Adam Parkes argues that we must answer such questions if we are to appreciate the full impact of impressionist aesthetics on modern British and Irish writers Complicating previous accounts of the influence of painting and philosophy on literary impressionism *A Sense of Shock* highlights the role of politics uncovering new and deeper linkages In the hands of such practitioners as Conrad Ford James Moore Pater and Woolf literary impressionism was shaped by its engagement with important social issues and political events that defined the modern age As Parkes demonstrates the formal and stylistic practices that distinguish impressionist writing were the result of dynamic and often provocative interactions between aesthetic and historical factors Parkes ultimately suggests that it was through this incendiary combination of aesthetics and history that impressionist writing forced significant change on the literary culture of its time *A Sense of Shock* will appeal to students and scholars of nineteenth and twentieth century literature as well as the growing readership for books that explore problems of literary history and interdisciplinarity     *Language, Literature and Critical Practice* David Birch,2005-08-18

Using a wide ranging variety of texts the author reviews and evaluates a broad range of approaches to textual commentary introducing the reader to the fundamental distinction between actual and virtual worlds in critical practice     *Reader's Guide to Literature in English* Mark Hawkins-Dady,2012-12-06 *Reader's Guide Literature in English* provides expert guidance to and critical analysis of the vast number of books available within the subject of English literature from Anglo

Saxon times to the current American British and Commonwealth scene It is designed to help students teachers and librarians choose the most appropriate books for research and study

**Praeterita** John Ruskin, 2012-05-10 For as I look deeper into the mirror I find myself a more curious person than I had thought John Ruskin 1819 1900 was a towering figure of the nineteenth century an art critic who spoke up for J M W Turner and for the art of the Italian Middle Ages a social critic whose aspiration for and disappointment in the future of Great Britain was expressed in some of the most vibrant prose in the language Ruskin s incomplete autobiography was written between periods of serious mental illness at the end of his career and is an eloquent analysis of the guiding powers of his life both public and private An elegy for lost places and people Praeterita recounts Ruskin s intense childhood his time as an undergraduate at Oxford and most of all his journeys across France the Alps and northern Italy Attentive to the human or divine meaning of everything around him Praeterita is an astonishing account of revelation

Continental Crosscurrents J. B. Bullen, 2005-08-25 Continental Crosscurrents is a series of case studies reflecting British attitudes to continental art during the nineteenth and the early twentieth centuries It stresses the way in which the British went to the continent in their search for origins or their pursuit of sources of purity and originality This cult of the primitive took many forms it involved a reassessment of medieval German and Italian art and offered new ways of interpreting Venetian painting it opened up new readings of architectural history and the discovery of the Romanesque it generated a debate about the value of returning to religious subjects in art and it raised the question of the relationship between modern art and Byzantine art in the early twentieth century J B Bullen s original study presents some exciting findings Few critics have noticed how much in advance of his time was Coleridge s passion for medieval art Ruskin s debt in the Stones of Venice to Victor Hugo s Notre Dame de Paris has hardly been noted and Browning s involvement with the debate on the morality of Christian art is explored more extensively than previously Three chapters are devoted to the role of British criticism in identifying the Romanesque style in architecture and differentiating it from the Gothic They trace the concept as it arose in criticism at the beginning of the nineteenth century its

employment in the remarkable buildings of Edmund Sharpe and Sara Losh and the way in which it reached a climax in Waterhouse's enigmatic choice of Romanesque for the Natural History Museum in London. The collection concludes with two continental episodes from the history of modernism. One is the explosive British reaction to the primitivism of Gauguin; the other involves the identifying of one of the characters in D. H. Lawrence's novel *Women in Love*. Curious evidence suggests that the malevolent figure of Loerke was based on a German sculptor whom Lawrence met in Italy before the First World War.

**Men in Wonderland** Catherine Robson, 2018-06-05 Fascination with little girls pervaded Victorian culture. For many girls represented the true essence of childhood or bygone times of innocence, but for middle class men especially writers the interest ran much deeper. In *Men in Wonderland* Catherine Robson explores the ways in which various nineteenth century British male authors constructed girlhood and analyzes the nature of their investment in the figure of the girl. In so doing she reveals the link between the idealization of little girls and a widespread fantasy of male development, a myth suggesting that men become masculine only after an initial feminine stage lived out in the protective environment of the nursery. Little girls, argues Robson, thus offer an adult male the best opportunity to reconnect with his own lost self. Tracing the beginnings of this myth in the writings of Romantics Wordsworth and De Quincey, Robson identifies the consolidation of this paradigm in numerous Victorian artifacts ranging from literary works by Dickens and Barrett Browning to paintings by Frith and Millais to reports of the Royal Commission on Children's Employment. She analyzes Ruskin and Carroll's high noon of girl worship and investigates the destruction of the fantasy in the closing decades of the century when social concerns about the working girl sexualized the image of young females. *Men in Wonderland* contributes to a growing interest in the nineteenth century's construction of childhood, sexuality and masculinity and illuminates their complex interconnections with a startlingly different light. Not only does it complicate the narratives of pedophilic desire that are generally used to explain figures like Ruskin and Carroll, but it offers a new understanding of the Victorian era's obsession with loss, its rampant sentimentality and its intense valorization of the little girl at the expense of mature femininity.

*Elegant Jeremiahs* (Routledge Revivals) George P. Landow, 2015-06-11 Labelled an elegant Jeremiah by a journalist of his day, the urbane Victorian Matthew Arnold must have received the comparison with the Old Testament prophet uneasily. Writing in the 1970s Norman Mailer seems to owe nothing to the biblical for his description of a long hot wait to buy a cold drink while reporting on the first voyage to the moon. Yet both Arnold and Mailer, George P. Landow asserts in this book, are sages, writers in the nonfiction prose form of secular prophecy, a genre richly influenced by the episodic structures and harshly critical attitudes toward society which characterize Old Testament prophetic literature. In this book, first published in 1986, Landow defines the genre by exploring its rhetoric, an approach that enables him to illuminate the relationships among representative works of the nineteenth century to one another, to biblical oratorical and homiletic traditions, and to such twentieth century writers as Lawrence, Didion and Mailer.

**Victorian Empiricism** Peter Garratt, 2010 Empiricism, one of Raymond Williams's keywords

circulates in much contemporary thought and criticism solely as a term of censure a synonym for spurious objectivity or positivism Yet rarely if ever has it had this philosophical implication Dr Johnson it should be recalled kicked the stone precisely to expose empiricism's baroque falsifications of common sense In an effort to restore historical depth to the term this book examines epistemology in the narrative prose of five writers John Ruskin Alexander Bain G H Lewes Herbert Spencer and George Eliot developing the view that the flourishing of nineteenth century scientific culture occurred at a time when empiricism itself was critically dismantling any such naive representationalism      **Aestheticism** Leon Chai,1990

*The Rhetoric of Empiricism* Jules David Law,1993 Empiricism favors the visual over the verbal the literal over the rhetorical the static over the temporal This is the standard charge leveled by literary theorists and writers It is Jules David Law demonstrates remarkably misguided His ambitious and challenging book explores the interplay of language and visual perception at the heart of empiricism A re evaluation of the British empiricist tradition from the perspective of contemporary literary theory it also offers a sustained challenge to theory itself In failing to grasp the issues confronting early empiricist writers or to be fully aware of their rhetorical strategies Law says theory has defined itself needlessly in opposition to empiricism Description from <http://www.booktopia.com.au> April 19 2012
