Hennessey, 1983 *Guide To Easier Living* Russel Wright, Mary Wright, 2003-03-06 Time is a valued commodity in our modern world and everyone struggles to make the most of each minute Russel and Mary Wright recognized decades ago that finding time to organize their lives and homes would become a priority for modern men and women In their groundbreaking book *Guide to Easier Living* the Wrights offered simple ways to achieve a comfortable well designed and organized living environment in any home for any family Originally published in 1950 Gibbs Smith is proud to rerelease *Guide to Easier Living* and to reintroduce the Wrights time tested and proven methods for maintaining an inviting and efficient home From ways to make household chores as fast and painless as possible to how to organize a room for maximum living space the Wrights pioneered a new informal way of living for a newly suburban American public The Wrights ideas revolutionized American living and the way everyday people dealt with the unending job of keeping a home in order These methods and ideas are just as relevant if not more so today as they were a half century ago Russel and Mary Wright were prominent and successful designers who pioneered the fusion of modern design and informal living Most importantly they were known for their tabletop designs The Wrights most famous tabletop design *American Modern* was the best selling dinnerware in American history and has just been rereleased by Oneida Ltd

Mid-Century Modernism and the American Body Kristina Wilson, 2021-04-13 The first investigation of how race and gender shaped the presentation and marketing of Modernist decor in postwar America In the world of interior design mid century Modernism has left an indelible mark still seen and felt today in countless open concept floor plans and spare geometric furnishings Yet despite our continued fascination we rarely consider how this iconic design sensibility was marketed to the diverse audiences of its era Examining advice manuals advertisements in Life and Ebony furniture art and more Mid Century Modernism and the American Body offers a powerful new look at how codes of race gender and identity influenced and were influenced by Modern design and shaped its presentation to consumers Taking us to the booming suburban landscape of postwar America Kristina Wilson demonstrates that the ideals defined by popular Modernist furnishings were far from neutral or race blind Advertisers offered this aesthetic to White audiences as a solution for keeping dirt and outsiders at bay an approach that reinforced middle class White privilege By contrast media arenas such as Ebony magazine presented African American readers with an image of Modernism as a style of comfort security and social confidence Wilson shows how etiquette and home decorating manuals served to control women by associating them with the domestic sphere and she considers how furniture by George Nelson and Charles and Ray Eames as well as smaller scale decorative accessories empowered some users even while constraining others A striking counter narrative to conventional histories of design Mid Century Modernism and the American Body unveils fresh perspectives on one of the most distinctive movements in American visual culture
