The Extraordinary Rise of the Russian Empire Arthur C. Hasiotis, Ph.D., 2018-02-22 The Extraordinary Rise of the Russian Empire By Arthur C Hasiotis Ph D Political and cultural biases must not be allowed to misrepresent historical writings and an accurate representation of the truth Otherwise generations of citizens and leaders will lack the record and guidelines of what actually happened With this fundamental principle underlying the effort Arthur C Hasiotis Ph D gives us an impressive study of Russian history from its beginnings to the present day emphasizing Russia s relationship of confrontation and cooperation engagement and constraint with the great Western powers Challenging points in the standard historiography this book presents a powerful reinterpretation of important movements and events As such it is far from a dry history but dives into a number of topical controversies and key geopolitical questions which will keep readers both piqued and informed Comes with an extensive subject ordered bibliography and thorough panoply of documentation The Geography of Nationalism in Russia and the USSR Robert J. Kaiser, 2017-03-14 The Geography of Nationalism in Russia and the USSR is an important addition to the small library of essential works on the collapse of the Soviet empire The first attempt to construct and test broad theoretical propositions about place and territoriality in the making of nations it examines the critical social processes underlying the formation of nations and homelands in Russia and the USSR during the nineteenth and twentieth centuries Robert Kaiser finds that for the most part national self consciousness was only beginning to supplant a localist mentality by the time of World War I The national problem faced by Lenin was fundamentally different from the more difficult nationalist challenge that confronted Gorbachev In Kaiser s place based theory the homeland once created in the imaginations of the indigenous masses powerfully structured national processes and international relations Indigenization from below became an active competitor with nationality policies that promoted Russification resulting in the restructuring of ethnic stratification to favor indigenes in their own respective home republics and to challenge Russian dominance outside Russia The revolutionary changes occurring since 1989 Kaiser argues should therefore be seen as part of a longer process of indigenization Originally published in 1994 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Russia's Frozen Frontier** Alan Wood, 2011-05-15 Alan Wood s ambitious work is the first to address the whole span both chronologically and thematically of the development of Siberia and its role in both the Russian and the global context With a scope that reaches from Muscovy s conquest of Siberia in the 16th and 17th centuries to modern times it explores the effects of colonial exploitation the Revolutions of 1917 and developments

during the Soviet period Russia's Frozen Frontier is also the first book to detail the history of Siberia from the view of Siberians themselves both Russian and native rather than seen through the lens of Moscow or St Petersburg *The Twilight of Imperial Russia* Richard Charques, 2016-11-11 The fateful twenty three years following the accession of the last of the Romanov Tsars formed the prologue to the Russian Revolution and foreshadowed the motives and mental attitudes of Russian policy today Richard Charques's detailed vivid and objective account of the reign of Nicholas II is based upon a wide study of Russian and other sources It is given particular force and liveliness by the portrait gallery of the leading figures of the period Nicholas II the Tsaritsa Alexandra Constantine Pobedonostsev Sergius Witte Lenin Trotsky Premier Stolypin Miluikov and Rasputin Striking phrases fine judgments flashes of deep perception flicker through these pages illuminating the sad sombre story which Mr Charques is not afraid to extend by implication into the present Observer London Informative and well written and the story of the last phase of the Romanovs is movingly told New Statesman London Mr Charques writes with great lucidity and elegance he has also unusual discernment a healthy sense of historical reality and a penetrating mind Scrupulously fair Times Educational Supplement London An uncommonly good book about the decline and fall of the Russian empire lucid incisive well balanced and extremely well written Chicago Sunday Tribune **The Origins of the Russo-Japanese War** Ian Nish, 2014-09-25 The Russo Japanese war of 1904-5 has been seen as the turning point of the development of the modern world Written by a specialist in Japanese diplomacy this book has been described by the Times Higher Education Supplement as diplomatic history at its very best *Bibliography of European Economic and Social History* Derek Howard Aldcroft, Richard Rodger, 1993 This bibliographical guide contains 10 000 references to the economic and social history of 30 European countries during the period 1700-1939 More than 3000 periodicals have been consulted to obtain references as well as books edited collections and conference proceedings The information is listed in categories such as industry agriculture finance migration labour conditions urban communities and organizations Full publication details are included so that references may be located easily Petr Petrovich Semenov's Travels in the Tian'-Shan', 1856-1857 Colin Thomas, 2021-12-17 In the mid nineteenth century the eyes of western European explorers were firmly fixed on advancing inland from former maritime colonies in the Americas Africa the Indian sub continent and Australasia their motives often being inextricably bound up with concerns of imperial politics and commerce Simultaneously further east Russians resumed their perceived mission to civilise Asia following their own country's humiliation during the Crimean War From a springboard of Siberian territories acquired gradually over the previous three centuries discovery and expansion radiated from the Imperial Russian Geographical Society founded in 1845 and incorporating initiatives drawn from descendants of immigrant French and German scientists who themselves inspired a new generation of liberal intellectuals A key personality in that movement was the Society's librarian and secretary of its physical geography section P P Semenov 1827-1914 a member of a minor gentry family who had been tutored by a pupil of Linnacus and who had studied under Ritter and von Humboldt at

Berlin during a tour of Europe in 1853 4 From them he conceived the notion of travelling to the virtually unknown lands of Central Asia ostensibly to verify opinions on the existence there of active volcanoes and glaciers In reality his ambition was to penetrate beyond the Kazakh steppe and to reach the fabled Celestial Mountains the Tian Shan range which constituted the politically sensitive border between Russia and China and the equally hostile buffer zone of Muslim khanates Accompanied only by a serf servant in May 1856 Semenov embarked on a 18 month journey from St Petersburg through Kazan to Semipalatinsk and thence via the Altai to the newly established Russian settlement of Vernoe later Alma Ata now Almaty Subsequently he received a Cossack escort on his trek into the high plateaus and ridges surrounding Issyk kul to the very heart of Asia Throughout his *The Many Deaths of Tsar Nicholas II* Wendy Slater,2007-06-26 How did Nicholas II Russia's last Tsar meet his death This book recounts the horrific details of his death and the thrilling discovery of the bones and also investigates the alternative narratives that have grown up around these events **Transition to Global Rivalry** John Albert White,2002-06-27 During the years before the First World War the realignment of world powers resulted in agreements concluded in 1904 and 1907 between Britain France Russia and Japan John Albert White terms this a Quadruple Entente a more accurate and complete description than the more commonly used Triple Entente which omits Japan His more inclusive view leaves undisturbed the conception of Europe as the centre of political gravity but at the same time calls proper attention to the enhanced role which Japan had won through her victories in the Sino Japanese and Russo Japanese wars and by her careful management of her entry into the larger family of nations This wider perspective on the crucial pre war years shows how in its political context as well as its geographical terrain and its general impact the First World War was a world war in every sense *P. A. Stolypin* Abraham Ascher,2002-02-01 This is the first comprehensive biography in any language of Russia's leading statesman in the period following the Revolution of 1905 Prime Minister and Minister of Internal Affairs from 1906 to 1911 when he was assassinated in post 1905 Russia P A Stolypin was virtually the only man who seemed to have a clear notion of how to reform the socioeconomic and political system of the empire **Library of Congress Subject Headings** Library of Congress. Soviet Political Order asks what is shaping the institutional pattern of the post Soviet political order what the new order will be like what patterns of conflict are emerging and what can be done about stabilising the region In considering these questions the contributors converge on four common themes the institutional legacy of empire the social processes unleashed by imperial collapse patterns of bargaining within and between states to resolve conflicts arising out of the imperial collapse the impact of the wider international setting on the pattern of post imperial politics Focusing on the former Soviet Union and Eastern European countries the contributors show how strong state institutions are essential if conflict and political instability are to be avoided

Kaiser, 2000 Kaiser looks at 400 years of modern European history to find the political causes of war in four distinct periods and shows how war became a natural function of politics In a new preface and chapter he shows which aspects of four past areas of conflict do and do not seem relevant to the near future and sketches out new possibilities for Europe
