Russian Civil Society: A Critical Assessment Alfred B. Evans,Laura A. Henry,Lisa Sundstrom,2016-07-22 A vibrant civil society characterized by the independently organized activity of people as citizens undirected by state authority is an essential support for the development of freedom democracy and prosperity Thus it has been one important indicator of the success of post communist transitions This volume undertakes a systematic analysis of the development of civil society in post Soviet Russia An introduction and two historical chapters provide background followed by chapters that analyze the Russian context and consider the roles of the media business organized crime the church the village and the Putin administration in shaping the terrain of public life Eight case studies then illustrate the range and depth of actual citizen organizations in various national and local community settings and a concluding chapter weighs the findings and distills comparisons and conclusions

About Russia, Its Revolutions, Its Development and Its Present Michal Reiman,2016 The author analyzes the history of the USSR from a new perspective Detailed examination of ideological heritage of the XIXth and XXth centuries shows new aspects of the Russian Revolution

Iron-making Societies Maria Ågren,1998-03-01 The title of this book has a double meaning on the one hand it deals with two very different societies both of which made iron in the early modern period On the other hand iron made these societies the needs of iron production and the resistance to these demands from local peasant communities gave the societies a special kind of cohesion and rationality This volume presents the findings of a joint team of Swedish and Russian scholars examining the social organization of work in early modern iron industry and their respective societies The comparison was carried out against the backdrop of the international discussion on proto industrialization its prerequisites and consequences There has however been a certain bias in much of that debate the focus being mainly on Western Europe particularly on Britain and on textile trades This book offers an important contribution to the debate in that it widens the perspective by discussing Northern and Eastern Europe and by studying the iron industry More particularly it examines actual production processes the organization of work social conflict questions of ownership and its evolution as well as the diffusion and organization of technical knowledge The comparative approach is consistently applied throughout with each chapter closely integrating the results relating to the two selected geographical areas thus showing ways of solving some of the problems arising from comparative history

Industry, State, and Society in Stalin's Russia, 1926-1934 David R. Shearer,1996 In an effort to crush the syndicate movement and establish tight political control over the economy Stalinist leaders intervened with a program of radical reforms Shearer demonstrates that

post Soviet literature this study examines projects in Siberia since the fall of the Berlin Wall Focusing on critical accounts of development projects in Siberia managed by the author this book provides a first hand account of the successes and failures of development aid *The image of the future : enlightening the past, orientating the present, forecasting the future;*

Iconoclasm of the images of future, demolition of culture ,1961 **Russia in the Era of NEP** Sheila Fitzpatrick,Alexander

Rabinowitch,Richard Stites,1991-09-22 a comprehensive look at an enigmatic era Choice This provocative collection of essays certainly takes some of the polish off Soviet socialism s golden age Journal of Interdisciplinary History The authors and editors of this splendid volume deserve great praise Their work moves the field of Soviet history several large steps forward Slavic Review Lenin s New Economic Policy of the 1920s although a relatively free and open potential alternative to Soviet communism was also a time of extreme tension as Russian society and culture were rocked by the forces of resistance and change These essays examine the social and cultural dimensions of NEP in urban and rural Russia in the years before Stalin and rapid industrialization How Russia Is Not Ruled Allen C. Lynch,2005-01-10 The state remains as important to

Russia s prospects as ever This is so not only because as in any society an effectively functioning state administration is necessary to the proper functioning of a complex economy and legal system but also because in Russian circumstances factors of economic geography tend to increase costs of production compared to the rest of the world These mutually reinforcing factors include the extreme severity of the climate the immense distances to be covered the dislocation between European population centers and Siberian natural resource centers and the inevitable predominance of relatively costly land transportation over sea borne transportation As a result it is questionable whether Russia can exist as a world civilization under predominantly liberal economic circumstances in a unified liberal global capital market large scale private direct capital investment will not be directed to massive outdoor infrastructure projects typical of state investment in the Soviet period *Imagining Russian Regions* Susan Smith-Peter,2017-10-02 In *Imagining Russian Regions* Subnational Identity and

Civil Society in Nineteenth Century Russia Susan Smith Peter shows how ideas of civil society encouraged the growth of subnational identity in Russia before 1861 Adam Smith and G W F Hegel s ideas of civil society influenced Russians and the resulting plans to stimulate the growth of civil society also formed subnational identities It challenges the view of the

provinces as empty space held by Nikolai Gogol who rejected the new non noble provincial identity and welcomed a noble only district identity By 1861 these non noble and noble publics would come together to form a multi estate provincial civil society whose promise was not fulfilled due to the decision of the government to keep the peasant estate institutionally separate

The Challenges for Russia's Politicized Economic System Susanne Oxenstierna,2015-04-10 During the early 2000s the market liberalization reforms to the Russian economy begun in the 1990s were consolidated But since the mid 2000s economic policy has moved into a new phase characterized by more state intervention with less efficiency and more structural problems Corruption weak competitiveness heavy dependency on energy exports an unbalanced labour market and unequal regional development are trends that have arisen and which this book argues will worsen unless the government changes direction The book provides an in depth analysis of the current Russian economic system highlighting especially structural and institutional defects and areas where political considerations are causing distortions and puts forward proposals on how the present situation could be remedied

The Political Economy of Russia Neil Robinson,2012 This timely book explores Russia s political development since the collapse of the USSR and how inextricably it has been bound up with economic change Assessing the legacies of the Soviet period leading scholars trace the evolution of Russia s political economy and how it may develop as bitter battles continue to be waged over property and state revenues the development of private agriculture and welfare This book puts these domestic issues in international and comparative perspective by considering Russia s position in the global economy and its growing role as a major energy producer Focusing especially on the nature and future of Russian capitalism the contributors weigh the political problems that confront Russia in its ongoing struggle to modernize and develop its economy

The Heart of Russia Scott M. Kenworthy,2010 Studies in particular monastic revivals in the 19th and 20th centuries as epitomized by Trinity Sergius

Economic Policy Making and Business Culture David A. Dyker,2012 This book addresses one of the fundamental problems in Russian society and in Russia s relations with the rest of the world Why do Russians tend to react differently from us in given diplomatic or business situations Why do they find the notion of a contract difficult to grasp Why do they seem hostile to the principle of the level playing field How do they see Russia s position within the globalised economy In order to probe these issues the author begins with a historical analysis looking at the pattern of political and economic development since Tsarist times always asking the questions What is unique to Russia in all this and which unique features tend to recur in different periods In seeking to illuminate the interface between Russia and the world the author also examines Russia s attitude to itself and to its own resources natural and human to land as an agricultural resource and later oil and gas and to people as cheap labour and as highly trained scientific personnel This book is firmly based on scholarly sources in English French and Russian but aims to go beyond the academic audience to address the concerns of people encountering Russians and Russian organizations in their everyday lives

Voluntary Associations in Tsarist Russia Joseph Bradley,2009-10-30 On the eve

of World War I Russia not known as a nation of joiners had thousands of voluntary associations Joseph Bradley examines the crucial role of voluntary associations in the development of civil society in Russia from the late eighteenth to the early twentieth century

Digitalization and its impact on the development of Russia А. Юрков, В. Халин, Галина Чернова, 2022-05-15

Comparative Models of Development Howard J. Wiarda Ph.D., 2017-09-05 Howard J Wiarda who was the Dean Rusk Professor of International Relations at the School of Public and International Affairs at the University of Georgia outlines a paradigm shift in world politics that has been driven by two overarching trends the shift from a U S and Western favored model of development to different models and the decline of a Western system of world order In examining these two trends he seeks to answer questions such as Why are the gaps increasing rather than shrinking between the rich and the poor both within countries and between the developed countries and developing ones Why have some countries and regions adapted to the newer pressures of globalization democratization and new markets and others have not Why does the Middle East Southeast Asia Sub Saharan Africa and much of Latin America still lag behind while others are forging ahead By taking a regional view of development and international relations the author challenges the view that one theoretical framework can explain the economic social and foreign policy approaches of all countries
