The Life and Legend of Catterina Vizzani Clorinda Donato, 2020-10-31 From the time Catterina Vizzani a young Roman woman began wooing the woman she was attracted to she did so dressed as a man. Fleeing Rome to avoid a potential trial for sexual misdeeds she became Giovanni Bordoni transitioning and becoming a male in spirit deed and body through what was the most complete physical change possible in the eighteenth century. This volume features Giovanni Bianchi's 1744 Italian account of Vizzani Bordoni published for the first time together with a modern English translation making available to an English speaking audience the objective scientific exploration of gender conducted by Bianchi. John Cleland's well known albeit fanciful 1751 version of the story has also been reproduced here shedding light on the divergent sexual politics driving Bianchi's Italian original and Cleland's greatly embellished English translation. Through a close examination of Bianchi's work as anatomical practitioner and scholar Clorinda Donato traces the development of his advocacy for tolerance of all sexual orientations. Several chapters address the medical and philosophical inquiry into sexual preference reproduction sexual identity and gender fluidity which Enlightenment anatomists from Holland to Italy engaged with in their research concerning the relationship between the mind and the reproductive organs. Meanwhile

it is the social implications of gender ambiguity which may be analysed in Cleland's condemnation of women who pass as men. Drawing on the biographies produced by Bianchi and Cleland, the volume reflects on the motivation of each author to tell the story of Vizzani Bordoni either as a narration of empowerment or a cautionary tale within the European context of evolving sexual opinions, some based on scientific research, others based on social practice and cultural norms.

Notes on England Hippolyte Taine, 1872. **La Bête humaine** Émile Zola, 2009-01-29. Did possessing and killing amount to the same thing deep within the dark recesses of the human beast? *La Bête humaine* (1890) is one of Zola's most violent and explicit works. On one level, a tale of murder, passion, and possession, it is also a compassionate study of individuals derailed by atavistic forces beyond their control. Zola considered this his most finely worked novel, and in it he powerfully evokes life at the end of the Second Empire in France, where society seemed to be hurtling into the future like the new locomotives and railways it was building. While expressing the hope that human nature evolves through education and gradually frees itself of the burden of inherited evil, he is constantly reminding us that under the veneer of technological progress, there remains always the beast within. This new translation captures Zola's fast-paced yet deliberately dispassionate style, while the introduction and detailed notes place the novel in its social, historical, and literary context.

Reconstructing the International Institutional Order Samantha Besson, 2021-09-13. States are no longer alone on the international scene. Other institutions intervene alongside States, and even sometimes in their place, such as international organizations, multinational corporations, non-governmental organizations, regions, or global cities. Still, one would look in vain for clear indications in international law, including for the basic principles of an international law of institutions, that could address the three fundamental questions of social and political organization: that are representation, regulation, and responsibility. What institutions may act in whose

name internationally What are the conditions for their actions to bind us legally and have the legitimacy to do so And what institutions should be held responsible by whom and how in case of violation of international law The time has come to reconstruct the international institutional order **The Metal Objects (1952-1989)** Isabelle Kelly Raubitschek, 1998 A study of the objects in bronze iron copper gold silver and lead from the sanctuary of Poseidon at Isthmia mainly belonging to the 7th and 6th centuries BC
