Soviet Forest Industries Peter Blandon, 2019-08-21 Forest industries represent an important segment of the Soviet economy accounting for five percent of the total industrial output and providing essential materials for other key industries This book the first in depth study of Soviet forestry in the English language looks at the organizational planning economic and technological aspects of the industry Mr Blandon first discusses labor force trends and geographical features of the country's forest resources then assesses the forest industry's modernization program He analyzes the past performance of capital investment in the industry and makes projections about the effects of future investments in order to estimate the Soviet Union's future timber output Throughout the book considerable attention is devoted to the Soviet planning system and its influence on decision making

Napoleon's Invasion of Russia, 1812 Eugene Tarlé, 2018-09-03 Napoleon Bonaparte 1769 1821 is one of the most illustrated political and military figures of the last two millennia He has remained in the memory of the world as a legend that the passage of the years has failed to blur On the contrary Napoleon Bonaparte widely continues to be considered the personification of human genius Originally published in this English translation in 1942 leading Russian historian Evgeny Tarle details Napoleon's military campaign to invade Russia in the early nineteenth century The campaign of 1812 was more frankly imperialistic than any other of Napoleon's wars it was more directly dictated by the interests of the French upper middle class The war of 1796 7 the conquest of Egypt in 1798 9 the second Italian campaign and the recent defeat of the Austrians could still be justified as necessary measures of defence against the interventionists The Napoleonic press called the Austerlitz campaign self defence against Russia Austria and England The average Frenchman considered even the subjugation of Prussia in 1806 7 no more than a just penalty inflicted on the Prussian court for the arrogant ultimatum sent by Frederick William III to the peace loving

Napoleon constantly harried by troublesome neighbours Napoleon never ceased to speak of the fourth conquest of Austria in 1809 as a defensive war provoked by Austrian threats Only the invasion of Spain and Portugal was passed over in discreet silence The War of 1812 was a struggle for survival in the full sense of the word a defensive struggle against the onslaughts of the imperialist vulture E V Tarle *Translation* ,1938 Consists of translated reprints from various journals *Arctic Bibliography* Arctic Institute of North America,1969 Folia Forestalia ,1984 **An Introduction to Egyptian Arabic** Ernest T. Rotherham, 2020-03-30 Understanding the current state and dynamics of any forest is extremely difficult if not impossible without recognizing its history Białowieża Primeval Forest BPF located on the border between Poland and Belarus is one of the best preserved European lowland forests and a subject of myriads of works focusing on countless aspects of its biology ecology management BPF was protected for centuries 15th 18th century as a game reserve of Polish kings and Lithuanian grand dukes Being at that time a part of the Grand Duchy of Lithuania BPF was subject to long lasting traditional multi functional utilisation characteristic for this part of Europe including haymaking on forest meadows traditional bee keeping and fishing in rivers flowing through forest This traditional model of management came to an abrupt end due to political change in 1795 when Poland and Grand Duchy of Lithuania ceased to exist in effect of partitioning by neighbouring countries and the territory of BPF was taken over by the Russian Empire The new Russian administration influenced by the German trends in forestry attempted at introducing the new science based forestry model in the BPF throughout the 19th century The entire 19th century in the history of BPF is a story of struggle between new trends and concepts brought and implemented by new rulers of the land and the traditional perception of the forest and forest uses culturally rooted in this area and originating from mediaeval or older practices The book will show the historical background and the outcome of this struggle the forest's history in the long 19th century focusing on tracking all cultural imprints both material artificial landscapes introduced alien species human induced processes and immaterial traditional knowledge of forest and use of forest resources

the political and cultural significance of the forest that shaped the forest's current state and picture. Our book will deliver a picture of a crucial moment in forest history relevant not only to the Central Europe but to the continent in general. Moment of transition between a royal hunting ground traditional type of use widespread throughout Europe to a modern managed forest. Looking at main obstacles in the management shift the essential difference in perceptions of the forest and goods it provides in both modes of management and the implications of the management change for the state of BPF in the long 19th century could help in better understanding the changes that European forests underwent in general. **How to Pass**

Assessing the War on Terror Charles Webel, Mark Tomass, 2017-02-17 This volume is a collection of articles that critically examine the efficacy ethics and impact of the War on Terror as it has evolved since 9/11. During the decade and a half of the Global War on Terror (GWOT) numerous books have considered the political psychosocial and economic impacts of terrorism. However there has been little systematic effort to examine the effectiveness of the GWOT in achieving its goals. Furthermore there is virtually nothing that presents a comparative analysis of the GWOT by the people most directly affected by it citizens and scholars from conflict zones in the Middle East. There is therefore great need for a book that analyzes the strategies tactics and outcomes of the GWOT and that also presents facts and ideas that are missing or underrepresented in the dominant public narratives. The contributions in this volume were chosen to specifically address this need. In doing so it uniquely provides not only Western perspectives of the GWOT but also importantly includes perspectives from the Middle East and those most directly affected by it including contributions from scholars and policy makers. Overall the contributions demonstrate how views differ based on geographical location and how views have changed during the course of the still evolving War on Terror. The book will be of much interest to students and scholars of terrorism and counter terrorism foreign policy Middle Eastern politics security studies and IR as well as policy makers. *Nestor Makhno and Rural Anarchism in Ukraine, 1917-1921* Colin Darch, 2020 Reveals a little known history of 1917 the Ukrainian anarchist communist Makhnovists.
