Shephard, 1964 What Is Anthroposophy? Rudolf Steiner, 2002-06 My life changed dramatically drastically and irrevocably on November 17 2005 That was my death day and re birthday The external event was surgical removal of a glioblastoma multiforme tumor phase iv from the left occipital parietal lobe of my cranium Though I was unconscious during surgery what I experienced was transcendent like being turned inside out and hovering in timelessness between this world and the life after life and returning to here and now changed forever What sounds like a clich describes literally what I felt from the foreword This generous courageous and wise book offers a selfless glimpse behind the curtain of a journey with cancer from shock to inner rebirth and the gradual discovery of light in the darkness William Ward has written a personal account of his life following a fateful diagnosis of a brain tumor glioblastoma multiforme Phase IV cancer With no trace of self pity and rising above sentimentality he describes the landscape of his outer path through hospitals surgeons pain powerful drugs and the support of family friends and community At the same time with fearless honesty he invites the reader to accompany him on the inner path of inevitable regrets self examination fears and hopes in the face of a potentially terminal illness Until it happens to us we can never know for sure how we would respond as individuals to a catastrophic event in our lives but by telling the most personal of all stories William Ward shows us a way forward that goes well beyond our personal differences With compassion and humor Ward bears witness to the presence of living light in the darkest of human experiences demonstrating how if we face it the Dark Night of the Soul necessarily leads to awaking in the light of a new dawn Fierce hope shines through the final words of Traveling Light As we part here at the edge of Death Valley I feel like an old prospector handing over a weather stained chart You take this map sonny Where I m goin I won t be needin it no more But while you re here on the earthly plane I want you to know there is water the water of life deep down right here Yonder atop Solomon s knob is the Mother Lode pay dirt pure gold the sun s tears The way up is steep Just keep putting one foot in front of the other Up on top you can see forever Goodbye God bless and good luck Cover Image by Claire Ward Miesmer **A Scientist of the Invisible. An Introduction to the Life and Work of Rudolf Steiner. [With a Portrait.]** Arthur Pearce SHEPHERD, 1954 **The Development of Anthroposophy since Rudolf Steiner's Death** T.H. Meyer, Paul V. O'Leary, 2014-11-01 This volume begins with Thomas Meyer s assessment of Anthroposophy s evolution since Rudolf Steiner s death and its future prospects He offers an overview of the eighty seven years of the development of the anthroposophic movement and the Anthroposophical Society the worldwide organization headquartered in Dornach Switzerland since the death of its founder The Society went through a very difficult and controversial period in the ten years following Steiner s death which culminated at its Annual Meeting in 1935 The result was the expulsion from the Society of two members appointed by Rudolf Steiner to its Executive Board Vorstand Ita Wegman and Elizabeth Vreede as well as the British and Dutch branches of the Society and many important

anthroposophists who opposed the expulsions Meyer whose many books include Rudolf Steiner's Core Mission reveals the extraordinary concordance of four November 17 dates highly significant in the development of Anthroposophy On November 17 1901 the anniversary of the founding of the Theosophical Society in 1875 Marie von Sivers asked Rudolf Steiner to create an esoteric path suited to the Western mind which set Steiner on his mission On November 17 1923 Ita Wegman urged Steiner to establish a new Society with Steiner himself joining as both a member and its president Twelve years later on November 17 1935 the remaining three individuals of the Executive Board wrote to Adolf Hitler to plea for the Society's continued existence in Germany after being banned in Germany by the Nazi regime Profound connections underlie these events Four appendices supplement the present volume Appendix 1 presents a Chronology that denotes by year and day significant episodes in Steiner's life and in the development of Anthroposophy The remaining appendices feature for the first time in English in one volume significant documents pertinent to the Anthroposophical Society's Easter 1935 Annual Meeting Appendix 2 contains the Memorandum written by supporters of Marie Steiner setting forth a list of grievances in support of the expulsion motions adopted at the 1935 Annual Meeting Appendix 3 records Ludwig Polzer Hoditz's address in response to the 1935 Annual Meeting counseling against the expulsion measures Appendix 4 contains the letter in English and German written by the Society's Executive Board to Adolf Hitler This important book offers profound insights into the struggles for individual freedom and voice during the early years of the Anthroposophical Society Seeing the dynamics of that struggle can help us today to overcome differences to work toward common purpose both in the context of our everyday lives and within a spiritually oriented community

The Temple Sleep of the Rich Young Ruler Edward Reaugh Smith, 2011-11 Who wrote the Gospel of John The author identifies himself only as the disciple whom Jesus loved and Christian tradition tells us that this disciple was the apostle John However during the past century scholars have increasingly come to doubt that attribution In 1902 Rudolf Steiner wrote that the author of the Gospel of John was in fact Lazarus Steiner's position stemmed from his insight that Lazarus's encounter with death involved far more than people realized an initiation into higher spiritual realities that uniquely qualified him to write this gospel Edward Smith takes up this argument and shows that subsequent research has tended to favor Lazarus for reasons grounded in John's Gospel itself More important Smith shows that subsequent discoveries at Nag Hammadi and Mar Saba corroborate Steiner's reasoning about the nature of the raising of Lazarus pointing to Lazarus as the rich young ruler of Mark's Gospel

A Passionate Schooling: Key Ideas Behind Steiner Waldorf Education Alduino Mazzone, Susan Laing, 2016-05-22 A Passionate Schooling provides a clear scholarly overview of the key ideas behind Steiner Waldorf education It examines how Rudolf Steiner developed his ideas in the context of his life and the culture in which he lived A Passionate Schooling focuses on Steiner's insights as they relate to the nature of the human being freedom and the ideals of education and social renewal new perspectives on child development the evolution of consciousness and the transformation of the self It also explores the concepts of goodness beauty and truth as ideals in

education as well as the adaptability of the Steiner Curriculum It re interprets Steiner s ideas in the context of post modernist thought and contemporary challenges and practices A Passionate Schooling is a revealing text for students of education teachers and parents More at www.passionateschooling.com **Rudolf Steiner** Colin Wilson,2019-02-21 Of all the important thinkers of the twentieth century Rudolf Steiner 1861 1925 is perhaps the most difficult to come to grips with For the unprepared reader his work presents a series of formidable obstacles from the dauntingly abstract style to the often bizarre pronouncements on the nature of man and his cosmic destiny And yet Steiner was perhaps the most influential and charismatic occult philosopher of his generation and the movement he launched Anthroposophy with its educational agricultural and artistic applications still has many thousands of followers worldwide No one interested in esoteric thought can ignore Steiner but until now there has been no genuinely accessible introduction to his ideas This lucid and sympathetic account describes Steiner s development from shy scholar to the international figurehead of Anthroposophy his break with Madam Blavatsky s Theosophy his struggles to find a voice and the essence of his insights into the supersensible world A *Secret History of Consciousness* Gary Lachman,2003-07 For the last four centuries science has tried to account for everything in terms of atoms and molecules and the physical laws they adhere to Recently this effort was extended to try to include the inner world of human beings Gary Lachman argues that this view of consciousness is misguided and unfounded He points to another approach to the study and exploration of consciousness that erupted into public awareness in the late 1800s In this secret history of consciousness consciousness is seen not as a result of neurons and molecules but as responsible for them meaning is not imported from the outer world but rather creates it In this view consciousness is a living evolving presence whose development can be traced through different historical periods and which evolves along a path to a broader more expansive state What that consciousness may be like and how it may be achieved is a major concern of this book Lachman concentrates on the period since the late 1800s when Madame Blavatsky first brought the secret history out into the open As this history unfolds we encounter the ideas of many modern thinkers from esotericists like P D Ouspensky Rudolf Steiner and Colin Wilson to more mainstream philosophers like Henri Bergson William James Owen Barfield and the psychologist Andreas Mavromatis Two little known but important thinkers play a major role in his synthesis Jurij Moskvitin who showed how our consciousness relates to the mechanisms of perception and to the external world and Jean Gebser who presented perhaps the most impressive case for the evolution of consciousness An important contribution to the study of consciousness a must read *By the Light of the Lanthorn* Siegfried W Rudel,2011 When Council Inspector Paul Clark visited the Peredur Trust in Cornwall more than twenty years ago he was under pressure to serve a legal notice to comply with various regulations or face closure He expected to encounter a cult organization with weird and unpalatable practices In fact he found something quite different As he says in his foreword I came to inspect I stopped to evaluate and I remained to admire Paul later became the trust s chief executive The Peredur Trust has been caring for disadvantaged and differently

abled individuals effectively and successfully for more than sixty years Siegfried Rudel its president and one of its four founders tells the story of how the impulse behind the organization inspired by the philosophy of Rudolf Steiner first transpired However this is not simply a narrative and history of a single organization rather this book represents a universal cultural impulse that embraces the needs of our time and one that reappears today in many residential communities for people with special needs around the world In a fascinating presentation and with the aid of many archival photographs In the Light of the Lanthorn tackles interrelated themes including the arts the environment sustainability agriculture and nutrition all in the light of working with individuals with special needs **The Burning Bush** Edward Reaugh Smith, 1997

Even more significant for Christianity in the long run than the twentieth century Dead Sea and Nag Hammadi discoveries is the growing North American awareness of Rudolf Steiner's works Virtually unavailable until the end of the twentieth century English translations from the German archives are gradually coming into print Both Steiner and his works have thus far been virtually unknown in traditional theological circles No Bible commentary has yet reflected the remarkable spiritual insights of Anthroposophy Now ten years after first encountering a written comment about Rudolf Steiner Ed Smith combines his own extensive traditional biblical knowledge with his years of concentrated study and reflection on hundreds of assembled works by Steiner The result is the first Bible commentary in the light of anthroposophic insight This is the first volume of a series of Bible commentary by the author It is based on the anthroposophic understanding given to humanity by Rudolf Steiner during the first quarter of the twentieth century Bible commentaries have always reflected the general line of thinking of their authors However the dramatic newness of anthroposophic thought means that perhaps the usual method of using a Bible commentary is not appropriate here A large part of The Burning Bush is necessarily devoted to laying an anthroposophic or spiritual scientific groundwork A major assumption indulged in most Bible commentaries that one can go directly to portions dealing with given passages of scripture and understand what is being said about them does not fit
