The Evolution of Consciousness Rudolf Steiner, 2006 According to the research of initiate Rudolf Steiner humanity is in a continual process of transformation and evolution Modern consciousness based primarily on sensory

perception and abstract logic differs considerably from the consciousness of ancient human beings Steiner tells us that the ancients saw human beings as microcosms or concentrations of cosmic laws and activities The loss of such knowledge has led to an existential quest for meaning and even the cul de sac we know as atheism In these comprehensive lectures delivered to an English audience Steiner discusses the very real possibility of reconnecting to the cosmos today He explains how we can develop higher faculties of consciousness what he calls imagination inspiration and intuition and vividly describes life after death and how individuals progress through the planetary spheres In these spheres he tells us tasks and purpose for future incarnations are prepared in cooperation with spiritual beings of the heavenly hierarchies The lectures culminate in a call for us to take charge of our own destiny through conscious free development of our spiritual potential This new edition of a fundamental work from Rudolf Steiner features a revised translation as well as previously unavailable addresses and Steiner's answers to questions from his audience

INITIATION SCIENCE Rudolf Steiner, 2016-11-14 In an astonishing series of lectures on the science of spiritual knowledge Rudolf Steiner begins by addressing an audience in Dornach Switzerland where only months earlier his architectural masterpiece the first Goetheanum had been destroyed by fire He discusses the nature of our planetary system revealing the planets that are characterised by freedom and those that determine destiny The spirits of the moon live in seclusion preserving original wisdom and reflecting powers connected to sexuality whereas the sun creates harmony Jupiter is the thinker whilst the spirits on Saturn act as living memory Speaking in London Steiner states that the things that happen to people in sleep are more important than anything that occurs during waking hours Human beings he says must learn to see themselves as an image of spirits and spiritual activities on earth In a break from the theme and returning to Dornach Rudolf Steiner reports on his recent visit to England and Wales where he attended an educational conference in Ilkley a Summer School in Penmaenmawr and a school for the disadvantaged in the East End of London Steiner speaks of the particular atmosphere he experienced in West Yorkshire and North Wales where remnants of Druid spirituality live in the surroundings The latter theme emerges strongly in the next lectures which examine the Druid priest's sun initiation and perception of moon spirits The Druids investigated the secrets of the universe influencing both social and religious life Steiner also describes the mythic being of Woden who signified the birth of intellectuality and the subsequent fear of death which he asserts can be healed by the Mystery of Golgotha In the final section Rudolf Steiner discusses The past present and future development of the human mind Again he references the importance of Druid culture noting that the ground plans of the stone circles in Penmaenmawr are similar to that of the first Goetheanum He also points to the crucial roles of the ancient Mysteries and Christ's deed in human development
