Rufus the Fox ,1983-01-01 **British Book News** ,1983 British Book News British Council,1983 Includes no 53a British wartime books for young people *Four-footed Americans and Their Kin* Mabel Osgood Wright,1898 Scientific information on four footed animals given within a fictional narrative structure *The Haunters of the Silences: A Book of Animal Life* Charles G. D. Sir Roberts,2022-09-15 The Haunters of the Silences is a collection of short stories about diverse wild animals The stories depict the natural scenery that these haunters of the silence are found in and the epic struggle of life as they face off in the duels of nature From the white polar bears of the Arctic north to the Great sharks of the Caribbean Sea to the mole shrews of the woodlands the book offers a phenomenal array of nature at its best Though the stories are fictional author Charles D Roberts boasts that some of the stories are inspired by his own observations in his past nature excursions *Animal Eyes* Michael F. Land,Dan-Eric Nilsson,2012-03 This book covers the way that all known types of eyes work from their optics to the behaviour they guide The ways that eyes sample the world in space and time are considered and the evolutionary origins of eyes are discussed This new edition incorporates discoveries made since the first edition published in 2001 **The Economist** ,1983 Carnivore Ecology and Conservation Luigi Boitani,Roger A. Powell,2012-01-12 Animals that must hunt and kill for at least part of their living are inherently interesting to many people and the role that carnivores play in biological communities attract interest from ecologists and conservation biologists Conflicts with human activities stimulate continual debates about the management of carnivore populations and throughout the world people seek workable solutions for human carnivore coexistence This concise yet authoritative handbook describes research methods and techniques for the study and conservation of all terrestrial carnivore species Particular attention is paid to techniques for managing the human carnivore interface Descriptions of the latest methodologies are supported by references to case studies whilst dedicated boxes are used to illustrate how a technique is applied to a specific land cover type species or particular socio economic context The book describes the most recent advances in modelling the patterns of animal distributions movements and use of land cover types as well as including the most efficient methods to trap handle and mark carnivores Carnivores are biogeographically diverse and whilst extensive scientific research has investigated many aspects of carnivore biology not all species have been equally covered This book is unique in its intention to provide practical guidance for carrying out research and conservation of carnivores across all species and areas of the world *Northwood* Maryse Meijer,2018-11-06 Artfully explores themes of pain desire and the meeting place of the two for a surreal fairytale esque accounting of what happens when we go to the darkest places within ourselves and within others NYLON Part fairy tale part horror story Northwood is a genre breaking novella told in short brilliant beautifully strange passages The narrator a young woman has fled to the forest to pursue her artwork in isolation While there she falls in love with a married man she meets at a country dance The man is violent their affair even more so As she struggles to free herself she questions the

difference between desire and obsession and the brutal nature of intimacy Packaged with a cover and end papers by famed English artist Rufus Newell and inventive white on black text treatments by award winning designer Jonathan Yamakami Northwood is a work of art as well as a literary marvel **Effects of Light on Materials in Collections** Terry T.

Schaeffer,2001-08-16 The impact of light on works of art and archival materials has long been an issue of concern to conservators and other museum professionals yet the literature on this subject has never been systematically reviewed This volume fills that gap by providing a survey of the impact of exposure to light with an emphasis on photoflash and reprographic sources The information provided will assist the professional audience especially conservators and collections managers in assessing the risk to art and archival objects of such exposures The text surveys relevant photophysical and photochemical principles photometric and radiometric measurement and the spectral outputs of several light sources Materials discussed include colorants and natural fibers pulp paper and wood natural and synthetic polymers fluorescent whitening agents photographic and reprographic materials and objects containing combinations of materials Approximations and assumptions used in the evaluation process are discussed in some detail with examples of the different types of calculations The Research in Conservation reference series presents the findings of research conducted by the Getty Conservation Institute and its individual and institutional research partners as well as state of the art reviews of conservation literature Each volume covers a topic of current interest to conservators and conservation scientists **The country** ,1874
