Fictions of State Patrick Brantlinger, 1996. The economic foundations of modern nation-states involved national debt, public credit and paper money. Brantlinger traces the emergence of modern imperial Great Britain from those foundations. He analyzes the process whereby nationalism, both the cause and the result of wars and imperial expansion, multiplied national debt and produced crises of public credit resolved only through more nationalism and war. During the first half of the eighteenth century, conservatives attacked public credit as fetishistic and characterized national debt as alchemical. From the 1850s, the stabilizing theories of public credit authored by David Hume, Adam Smith, Henry Thornton and others helped initiate the first social science economics.

Heart of Darkness Joseph Conrad, 2000-10-31. Selected by the Modern Library as one of the 100 best novels of all time. Nominated as one of America's best-loved novels by PBS's The Great American Read. Introduction by Caryl Phillips. Commentary by H. L. Mencken, E. M. Forster, Virginia Woolf, Ernest Hemingway, Bertrand Russell, Lionel Trilling, Chinua Achebe and Philip Gourevitch. Originally published in 1902, *Heart of Darkness* remains one of this century's most enduring works of fiction. Written several years after Joseph Conrad's grueling sojourn in the Belgian Congo, the novel is a complex meditation on colonialism, evil and the thin line between civilization and barbarity. This edition contains selections from Conrad's Congo Diary of 1890, the first notes in effect for the novel, which was composed at the end of that decade. Virginia Woolf wrote of Conrad: "His books are full of moments of vision. They light up a whole character in a flash. He could not write badly; one feels to save his life."

Folklore in British Literature Sarah R. Wakefield, 2006. Folklore provides a metaphor for insecurity in British women's writing published between 1750 and 1880. When characters feel uneasy about separations between races, classes or sexes, they speak of mermaids and Cinderella to make threatening women unreal and thus harmless. Because supernatural creatures change constantly, a name or story from folklore merely reinforces fears about empire, labor

and desire To illustrate these fascinating rhetorical strategies this book explores works by Sarah Fielding Ann Radcliffe Sydney Owenson Charlotte Bront George Eliot Anne Thackeray and Jean Ingelow pushing our understanding of allusions to folktales fairy tales and myths beyond happily ever after The American Imperial Gothic Johan Höglund,2016-03-16 The imagination of the early twenty first century is catastrophic with Hollywood blockbusters novels computer games popular music art and even political speeches all depicting a world consumed by vampires zombies meteors aliens from outer space disease crazed terrorists and mad scientists These frequently gothic descriptions of the apocalypse not only commodify fear itself they articulate and even help produce imperialism Building on and often retelling the British imperial gothic of the late nineteenth century the American imperial gothic is obsessed with race gender degeneration and invasion with the destruction of society the collapse of modernity and the disintegration of capitalism Drawing on a rich array of texts from a long history of the gothic this book contends that the doom faced by the world in popular culture is related to the current global instability renegotiation of worldwide power and the American bid for hegemony that goes back to the beginning of the Republic and which have given shape to the first decade of the millennium From the frontier gothic of Charles Brockden Brown s Edgar Huntly to the apocalyptic torture porn of Eli Roth s Hostel the American imperial gothic dramatises the desires and anxieties of empire Revealing the ways in which images of destruction and social upheaval both query the violence with which the US has asserted itself locally and globally and feed the longing for stable imperial structures this book will be of interest to scholars and students of popular culture cultural and media studies literary and visual studies and sociology *A Concise Companion to the Victorian Novel* Francis O'Gorman,2004-09-03 This volume presents fresh approaches to classic Victorian fiction from 1830 1900 Opens up for the reader the cultural world in which the Victorian novel was written and read Crosses traditional disciplinary boundaries Provides fresh perspectives on how Victorian fiction relates to different contexts such as class sexuality empire psychology law and biology **Teaching Later British Literature** Albert D. Pionke,2019-04-05 Designed for both first time teachers of survey courses in later British literature and more experienced instructors seeking a new way to approach familiar material Teaching Later British Literature seeks to recapture the interconnectedness within and among Romantic Victorian and Modern literature Focusing on some of the defining historical intellectual and artistic preoccupations that individual works explore in common with their literary peers the book also invites teachers to help their students to rethink the criteria by which periods are defined and to reconceive the relationship between texts written within these periods Teaching Later British Literature is suitable for reading alongside any of the anthologies used in courses that survey the second half of British literature from the advanced high school classroom to the lower division university lecture hall and seeks to complement their already robust content by offering teachers a synthetic and highly adaptable framework for guiding students through British literary history from the 1780s through the 1940s The Absent-Minded Imperialists Bernard Porter,2004-11-25 The British empire was a huge enterprise

To foreigners it more or less defined Britain in the nineteenth and early twentieth centuries Its repercussions in the wider world are still with us today It also had a great impact on Britain herself for example on her economy security population and eating habits One might expect this to have been reflected in her society and culture Indeed this has now become the conventional wisdom that Britain was steeped in imperialism domestically which affected or infected almost everything Britons thought felt and did This is the first book to examine this assumption critically against the broader background of contemporary British society Bernard Porter a leading imperial historian argues that the empire had a far lower profile in Britain than it did abroad Many Britons could hardly have been aware of it for most of the nineteenth century and only a small number was in any way committed to it Between these extremes opinions differed widely over what was even meant by the empire This depended largely on class and even when people were aware of the empire it had no appreciable impact on their thinking about anything else Indeed the influence far more often went the other way with perceptions of the empire being affected or distorted by more powerful domestic discourses Although Britain was an imperial nation in this period she was never a genuine imperial society As well as showing how this was possible Porter also discusses the implications of this attitude for Britain and her empire and for the relationship between culture and imperialism more generally bringing his study up to date by including the case of the present day USA

Critical Perspectives on Colonialism

Fiona Paisley, Kirsty Reid, 2013-11-20 This collection brings much needed focus to the vibrancy and vitality of minority and marginal writing about empire and to their implications as expressions of embodied contact between imperial power and those negotiating its consequences from below The chapters explore how less powerful and less privileged actors in metropolitan and colonial

societies within the British Empire have made use of the written word and of the power of speech public performance and street politics This book breaks new ground by combining work about marginalized figures from within Britain as well as counterparts in the colonies ranging from published sources such as indigenous newspapers to ordinary and everyday writings including diaries letters petitions ballads suicide notes and more Each chapter engages with the methodological implications of working with everyday scribbles and asks what these alternate modernities and histories mean for the larger critique of the imperial archive that has shaped much of the most interesting writing on empire in the past decade

Mother Tongue Theologies Darren J. N. Middleton, 2010-01-01 Recognizing that one third of the world's Christians practice their faith outside Europe and North America the fourteen essays in *Mother Tongue Theologies* explore how international fiction depicts Christianity's dramatic movement South and East of Jerusalem as well as North and West Structured by geographical region this collection captures the many ways in which people around the globe receive Christianity It also celebrates postcolonial literature's diversity And it highlights non-Western authors' biblical literacy addressing how and why locally rooted Christians invoke Scripture in their pursuit of personal as well as social transformation Featured authors include Fyodor Dostoevsky Constantine Cavafy Scott Cairns Chinua Achebe Madam Afua Kuma Earl Lovelace V S Reid Ernesto Cardenal Helena Parente Cunha Arundhati Roy Mary Martha Sherwood Marguerite Butler R M Ballantyne Rudyard Kipling Nora Okja Keller Amy Tan Albert Wendt and Louise Erdrich Individual essayists rightly come to different conclusions about Christianity's global character Some connect missionary work with colonialism as well as cultural imperialism for example and yet others accentuate how indigenous cultures amalgamate with Christianity's foreignness to produce mesmerizing multiple identities Differences notwithstanding *Mother Tongue Theologies* delves into the moral and spiritual issues that arise out of the cut and thrust of native responses to Western Christian presence and pressure Ultimately this anthology suggests the reward of listening for and to such responses particularly in literary art will be a wider and deeper discernment of the merits and demerits of post-Western Christianity especially for Christians living in the so-called post-Christian West
