The Molecule of More Daniel Z. Lieberman, Michael E. Long, 2018-08-14 Why are we obsessed with the things we want only to be bored when we get them Why is addiction perfectly logical to an addict Why does love change so quickly from passion to indifference Why are some people die hard liberals and others hardcore conservatives Why are we always hopeful for solutions even in the

darkest times and so good at figuring them out The answer is found in a single chemical in your brain dopamine Dopamine ensured the survival of early man Thousands of years later it is the source of our most basic behaviors and cultural ideas and progress itself Dopamine is the chemical of desire that always asks for more more stuff more stimulation and more surprises In pursuit of these things it is undeterred by emotion fear or morality Dopamine is the source of our every urge that little bit of biology that makes an ambitious business professional sacrifice everything in pursuit of success or that drives a satisfied spouse to risk it all for the thrill of someone new Simply put it is why we seek and succeed it is why we discover and prosper Yet at the same time it s why we gamble and squander From dopamine s point of view it s not the having that matters It s getting something anything that s new From this understanding the difference between possessing something versus anticipating it we can understand in a revolutionary new way why we behave as we do in love business addiction politics religion and we can even predict those behaviors in ourselves and others In *The Molecule of More How a Single Chemical in Your Brain Drives Love Sex and Creativity and will Determine the Fate of the Human Race* George Washington University professor and psychiatrist Daniel Z Lieberman MD and Georgetown University lecturer Michael E Long present a potentially life changing proposal Much of human life has an unconsidered component that explains an array of behaviors previously thought to be unrelated including why winners cheat why geniuses often suffer with mental illness why nearly all diets fail and why the brains of liberals and conservatives really are different
