**Rumania: Political Problems of an Agrarian State** Henry L. Roberts, 1969      Rumania; Political Problems of an Agrarian State Henry L. Roberts, 1951      *The Agricultural Situation in Rumania* Kenneth Leo Murray, 1961      **Politics and Peasants in Interwar Romania** Sorin Radu, Oliver Jens Schmitt, 2017-11-06 The volume discusses the integration of peasants into the nation building project of Greater Romania with a focus on social and cultural practices Thus it addresses one of the key questions of the new political system in post imperial East Central and Southeast Europe It advocates a shift from a multiple top down perspective capital province urban political elites rural voters to an analysis concentrating on regionally diverse rural societies with a special interest in the predominantly ethnic Romanian population      **The Great Rumanian Peasant Revolt of 1907** Eidelberg, 2023-10-09      Revolutionary Breakthroughs and National Development Ken Jowitt, 2023-04-28 This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1971      **Statistics of Land-grant Colleges and Universities** United States. Office of Education, 1963      Land Ownership Annie Murray Hannay, 1953      **Romania, 1916-1941** Dennis Deletant, 2022-08-19 This study challenges the rose tinted view of the interwar period in Romanian history which is often judged against the darkness of almost five decades of Communist rule Romania like several of the states of Eastern Europe emerged from the First World War as it had entered it as a predominantly agricultural country and one of its major problems was the condition of the peasantry This volume s focus is the drive to improve that condition on the collapse of democracy and the search by Romania s leaders for strategies to secure the state to assert the country s independence and to maintain its territorial integrity in the face of the threat to the European order posed by two totalitarian systems represented by Nazi Germany and the Soviet Union By examining recent scholarship this volume provides the most up to date account of Romania s predicament in the interwar years Romania 1916 1941 is a useful resource for upper level undergraduates postgraduates and scholars interested in foreign policy politics society internationalization and late development in interwar Central and Eastern Europe      **The Remote Borderland** Laszlo Kurti, 2001-07-19 Explores how Transylvania figures in the Hungarian imagination and how this border region functions in the creation of national identity      *Eugenics and Modernization in Interwar Romania* Maria Bucur, 2002-02-20 Eugenics movements gained momentum throughout Eastern Europe between World Wars I and II Maria Bucur demonstrates that the importance of the eugenics movement in Romania rests not so much in the contributions made to the study of science as in the realm of nationalist ideology and social policy making The notion that the quality and quantity of the human species could and should be controlled manifested itself through social engineering projects ranging from reshaping gender roles and isolating ethnic undesirables to introducing broad public

health measures and educational reform Romanian eugenicists sought to control such modernization processes as urbanization and industrialization without curbing them yet they also embraced attitudes more typically identified with anti modernists in Romanian politics and culture Bucur is the first historian to explore the role of eugenics as a response to the challenges of nation and state building in Eastern Europe She presents a balanced assessment of the interwar eugenics movement s success and failures and identifies connections and discontinuities between the movement and the post war communist regime

**Germany's Empire in the East** David Hamlin,2017-07-03 This book puts German policy toward Romania and the German East into a global context One of the signal events of the twentieth century was Germany s effort to construct an empire in Europe modeled on the European experience outside Europe The turn to European empire resulted less from the dynamics of capitalist expansion than from a deep crisis in global political and economic order Confronted with the global economic and political power of the western allies the Germans turned to Eastern Europe to construct a dependent space tied to Germany as Central America was to the US The First World War transformed how Germans thought about international order empire and the nature of Romanians The domestic consequences of Germany s eviction from global markets authorized deep interventions in Romanian society to establish a pre eminent position for the German state inside Romania David Hamlin embeds occupation and war aims in economic concerns

**The Civic Foundations of Fascism in Europe** Dylan Riley,2019-01-15 Drawing on a Gramscian theoretical perspective and developing a systematic comparative approach The Civic Foundations of Fascism in Europe challenges the received Tocquevillian consensus on authoritarianism by arguing that fascist regimes just like mass democracies depended on well organised rather than weak and atomised civil societies In making this argument the book focuses on three crucial cases of interwar authoritarianism Italy Spain and Romania selected because they are all counterintuitive from the perspective of established explanations while usefully demonstrating the range of fascist outcomes in interwar Europe Civic Foundations argues that in all three cases fascism emerged because of the rapid development of voluntary associations combined with weakly developed political parties among the dominant class thus creating a crisis of hegemony Riley then traces the specific form that this crisis took depending on the form of civil society developed autonomous as in Italy elite dominated as in Spain or state dominated as in Romania in the nineteenth century

Tropical Beef Cattle Industry in the Western Hemisphere ,1952 **Bibliographical Bulletin** ,1953

**Fascists and Conservatives** Martin Blinkhorn,2003-09-02 What has between the radical and the conservative right in twentieth century Europe In Fascists and Conservatives thirteen distinguished authorities on the European right explore this major theme within Italy Germany Spain Portugal France Britain Austria Romania Greece adn the Nordic countries

**Totalitarianism and Political Religions Volume III** , The Vanishing Hectare Katherine Verdery,2018-05-31 In

most countries in Eastern Europe and the former Soviet Union the fall of communism opened up the possibility for individuals to acquire land Based on Katherine Verdery s extensive fieldwork between 1990 and 2001 *The Vanishing Hectare* explores the importance of land and land ownership to the people of one Transylvanian community Aurel Vlaicu Verdery traces how collectivized land was transformed into private property how land was valued what the new owners were able to do with it and what it signified to each of the different groups vying for land rights Verdery tells this story about transforming socialist property forms in a global context showing the fruitfulness of conceptualizing property as a political symbol as a complex of social relations among people and things and as a process of assigning value This book is a window on rural life after socialism but it also provides a framework for assessing the neo liberal economic policies that have prevailed elsewhere such as in Latin America Verdery shows how the trajectory of property after socialism was deeply conditioned by the forms property took in socialism itself this is in contrast to the image of a tabula rasa that governed much thinking about post socialist property reform
