Manufacturing Catastrophe Shaun S. Nichols, 2024-01-12 American economic history has traditionally been told as a narrative of industrialization and affluence collapsing into globalization and industrial decay Offering a reappraisal of this pattern Manufacturing Catastrophe traces the successive rise and fall of the whaling textile garment electronics and high tech industries in Massachusetts over the past two hundred years It shows how business labor and political leaders repeatedly mobilized the lure of crisis cheap labor low taxes and generous manufacturing subsidies to pull and push both capital and workers across the continents repeatedly remaking the pioneering industrial cities of Fall River and New Bedford Workers ranging from migrating Azorean seamen to British weavers to Quebecois farmers and capitalists including mobile manufacturers globetrotting whalers and multinational conglomerators participated in the creation of regional growth and with it American industrial ascendance Exploring the paradoxical and recurring coexistence of high unemployment and labor shortages in these cities this book explains why recovery and growth have not necessarily translated into long term prosperity In doing so it illuminates how economic catastrophe was ironically a critical ingredient in the making of America s industrial hegemony

**A History of Cornell** Morris Bishop, 2014-10-15 Cornell University is fortunate to have as its historian a man of Morris Bishop's talents and devotion As an accurate record and a work of art possessing form and personality his book at once conveys the unique character of the early university reflected in its vigorous founder its first scholarly president a brilliant and eccentric faculty the hardy student body and sometimes unfortunately its early architecture and establishes Cornell's wider significance as a case history in the development of higher education Cornell began in rebellion against the obscurantism of college education a century ago Its record claims the author makes a social and cultural history of modern America This story will undoubtedly entrance Cornellians it will also charm a wider public Dr Allan Nevins historian wrote I anticipated that this book would meet the sternest tests of scholarship insight and literary finish I find that it not only does this but that it has other high merits It shows grasp of ideas and forces It is graphic in its presentation of character and idiosyncrasy It lights up its story by a delightful play of humor felicitously expressed Its emphasis on fundamentals without pomposity or platitude is refreshing Perhaps most important of all it achieves one goal that in the history of a living university is both extremely difficult and extremely valuable it recreates the changing atmosphere of time and place It is written very plainly by a man who has known and loved Cornell and Ithaca for a long time who has steeped himself in the traditions and spirit of the institution and who possesses the enthusiasm and skill to convey his understanding of these intangibles to the reader The distinct personalities of Ezra Cornell and first president Andrew Dickson White dominate the

early chapters For a vignette of the founder see Bishop s description of his first buildings Cascadilla Morrill McGraw White Sibley At best he writes they embody the character of Ezra Cornell grim gray sturdy and economical To the English historian James Anthony Froude Mr Cornell was the most surprising and venerable object I have seen in America The first faculty chosen by President White reflected his character his idealism his faith in social emancipation by education his dislike of dogmatism confinement and inherited orthodoxy while the romantic upstate gothic architecture of such buildings as the President s house now Andrew D White Center for the Humanities Sage Chapel and Franklin Hall may be said to portray the taste and Soul of Andrew Dickson White Other memorable characters are Louis Fuertes the beloved naturalist his student Hugh Troy who once borrowed Fuertes rhinoceros foot wastebasket for illicit if hilarious purposes the more noteworthy and the more eccentric among the faculty of succeeding presidential eras and of course Napoleon the campus dog whose talent for hailing streetcars brought him home safely and alone from the Penn game The humor in A History of Cornell is at times kindly at times caustic and always illuminating **The Cornell Alumni News** ,1905 **The Chrysler Building** David Stravitz,2002-09 The Chrysler building is surely the jewel in the crown of New York City s skyline Completed in 1930 the 77 story Art Deco skyscraper quickly became the symbol of big city glamour These never before seen photos illustrate the day by day construction of this American icon 170 photos Translanguaging O.
