A-10s Over Kosovo. The Victory of Airpower Over a Fielded Army as Told by the Airmen Who Fought in Operation Allied Force ,2003 In May 1999 our 81st Expeditionary Fighter Squadron EFS was flying out of Gioia del Colle Air Base AB Italy conducting around the clock combat operations in support of Operation Allied Force OAF In the midst of this several pilots began talking about writing a book Those of us who were airpower and military history buffs noticed that the combat we were experiencing was far different from much of what we had studied After Slobodan Milosevic capitulated and OAF ended in June we took stock of what we had done and promised each other to write down our combat experiences and observations A 10s over Kosovo is the fruit of that commitment Our initial vision for this book was to let each pilot tell an anecdote or two

Taken collectively those stories would provide others with an idea of what an A 10 group had or had not accomplished. However as we wrote and exchanged ideas we decided that the book should focus primarily on the missions. Therefore in the end our book includes many personal accounts of our relocation and beddown aircraft maintenance and combat experiences we tried to describe the tactical execution of those missions and the many activities that directly or indirectly supported them. We have limited our focus to the contributions of the 40th Expeditionary Operations Group EOG comprised of personnel from the 81st EFS at Spangdahlem AB Germany and the 74th EFS from Pope Air Force Base North Carolina. While we fondly mention some of the combat contributions of our fellow A 10 warriors in the 104th EOG who operated out of Trapani AB Sicily we do not tell their complete story.

Complexity M. Mitchell Waldrop, 2019-10-01 If you liked Chaos you'll love Complexity. Waldrop creates the most exciting intellectual adventure story of the year. The Washington Post. In a rarified world of scientific research a revolution has been brewing. Its activists are not anarchists but rather Nobel Laureates in physics and economics and pony tailed graduates, mathematicians and computer scientists from all over the world. They have formed an iconoclastic think tank and their radical idea is to create a new science. Complexity. They want to know how a primordial soup of simple molecules managed to turn itself into the first living cell and what the origin of life some four billion years ago can tell us about the process of technological innovation today. This book is their story, the story of how they have tried to forge what they like to call the science of the twenty first century. Lucidly shows physicists, biologists, computer scientists and economists swapping metaphors and reveling in the sense that epochal discoveries are just around the corner. Waldrop has a special talent for relaying the exhilaration of moments of intellectual insight. The New York Times Book Review. Where I enjoyed the book was when it dove into the actual question of complexity, talking about complex systems in economics, biology, genetics, computer modeling and so on. Snippets of rare beauty here and there almost took your breath away. Medium. Waldrop provides a good grounding of what may indeed be the first flowering of a new science. Publishers Weekly.

Mostly Monsterly Tammi Sauer, 2011-08-09 Bernadette might seem like an ordinary monster, but sometimes she likes to do some very unmonsterlike things like pick flowers. And pet kittens. And bake. When the time comes for Bernadette to go to Monster Academy, she's just a teensy bit nervous. Her classmates just don't understand her. They'd rather uproot trees than sing friendship songs. And they prefer fried snail goo to Bernadette's homemade cupcakes with sprinkles. Can Bernadette find a way to make friends at school and still be herself? *The Spectator*, 1845

Bad Dog Mike Boldt, 2019-11-05 The differences between cats and dogs have never been funnier. In this hilarious story from the illustrator of *I Don't Want to Be a Frog*, a little girl really, really wants a dog but gets a cat instead. Look what I got for my birthday! A pet dog says a little girl holding a cat. Rocky doesn't listen or obey like all the other dogs. Because Rocky is a cat. And Rocky hates her leash and doesn't seem to like other dogs. Probably because Rocky is a cat. And rather than play fetch, Rocky prefers to lick between her toes. Ew, Rocky is a bad dog. BUT Rocky doesn't bark and is so cute when she sleeps in sunny spots. Maybe Rocky IS a good dog. Or you know, maybe Rocky is a cat. Cat lovers and dog lovers alike will howl with laughter at this little girl's willful insistence that her cat is a dog. The hilarious ways in which cats and dogs are different are brilliantly illuminated with each turn of the page and will leave young readers and their grown-ups giggling.
