## Running Away To School:

**The Beginner's Guide to Running Away from Home** Jennifer LaRue Huget, 2013 A child provides unique advice on how to run away from home and come back. In this guide that is also a journey inside a creative kid's imagination that special place where parents aren't allowed without permission. Full color. *Beyond Intelligence* Dona Matthews, Joanne Foster, 2014-07-11 From two internationally recognized experts in the field of gifted education comes this timely exploration of how best to nurture a child's unique gifts and set them on a path to a happily productive life in school and beyond. What is intelligence? Is it really a have or have not proposition as we've been led to believe? Are some children just destined to fall behind? Dona Matthews and Joanne Foster answer those questions with a resounding No. In *Beyond Intelligence* they demonstrate that every child has the ability to succeed with the right support and guidance. But how can parents provide that support? Matthews and Foster proceed from the assumption that knowledge is power, offering parents an information-packed guide to identifying a child's ability, fostering creativity and bolstering effort and persistence. Using case studies and anecdotes from their personal and professional experience, they explore different ways of learning, the links between creativity and intelligence, and how to best provide emotional and social supports. They offer critical advice on how to work cooperatively with schools and educators and address how to embrace failures as learning opportunities. Drawing on the latest research in brain development and education theory, *Beyond Intelligence* is a must read for today's parents and educators. *Runaway Adolescents* Brenda K. Melson, 1995 *Teach Your Children Well* Madeline Levine, PhD, 2012-07-24 Psychologist Madeline Levine, author of the New York Times bestseller *The Price of Privilege*, brings together cutting edge research and thirty years of clinical experience to explode once and for all the myth that good grades, high test scores, and college acceptances should define the parenting endgame. Parents, educators, and the media wring their hands about the plight of America's children and teens: soaring rates of emotional problems, limited coping skills, disengagement from learning, and yet there are ways to reverse these disheartening trends. *Teach Your Children Well* acknowledges that every parent wants successful children. However, until we are clearer about our core values and the parenting choices that are most likely to lead to authentic and not superficial success, we will continue to raise exhausted, externally driven, impaired children who believe they are only as good as their last performance. Real success is always an inside job, argues Levine, and is measured not by today's report card but by the people our children become fifteen or twenty years down the line. Refusing to be diverted by manufactured controversies such as tiger moms versus coddling moms, Levine confronts the real issues behind the way we push some of our kids to the breaking point while dismissing the talents and interests of many others. She shows us how to shift our focus from the excesses of hyperparenting and the unhealthy reliance on our children for status and meaning to a parenting style that concentrates on both enabling academic success as well as developing a sense of purpose, well-being, connection, and meaning in our children's lives. *Teach Your Children Well* is a call to action. And while it takes

courage to make the changes we believe in the time has come says Levine to return our overwrought families to a healthier and saner version of themselves     Runaway Youth United States. Congress. Senate. Committee on the Judiciary.
