N. M. Luiken, 2001-07-06 Mary would do anything to get away from the Selector a murderer with no conscience no remorse no flaws and no flesh Merely a phantom from her nightmares But her dreams seem so real April has a major league crush on Gavin Unfortunately he loves her cousin Bethany until he s framed for Bethany s murder Peter may be only twelve but he s got a dangerous temper the kind that seethes and burns beneath an icy exterior waiting to be unleashed Penny is eight months pregnant barely able to get around But she can t shake the feeling that she must run she must get away Her husband thinks she s crazy until their next door neighbor pulls into the driveway and takes out his rifle Four seemingly disparate lives each torn apart by violence and danger inexorably drawn together by fate and circumstance Unless they can unravel the mystery of a barely remembered nursery rhyme they ll have little chance to survive **The Willpower Instinct** Kelly

McGonigal, 2011-12-29 Based on Stanford University psychologist Kelly McGonigal s wildly popular course The Science of Willpower The Willpower Instinct is the first book to explain the science of self control and how it can be harnessed to improve our health happiness and productivity Informed by the latest research and combining cutting edge insights from psychology economics neuroscience and medicine The Willpower Instinct explains exactly what willpower is how it works and why it matters For example readers will learn Willpower is a mind body response not a virtue It is a biological function that can be improved through mindfulness exercise nutrition and sleep Willpower is not an unlimited resource Too much self control can actually be bad for your health Temptation and stress hijack the brain s systems of self control but the brain can be trained for greater willpower Guilt and shame over your setbacks lead to giving in again but self forgiveness and self compassion boost self control Giving up control is sometimes the only way to gain self control Willpower failures are contagious you can catch the desire to overspend or overeat from your friends but you can also catch self control from the right role models In the groundbreaking tradition of Getting Things Done The Willpower Instinct combines life changing prescriptive advice and complementary exercises to help readers with goals ranging from losing weight to more patient parenting less procrastination better health and greater productivity at work Alpha Instinct Katie Reus, 2023-11-28 He ghosted her years ago Ana Cordona has been a strong leader for the lupine shifters who survived after half her pack was murdered As tough as she is her pack is vulnerable to a devious neighbor who wants their land and Ana as his own So when a ghost from her past barrels back into her life promising protection it s almost enough to make Ana forget how he walked out on her before and reluctantly accept his offer to mate Now he s back Connor isn t walking away again Ana has always been

his mate something his wolf accepted long ago And the only reason he left before was for her own protection Whatever it takes he s determined not to leave her side again but danger is all around them in the form of a rival pack and a radicalized human element in town who wants to destroy all shifters If they want a chance at a future and to survive the deadly threats closing in they re going to have to learn to trust each other Unfortunately the danger is closer than they ever imagined

The Courage To Start John "The Penguin" Bingham,2013-12-03 The miracle isn t that I finished The miracle is that I had the courage to start Take your first step toward fitness and a happier healthier life Has the idea of running crossed your mind but you haven t acted on it because you don t think you have the body of a runner Have you thought about running but quit before you started because you knew that you would be breathless at the end of your driveway Well put aside those fears because you can do it John Bingham author of the popular Runner s World column The Penguin Chronicles transformed himself from an overweight couch potato who smoked into a runner who has completed eleven marathons and hundreds of road races Forget about the image of a perfect body in skintight clothes and don t worry about how fast or how far you go Bingham shows how anyone can embrace running as a life enhancing activity rather than as a competition you will never win In an entertaining blend of his own success story and practical advice Bingham provides reasonable guidelines for establishing a program of achievable goals offers tips on clothing running shoes and other equipment and explains how anyone can prepare for and run distances ranging from a few miles to marathons After all in running and in life the difference between success and failure sometimes comes down to a single step Waddle on friends

The Human Instinct Kenneth R. Miller,2019-04-23 From one of America s best known biologists a revolutionary new way of thinking about evolution that shows why in light of our origins humans are still special Edward J Larson Pulitzer Prize winning author of *Evolution* Once we had a special place in the hierarchy of life on Earth a place confirmed by the literature and traditions of every human tribe But then the theory of evolution arrived to shake the tree of human understanding to its roots To many of the most passionate advocates for Darwin s theory we are just one species among multitudes no more significant than any other Even our minds are not our own they tell us but living machines programmed for nothing but survival and reproduction In *The Human Instinct* Brown University biologist Kenneth R Miller confronts both lay and professional misconceptions about evolution Publishers Weekly starred review showing that while evolution explains how our bodies and brains were shaped that heritage does not limit or predetermine human behavior In fact Miller argues in this

highly recommended Forbes work that it is only thanks to evolution that we have the power to shape our destiny Equal parts natural science and philosophy The Human Instinct makes an absorbing lucid and engaging case that it was evolution that gave us our humanity Ursula Goodenough professor of biology at Washington University in St Louis **Don't Try This Alone** Kathy Brous,2018-02-28 Kathy was an overachiever an economist technical writer and classical singer married 27 years to her college sweetheart It looked like Kathy was fine But deep within her hid a pain from infancy so severe that a cascade of adult life crises finally triggered it And once it exploded the pain was unbearable Kathy was suffering attachment disorder a psychological condition potentially affecting almost half the US population Caused by traumatic stress in the first three years of life attachment disorder correlates with the nation s 50 percent divorce rate and widespread mental health issues Yet no one talks about its prevalence so many sufferers go untreated forced to live with their pain in silence without a hint of its cause This was certainly true for Kathy But when her initial forays into psychiatric help failed Kathy decided to treat herself It was a mistake that almost cost her life Told with candor and quirky ironic humor Don t Try This Alone will resonate with anyone suffering attachment damage It knows no boundaries it strikes those who believe they had wonderful childhoods as well as the obviously abused Yet there s hope Kathy s story also shows help and healing are out there
