

The book cover features a dark, atmospheric illustration. A large, gnarled tree trunk dominates the right side, with a thick, dark vine or branch extending from it towards the left. In the background, a misty, purple-hued landscape shows distant mountains and a large, dark, humanoid figure with glowing eyes. The sky is a deep purple, and the overall mood is mysterious and ominous.

Running With The Demon Trolltown:

Running with the Demon Terry Brooks,1998-05 In a sleepy steel mill town the ultimate battle between Good and Evil is about to begin The brewing conflict draws John Ross a Knight of the Word to town Nightmares tell him that an ancient horror is coming Caught between them is Nest Freemark a 14 year old girl with the gift Now the future of humanity depends upon a man haunted by his dreams and a gifted young girl two who will discover what survives when hope and innocence are shattered forever

In It for the Long Run Scott Ludwig,Vanessa Stroud,2012-09 Multiple races of marathon distance or greater in a month or perhaps in a weekend Several unsupported runs of 50 and 100 miles through the mountains and forests several times a year Have you ever considered running through a desert across a frozen tundra or over multiple mountain ranges Why not run for three days straight to see how many miles you can accrue Welcome to a place where no locale is too inhospitable and no distance impossible Welcome to the Darkside The Darkside Running Club established in 2002 is a place where runners meet to express their love for distance running and camaraderie by spending countless hours and miles committed to doing what they enjoy most They share a singular focus towards achieving goals far off in the distance both literally and figuratively With their dedication and commitment you may believe the Darksider to be a professional athlete or perhaps an Olympian But you would be wrong they are simply ordinary people doing extraordinary things in the sport they love running Highly competitive while never taking themselves too seriously they strive to shave off minutes or perhaps hours while adding a mile or two or twenty while pushing their limits further and further The impossible becomes possible dreams become reality They won t take no for an answer as they persevere to move beyond physical and emotional discomfort to finish what they started Excuses don t exist Their passion is contagious So reader be warned they re in it for the long run

From the Paperback edition **Searching for a Demon** Steven M. Chermak, 2002

This provocative volume thoroughly examines the ways in which the media demonized militia groups following the devastating bombing of the Alfred F. Murrah building in Oklahoma City. Using quantitative and qualitative research methods, Steven M. Chermak offers a fresh perspective on how news coverage and popular entertainment transformed a largely overlooked movement into a symbol for this new threat of domestic terrorism and ignited a national panic over the militia menace. *Searching for a Demon* describes the representation of the militia movement in the news, media, editorial cartoons, films, and television. Chermak delves into such topics as the type and amount of coverage after the blast, how social problems are constructed in the news, the motivations and biases of authoritative or celebrity figures used as news sources, and why images of militias were framed in specific ways. Chermak balances his account with an in-depth look at the philosophies, activities, and strategies of militia groups. Drawing on extensive interviews he conducted at gun shows and preparedness exhibitions, the author compares and contrasts media depictions of militia life and ideology with the firsthand accounts of members and leaders themselves, and he assesses how media coverage affected changes in the movement. In conclusion, Chermak discusses the parallels between media treatment of militias in the wake of the Oklahoma City bombing and the coverage of the al Qaeda terrorist network after the September 11, 2001 attacks. Solidly grounded in social constructionist theory, *Searching for a Demon* fills a significant gap in the literature on terrorism as well as on the roles of the news media and popular culture in reshaping the public consciousness after dramatic crimes. **Models@run.time** Nelly

Bencomo, Robert B. France, Betty H.C. Cheng, Uwe Aßmann, 2014-07-05. Traditionally, research on model-driven engineering (MDE) has mainly focused on the use of models at the design, implementation, and verification stages of development. This work has produced relatively mature techniques and tools that are currently being used in industry and academia. However, software models also have the potential to be used at runtime to monitor and verify particular aspects of runtime behavior and to implement self-capabilities, e.g., adaptation technologies used in self-healing, self-managing, self-optimizing systems. A key benefit of using models at runtime is that they can provide a richer semantic base for runtime decision making related to runtime system concerns associated with autonomic and adaptive systems. This book is one of the outcomes of the Dagstuhl Seminar 11481 on models run time, held in November/December 2011, discussing foundations, techniques, mechanisms, state of the art, research challenges, and applications for the use of runtime models. The book comprises four research roadmaps written by the original participants of the Dagstuhl Seminar over the course of two years following the seminar and seven

research papers from experts in the area The roadmap papers provide insights to key features of the use of runtime models and identify the following research challenges the need for a reference architecture uncertainty tackled by runtime models mechanisms for leveraging runtime models for self adaptive software and the use of models at runtime to address assurance for self adaptive systems
