

Rural Communities: Legacy and Change

Rural Communities: Legacy and Change examines the diversity of rural America: its unique communities, histories, and social issues. It also considers how rural communities use their increasing connectedness to creatively address modern challenges in the face of increasing globalization and climate change. Focusing on various capitals in rural areas—natural, cultural, human, social, political, financial, and built—this book provides students with an essential framework for understanding rural society based on the concepts of social science. The fourth edition of Rural Communities covers vital issues such as: racial and cultural diversity in rural areas globalization and increasing tensions over international immigration the impact of the wars in Iraq and Afghanistan the central role of communities in organizing a sustainable future and building community in the context of ubiquitous change. Chapter opening vignettes present real people and communities, illustrating the application of concepts. Updated with 2010 Census data, the fourth edition features new coverage of local food movements, climate change, the impacts of the global financial crisis, and updates on immigration as it relates to rural societies.

Rural Communities Legacy Change:

Rural Communities Study Guide Jan L. Flora, Cornelia Flora, Elizabeth Houdek, Mark Weinberg, 2024-10-31 This book examines the process of rural community development and transition exploring the ways in which history culture and policies limit change as well as the extent to which local community resources can mobilize to support efforts for community change

Worlds Apart Cynthia M. Duncan, 2014-01-01 Over five years sociologist Cynthia Duncan visited remote rural areas across the U S and conducted 350 in depth interviews with the residents to unravel the ways in which poverty is perpetuated and what can be done to alleviate the problem Illustrations

Rural Communities Cornelia Butler Flora, 2018-03-05 Communities in rural America are a complex mixture of peoples and cultures ranging from miners who have been laid off in West Virginia to Laotian immigrants relocating in Kansas to work at a beef processing plant to entrepreneurs drawing up plans for a world class ski resort in California's Sierra Nevada Rural Communities Legacy and Change uses its unique Community Capitals framework to examine how America's diverse rural communities use their various capitals natural cultural human social political financial and built to address the modern challenges that face them Each chapter opens with a case study of a community facing a particular challenge and is followed by a comprehensive discussion of sociological concepts to be applied to understanding the case This narrative topical approach makes the book accessible and engaging for undergraduate students while its integrative approach provides them with a framework for understanding rural society based on the concepts and explanations of social science This fifth edition is updated throughout with 2013 census data and features new and expanded coverage of health and health care food systems and alternatives the effects of neoliberalism and globalization on rural communities as well as an expanded resource and activity section at the end of each chapter

Children of the Land Glen H. Elder Jr., Rand D. Conger, 2014-10-01 A century ago most Americans had ties to the land Now only one in fifty is engaged in farming and little more than a fourth live in rural communities Though not new this exodus from the land represents one of the great social movements of our age and is also symptomatic of an unparalleled transformation of our society In Children of the Land the authors ask whether traditional observations about farm families strong intergenerational ties productive roles for youth in work and social leadership dedicated parents and a network of positive engagement in church school and community life apply to three hundred Iowa children who have grown up with some tie to the land The answer as this study shows is a resounding yes In spite of the hardships they faced during the agricultural crisis of the 1980s these children whose lives we follow from the seventh grade to after high school graduation proved to be remarkably successful both academically and socially A moving testament to the distinctly positive lifestyle of Iowa families with connections to the land this uplifting book also suggests important routes to success for youths in other high risk settings

Challenges for Rural America in the Twenty-First Century David L. Brown, Louis E. Swanson, 2010-11-01 The twentieth century was one of profound transformation in rural America Challenges for Rural America in the Twenty First

Century defines these changes and interprets their implications for the future of rural America Essays have been specially commissioned to examine key aspects of public policy relevant to rural America in the new century From book jacket

Rural Communities Cornelia Flora, Jan L Flora, Susan Fey, 2003-08-07 Focuses on the various problems of rural America and provides a foundation for understanding rural society *The Left Behind* Robert Wuthnow, 2019-04-30 How a fraying social fabric is fueling the outrage of rural Americans What is fueling rural America's outrage toward the federal government Why did rural Americans vote overwhelmingly for Donald Trump And is there a more nuanced explanation for the growing rural urban divide Drawing on more than a decade of research and hundreds of interviews Robert Wuthnow brings us into America's small towns farms and rural communities to paint a rich portrait of the moral order the interactions loyalties obligations and identities underpinning this critical segment of the nation Wuthnow demonstrates that to truly understand rural Americans anger their culture must be explored more fully and he shows that rural America's fury stems less from economic concerns than from the perception that Washington is distant from and yet threatening to the social fabric of small towns Moving beyond simplistic depictions of America's heartland *The Left Behind* offers a clearer picture of how this important population will influence the nation's political future *Rural Poverty in the United States* Ann R.

Tickamyer, Jennifer Sherman, Jennifer Warlick, 2017-08-22 America's rural areas have always held a disproportionate share of the nation's poorest populations *Rural Poverty in the United States* examines why What is it about the geography demography and history of rural communities that keeps them poor In a comprehensive analysis that extends from the Civil War to the present *Rural Poverty in the United States* looks at access to human and social capital food security healthcare and the environment homelessness gender roles and relations racial inequalities and immigration trends to isolate the underlying causes of persistent rural poverty Contributors to this volume incorporate approaches from multiple disciplines including sociology economics demography race and gender studies public health education criminal justice social welfare and other social science fields They take a hard look at current and past programs to alleviate rural poverty and use their failures to suggest alternatives that could improve the well being of rural Americans for years to come These essays work hard to define rural poverty's specific metrics and markers a critical step for building better policy and practice Considering gender race and immigration the book appreciates the overlooked structural and institutional dimensions of ongoing rural poverty and its larger social consequences Rural Wealth Creation John L. Pender, 2014 This book investigates the role of wealth in achieving sustainable rural economic development The authors define wealth as all assets net of liabilities that can contribute to well being and they provide examples of many forms of capital physical financial human natural social and others They propose a conceptual framework for rural wealth creation that considers how multiple forms of wealth provide opportunities for rural development and how development strategies affect the dynamics of wealth They also provide a new accounting framework for measuring wealth stocks and flows These conceptual frameworks are employed in case study

chapters on measuring rural wealth and on rural wealth creation strategies Rural Wealth Creation makes numerous contributions to research on sustainable rural development Important distinctions are drawn to help guide wealth measurement such as the difference between the wealth located within a region and the wealth owned by residents of a region and privately owned versus publicly owned wealth Case study chapters illustrate these distinctions and demonstrate how different forms of wealth can be measured Several key hypotheses are proposed about the process of rural wealth creation and these are investigated by case study chapters assessing common rural development strategies such as promoting rural energy industries and amenity based development Based on these case studies a typology of rural wealth creation strategies is proposed and an approach to mapping the potential of such strategies in different contexts is demonstrated This book will be relevant to students researchers and policy makers looking at rural community development sustainable economic development and wealth measurement

Hunter-gatherers in a Changing World Victoria Reyes-García, Aili Pyhälä, 2016-11-15 This book compiles a collection of case studies analysing drivers of and responses to change amongst contemporary hunter gatherers Contemporary hunter gatherers livelihoods are examined from perspectives ranging from historical legacy to environmental change and from changes in national economic political and legal systems to more broad scale and universal notions of globalization and acculturation Far from the commonly held romantic view that hunter gatherers continue to exist as isolated populations living a traditional lifestyle in harmony with the environment contemporary hunter gatherers like many rural communities around the world face a number of relatively new ecological and social challenges to which they are pressed to adapt Contemporary hunter gatherer societies are increasingly and rapidly being affected by Global Changes related both to biophysical Earth systems i e changes in climate biodiversity and natural resources and water availability and to social systems i e demographic transitions sedentarisation integration into the market economy and all the socio cultural change that these and other factors trigger Chapter 10 of this book is open access under a CC BY 4.0 license

Dividing Paradise Jennifer Sherman, 2021-03-23 How rural areas have become uneven proving grounds for the American Dream Late stage capitalism is trying to remake rural America in its own image and the resistance is telling Small town economies that have traditionally been based on logging mining farming and ranching now increasingly rely on tourism second home ownership and retirement migration In *Dividing Paradise* Jennifer Sherman tells the story of Paradise Valley Washington a rural community where amenity driven economic growth has resulted in a new social landscape of inequality and privilege with deep fault lines between old timers and newcomers In this complicated cultural reality class blindness allows privileged newcomers to ignore or justify their impact on these towns papering over the sentiments of anger loss and disempowerment of longtime locals Based on in depth interviews with individuals on both sides of the divide this book explores the causes and repercussions of the stark inequity that has become commonplace across the United States It exposes the mechanisms by which inequality flourishes and by which Americans have come to believe that

disparity is acceptable and deserved Sherman who is known for her work on rural America presents here a powerful case study of the ever growing tensions between those who can and those who cannot achieve their visions of the American dream

Revolutionary Power Shalanda Baker, 2021-01-14 In September 2017 Hurricane Maria hit Puerto Rico completely upending the energy grid of the small island The nearly year long power outage that followed vividly shows how the new climate reality intersects with race and access to energy The island is home to brown and black US citizens who lack the political power of those living in the continental US As the world continues to warm and storms like Maria become more commonplace it is critical that we rethink our current energy system to enable reliable locally produced and locally controlled energy without replicating the current structures of power and control In *Revolutionary Power* Shalanda Baker arms those made most vulnerable by our current energy system with the tools they need to remake the system in the service of their humanity She argues that people of color poor people and indigenous people must engage in the creation of the new energy system in order to upend the unequal power dynamics of the current system *Revolutionary Power* is a playbook for the energy transformation complete with a step by step analysis of the key energy policy areas that are ripe for intervention Baker tells the stories of those who have been left behind in our current system and those who are working to be architects of a more just system She draws from her experience as an energy justice advocate a lawyer and a queer woman of color to inspire activists working to build our new energy system Climate change will force us to rethink the way we generate and distribute energy and regulate the system But how much are we willing to change the system This unique moment in history provides an unprecedented opening for a deeper transformation of the energy system and thus an opportunity to transform society *Revolutionary Power* shows us how

Left Elsewhere Elizabeth Catte, 2019-02-19 An examination of the emerging rural left from environmentalists blocking pipeline construction to teachers on strike In *Left Elsewhere* volume editor and lead essayist Elizabeth Catte turns a skeptical eye toward purple politicians such as West Virginia Democrat Richard Ojeda who are hailed by many as the best hope for U S progressives outside the urban coasts By offering a survey of what the left actually looks like outside major urban centers Catte shows how an emerging rural left is developing new strategies that do not easily fit into typical ideas of liberals leftists and Democratic politics From environmentalists who successfully block pipeline construction to advocates for radical health care solutions such as needle exchanges to school teachers who go on strike these newly energized activists may offer a better path forward for both policy and candidates to represent the needs of poor and working Americans By engaging activists and scholars outside the coastal bubbles this collection offers insights into several overlooked areas including working class women s activism victories in new labor struggle especially in staunchly right to work states and new organizing principles in Jackson Mississippi America s most radical city that are bringing about meaningful racial and economic change on the ground Taken together the essays in *Left Elsewhere* show that today s political language is insufficient to convey what s happening in these areas and examine what if any coherent set of

Farm Fresh Broadband Christopher Ali, 2021-09-21 An analysis of the failure of U S broadband policy to solve the rural urban digital divide with a proposal for a new national rural broadband plan As much of daily life migrates online broadband high speed internet connectivity has become a necessity The widespread lack of broadband in rural America has created a stark urban rural digital divide In Farm Fresh Broadband Christopher Ali analyzes the promise and the failure of national rural broadband policy in the United States and proposes a new national broadband plan He examines how broadband policies are enacted and implemented explores business models for broadband providers surveys the technologies of rural broadband and offers case studies of broadband use in the rural Midwest Ali argues that rural broadband policy is both broken and incomplete broken because it lacks coordinated federal leadership and incomplete because it fails to recognize the important roles of communities cooperatives and local providers in broadband access For example existing policies favor large telecommunication companies crowding out smaller nimbler providers Lack of competition drives prices up rural broadband can cost 37 percent more than urban broadband The federal government subsidizes rural broadband by approximately 6 billion Where does the money go Ali proposes democratizing policy architecture for rural broadband modeling it after the wiring of rural America for electricity and telephony Subsidies should be equalized not just going to big companies The result would be a multistakeholder system guided by thoughtful public policy and funded by public and private support

Bowling Alone Robert D. Putnam, 2000 Packed with provocative information about the social and political habits of twentieth century Americans

Resilience for All Barbara Brown Wilson, 2018-05-24 In the United States people of color are disproportionately more likely to live in environments with poor air quality in close proximity to toxic waste and in locations more vulnerable to climate change and extreme weather events In many vulnerable neighborhoods structural racism and classism prevent residents from having a seat at the table when decisions are made about their community In an effort to overcome power imbalances and ensure local knowledge informs decision making a new approach to community engagement is essential In Resilience for All Barbara Brown Wilson looks at less conventional but often more effective methods to make communities more resilient She takes an in depth look at what equitable positive change through community driven design looks like in four communities East Biloxi Mississippi the Lower East Side of Manhattan the Denby neighborhood in Detroit Michigan and the Cully neighborhood in Portland Oregon These vulnerable communities have prevailed in spite of serious urban stressors such as climate change gentrification and disinvestment Wilson looks at how the lessons in the case studies and other examples might more broadly inform future practice She shows how community driven design projects in underserved neighborhoods can not only change the built world but also provide opportunities for residents to build their own capacities

Silent Spring Rachel Carson, 2002 Presents

Rachel Carson's 1962 environmental classic *Silent Spring* which identified the dangers of indiscriminate pesticide use and includes an introduction by biographer Linda Lear and an afterword by scientist Edward O Wilson

Homesteading the Plains Richard Edwards, Jacob K. Friefeld, Rebecca S. Wingo, 2017-09-01 A study that draws on a new dataset to reexamine established critical interpretations of the Homestead Act including the overall success of homesteading fraudulent claims Indian land dispossession the participation of women in homesteading and the formation of both farms and communities in the homesteading process

Unlikely Alliances Zoltán Grossman, 2017-06-20 Often when Native nations assert their treaty rights and sovereignty they are confronted with a backlash from their neighbors who are fearful of losing control of the natural resources Yet when both groups are faced with an outside threat to their common environment such as mines dams or an oil pipeline these communities have unexpectedly joined together to protect the resources Some regions of the United States with the most intense conflicts were transformed into areas with the deepest cooperation between tribes and local farmers ranchers and fishers to defend sacred land and water *Unlikely Alliances* explores this evolution from conflict to cooperation through place based case studies in the Pacific Northwest Great Basin Northern Plains and Great Lakes regions during the 1970s through the 2010s These case studies suggest that a deep love of place can begin to overcome even the bitterest divides

Crossroads of Rural Crime Alistair Harkness, Rob White, 2021-05-19 Using the notion of crossroads to provide a unique lens through which to examine the realities of rural crime *Crossroads of Rural Crime* provides an understanding of the nature of rural life and ways in which transgression manifests itself in the context of a presumed rural urban divide
