Hutton, 2001 This ambitious study provides a sweeping overview of the position of women in England France Germany and Russia USSR from 1860 1939 The book illustrates their struggles to realize their dreams and their resourcefulness in coping with often dreary hard even horrifying lives Deftly combining statistical data to underscore collective experiences and belles lettres to highlight the texture of individual women's lives the book assesses the significance of gender class nationality and religion This richly researched work traces common patterns and unique experiences in women's lives by showing how they defined themselves coped with daily life and confronted disaster with courage and resourcefulness **Continuity And Change In Rural Russia A Geographical Perspective** Gregory Ioffe, Tatyana Nefedova, 2018-02-23 Contrary to the viewpoint of many Western scholars the authors of this penetrating analysis argue that private farming is not a viable option in Russia's future Instead a convergence of Soviet style subsidiary farming with traditional and reorganized collective farms is the most plausible path of evolution in most rural areas Grigory Ioffe and Tatyana Nefedova arrive at this conclusion by a careful examination of ongoing reform efforts in Russian agriculture against the backdrop of European and Russian agrarian history and rural spatial development since the late nineteenth century The comparisons at the national level are then filled in with consideration of a number of Russian provinces oblasti and regions raiony Their research reveals the substantial negative impact of rural depopulation on the Russian agrarian economy Seventy original maps richly complement and support the narrative **Rural Russia Under the Old Régime** Geroid Tanquary Robinson, 1949 **Peasants in Russia from Serfdom to Stalin** Boris B. Lineages of the Absolutist State

Perry Anderson,2013-03-12 The political nature of Absolutism has long been a subject of controversy within historical materialism Developing considerations advanced in Passages from Antiquity to Feudalism this book situates the Absolutist states of the early modern epoch against the prior background of European feudalism It is divided into two parts The first discusses the overall structures of Absolutism as a state system in Western Europe from the Renaissance onwards It then looks in turn at the trajectory of each of the specific Absolutist states in the dominant countries of the West Spain France England and Sweden set off against the case of Italy where no major indigenous Absolutism developed The second part of the work sketches a comparative prospect of Absolutism in Eastern Europe The peculiarities as well as affinities of Eastern Absolutism as a distinct type of royal state are examined The variegated monarchies of Prussia Austria and Russia are surveyed and the lessons asked of the counter example of Poland Finally the structure of the Ottoman Empire in the Balkans is taken as an external gauge by which the singularity of Absolutism as a European phenomenon is assessed The work ends with some observations on the special position occupied by European development within universal history which draws themes from both Passages from Antiquity to Feudalism and Lineages of the Absolutist State together into a single argument within their common limits as materials for debate
