Rural Tradition In The English Novel 1900 1939:

Rural Tradition in the English Novel, 1900-39 Glen Cavaliero, 1977-06-17 *The Rural Tradition in the English Novel, 1900-1939* Glen Cavaliero, 1978 **Modernity and the English Rural Novel** Dominic Head, 2017-04-07 This book examines the persistence of the rural tradition in the English novel into the twentieth century In the shadow of metropolitan literary culture rural writing can seem to strive for a fantasy version of England with no compelling social or historical relevance Dominic Head argues that the apparent disconnection is in itself a response to modernity rather than a refusal to engage with it and that the important writers in this tradition have had a significant bearing on the trajectory of English cultural life through the twentieth century At the heart of the discussion is the English rural regional novel of the 1920s and 1930s which reveals significant points of overlap with mainstream literary culture and the legacies of modernism Rural writers refashioned the conventions of the tradition and the effects of literary nostalgia to produce the swansong of a fading genre with resonances that are still relevant today **Recharting the Thirties** Patrick J. Quinn, 1996 The aim of Recharting the Thirties is to revitalize the awareness of the reading public with regard to eighteen writers whose books have been largely ignored by publishers and scholars since their major works first appeared in the thirties The selection is not based on a political agenda but encompasses a wide and divergent range of philosophies clearly the contrasts between Empson and Upward or between Powell and Slater indicated the wide ranging vision of the period Women writers of the period have largely been marginalized and the writings of Sackville West and Burdekin for example not only present distinct feminine voices of the period but also illuminate how much good literature has been forgotten **English Culture and the Decline of the Industrial Spirit, 1850-1980** Martin J. Wiener, 2004-09-13 Drawing upon a wide array of sources Martin Wiener explores the English ambivalence to modern industrial society *The Cambridge History of the English Novel* Robert L. Caserio, Clement Hawes, 2012-01-12 The Cambridge History of the English Novel chronicles an ever changing and developing body of fiction across three centuries An interwoven narrative of the novel's progress unfolds in more than fifty chapters charting continuities and innovations of structure tracing lines of influence in terms of themes and techniques and showing how greater and lesser authors shape the genre Pushing beyond the usual period centered boundaries the History's emphasis on form reveals the range and depth the novel has achieved in English This book will be indispensable for research libraries and scholars but is accessibly written for students Authoritative bold and clear the History raises multiple useful questions for future visions of the invention and re-invention of the novel **Fiction of the New Statesman, 1913-1939** Bashir Abu-Manneh, 2011 Fiction of the New Statesman is the first study of the short stories published in the renowned British journal the New Statesman This book argues that New Statesman fiction advances a strong realist preoccupation with ordinary everyday life and shows how British domestic concerns have a strong hold on the working class and lower middle class imaginative output of this period Regional Modernisms Neal Alexander, 2013-10-14 Where did literary modernism

happen This book answers this question re evaluating the parameters of modernism in the light of recent developments in literary geography and literary history through an examination of novels poetry theatre and little magazines Essays identify and appraise the local attachments of modernist texts in particular geographical regions and question the idea of the regional in light of the alienating displacements of transnational modernity The Victorians and English Dialect Matthew Townend,2024-07-09 The Victorians and English Dialect tells the story of the Victorians discovery of English dialect and of the revaluation of local language that was brought about by the new historical philology of the nineteenth century Regional dialects came to be seen not as corrupt or pernicious but rather as venerable and precious The book examines the work of the ground breaking collectors of the 1840s and 1850s who first alerted their contemporaries to the importance of local dialect and also to the perils that threatened it with extinction Tracing the connection between dialect and literature in the flourishing of dialect poetry and the foregrounding of regional voices in Victorian fiction It goes on to explain how the antiquity of regional dialects cast light on the national past the Celts Anglo Saxons and Vikings and how dialect study was also at the heart of the discovery of local folklore and oral culture old words old customs old beliefs And it tells the story of the three great monuments of Victorian dialect study that marked the apogee of regional philology the 80 publications of the English Dialect Society 1873 96 an organization run by a committee of journalists and local historians in Manchester the nationwide survey of The Existing Phonology of English Dialects 1889 which listened in on local speech in market squares and third class railway carriages and the multi volume English Dialect Dictionary 1898 1905 which collected all the previous labours together and made an enduring record of Victorian dialect Literary Politics D. Philips,K. Shaw,2013-10-17 Literary Politics identifies and debates competing definitions of English Studies as an academic subject celebrates the diversity of contemporary literary studies and demonstrates the ways in which a range of literary texts can be understood as politically engaged sometimes in unexpected ways **Anglican Women Novelists** Judith Maltby,Alison Shell,2019-06-27 What do the novelists Charlotte Bront Charlotte M Yonge Rose Macaulay Dorothy L Sayers Barbara Pym Iris Murdoch and P D James all have in common These women and others were inspired to write fiction through their relationship with the Church of England This field defining collection of essays explores Anglicanism through their fiction and their fiction through their Anglicanism These essays by a set of distinguished contributors cover a range of literary genres from life writing and whodunnits through social comedy children s books and supernatural fiction Spanning writers from the nineteenth to the twenty first century they testify both to the developments in Anglicanism over the past two centuries and the changing roles of women within the Church of England and wider society **Spirits of Community** K. D. M. Snell,2016-06-16 Concern about the decline of community and the theme of community spirit are internationally widespread in the modern world The English past has featured many representations of declining community expressed by those who lamented its loss in quite different periods and in diverse genres This book analyses how community spirit and the passing of community have been

described in the past whether for good or ill with an eye to modern issues such as the so called loneliness epidemic or the social consequences of alternative structures of community It does this through examination of authors such as Thomas Hardy James Wentworth Day Adrian Bell and H E Bates by appraising detective fiction writers analysing parish magazines considering the letter writing of the parish poor in the 18th and 19th centuries and through the depictions of realist landscape painters such as George Morland K D M Snell addresses modern social concerns showing how many current preoccupations had earlier precedents In presenting past representations of declining communities and the way these affected individuals of very different political persuasions the book draws out lessons and examples from the past about what community has meant hitherto setting into context modern predicaments and judgements about spirits of community today

Romantic Generations Lene Østermark-Johansen, 2003 Unlike the first two volumes of *ANGLES* on the English Speaking World this special issue does not originate in a set of conference papers The idea of compiling a collection of essays on Romanticism emerged from the unusually strong concentration on Romantic studies among the graduate students of the English Department a couple of years ago This volume places their work in the context of distinguished international scholars of greater seniority scholars who have become academic contacts through conferences and assessment committees and whose contributions I am very pleased to be able to include alongside the works of local contributors The Romantic generations of the title of this volume thus strike a number of different chords generations of scholars in Romantic studies conventional divisions of Romantic poets into first second and possibly third generations the self generative aspect of Romanticism the awareness of poetic reputation and the image and afterlife of the poet The collection spans just over a hundred years from the 1780s to the 1890s and while not in any way attempting to define Romanticism or raise issues of periodization the volume allows for the continued existence of Romantic features right until the end of the nineteenth century Poetry looms large in this issue of *ANGLES* apart from Ian Duncan s essay on Hume Scott and the Rise of Fiction all the other essays are in some way concerned with the Romantic poet and his poetry The Romantic poet is thus represented as a collector and editor of ballads as a political radical and printmaker as other to himself essentially ignorant of the process of poetic composition as a rival and collaborator with other poets or as a poet long dead the subject of successive generations of poetic lament The boundaries between poetry and the visual arts is explored in a couple of the essays indeed the rivalry

between portraiture and literature pervades no less than three of the contributions and no matter whether the subject of inquiry is the image of the poet or the image of the poet's mother the Romantic poet displays a high degree of self-consciousness with respect to both literary and visual media Romantic generations generate both selves and others in poetry and portraiture
