The Peasantry in the Twentieth Century

Rural Revolution In France The Peasantry In The Twentieth Century

Gordon Wright

Rural Revolution In France The Peasantry In The Twentieth Century:

Rural Revolution in France, 1964 **Rural Revolution in France** Gordon Wright (historicus), 1964 *Rural Revolution in France* Gordon Wright, 1965 *Rural revolution in France* María Victoria López-Cordón, 1964 **Peasant and French** James R. Lehning, 1995-04-28 Describes the negotiation of French national identity during the nineteenth century in terms of the relationship between the French and their rural cultures **France in the Twentieth Century** Philip A. Ouston, 1972-06-18 **The Imperfect Peasant Economy** Gregor Dallas, 2004-06-07 The story of the survival of a rural household economy of small holders in nineteenth century France **Rural Communism in France, 1920-1939** Laird Boswell, 1998 Drawing on extensive interviews with thirty four surviving Communist militants and an analysis of voter behavior this book focuses on the Party's persistent strength during the interwar period in such rural strongholds as Limousin and Dordogne **Fraternity Among the French Peasantry** Alan R. H. Baker, 2004-03-18 The individualism of the French peasantry during the nineteenth century has frequently been asserted as one of its most striking characteristics In this 1999 book Alan Baker challenges this orthodox view and demonstrates the extent to which peasants continued with traditional and developed new forms of collective action He examines representations of the peasantry and discusses the discourse of fraternity in nineteenth century France in general before considering specifically the historical development geographical diffusion and changing functions of fraternal voluntary associations in Loir et Cher between 1815 and 1914 Alan Baker focuses principally upon associations aimed at reducing risk and uncertainty and upon associations intended to provide agricultural protection A wide range of new voluntary associations were established in Loir et Cher and indeed throughout rural France during the nineteenth century Their historical geography throws new light upon the sociability upon the changing mentalities of French peasants and upon the role of fraternal associations in their struggle for survival Peasant Wars of the Twentieth Century Eric R. Wolf, 1999 Peasant Wars of the Twentieth Century provides a good short course in the major popular revolutions of our century in Russia Mexico China Algeria Cuba and Viet Nam not from the perspective of governments or parties or leaders but from the perspective of the peasant peoples whose lives and ways of living were destroyed by the depredations of the imperial powers including American imperial power New York Times Book Review Eric Wolf's study of the six great peasant based revolutions of the century demonstrates a mastery of his field and the methods required to negotiate it that evokes respect and admiration In six crisp essays and a brilliant conclusion he extends our understanding of the nature of peasant reactions to social change appreciably by his skill in isolating and analyzing those factors which by a magnification of the anthropologist's techniques can be shown to be crucial in linking local grievances and protest to larger movements of political transformation American Political Science Review An intellectual tour de force Comparative Politics **The Government and Politics of France** Dorothy Pickles, 2023-02-24 First published in 1973 The Government and Politics of France Volume Two provides a comprehensive overview of French political history from 1958

1973 Dorothy Pickles writes with her characteristic elegance and the major themes are fully discussed and clearly related to their roots in earlier periods and to their consequences in later ones The book covers the Algerian war and its aftermath the notion of participation educational reform economic problems regionalism the changing nature of Gaullism and in the field of foreign policy attitudes of European Community relations with the Atlantic powers and France's attempts at achieving a world role This book is a must read for students of French politics political science political institutions and European politics

French Peasant Fascism Robert O. Paxton, 1997-10-23 French Peasant Fascism is the first account of the Greenshirts a militant right wing peasant movement in 1930s France that sought to transform the Republic into an authoritarian agrarian state Author Robert Paxton examines the Greenshirts in five case studies throwing new light on French rural society and institutions during the Depression and on the emergence of a new rural leadership of authentic farmers Paxton points out that fascism remained weak in the French countryside because the French state protected landowners more effectively than did those of Weimar Germany and Italy and because French rural notables were so firmly embedded in social and economic power Although the Greenshirts disappeared with the Third Republic they left a double legacy a tradition of peasant direct action which is still exercised today and the idea of France as a peasant nation whose identity and virtues rest upon the persistence of a large peasant sector That self image continues to influence French policy choices today long after the social structure on which it rested has disappeared

The Land of France 1815-1914 Hugh D. Clout, 2017-07-06 This book first published in 1983 attempts to examine the rural change in France between 1815 and 1914 with a sustained and explicit spatial approach This volume represents a position in which space and time are meshed in an analysis of the forces underlying land use and other changes that have contributed much to the making of the French landscape In this book the shift from the rural economy towards the urban markets in this period is examined thoroughly using the vast statistical record of cadastral surveys and agricultural enquiries as well as contemporary reports and agricultural journals The detailed mapping of historical data is a major feature of the treatment As a scholarly account of a major topic in historical geography The Land of France 1815 1914 should appear to all students and researchers with interests in historical and rural geography and economic history and especially those specialising in European studies

The Assassination of Jacques Lemaigre Dubreuil William A. Hoisington, Jr., 2004-11-10 This is a political biography of the French industrialist and political activist Jacques Lemaigre Dubreuil 1894 1955 president of the Taxpayers Federation in the 1930s entrepreneur in wartime France and Africa organizer of the Group of Five in Algiers which prepared for the Allied landings in North Africa November 1942 inventor of General Henri Giraud as a candidate for the leadership of liberated North and West Africa negotiator of the Murphy Giraud Agreements and the Anfa Memorandum with President Roosevelt 1942 and 1943 political writer on the postwar future of France in Morocco and the owner of the liberal newspaper Maroc Presse He was assassinated in Casablanca by French counter terrorists in June 1955 a turning point event which pushed the French government to grant

independence to Morocco Was he a rabble rouser a demagogue a betrayer of French interests at home and overseas or a reformer a patriot a hero of the anti German resistance and a champion of Franco Moroccan solidarity *Crisis and Commitment* Sonia Alland, Alexander Alland Jr., 2014-04-23 Using ethnographic field data from the Larzac plateau in Southern France Alexander and Sonia Alland document one of the longest and most successful popular protests in modern French history the Larzac movement More than a record of events the book describes the transformation from the early 1970s of rural defiance into a symbol of left wing action for France and the world This revised edition examines the activities of the movement since 1995 including the demonstrations at the Seattle meeting of the World Trade Organisation the great hamburger war against McDonalds and the broadening of the movement to embrace struggles elsewhere such as the anti nuclear protests in French Polynesia Particular attention is paid to the charismatic Jose Bove who has become the figurehead and focus of the campaign during this period This account will be of particular interest to anthropologists and historians of contemporary France and Europe as well as students of protest and social movements and of contemporary politics in general

National Regeneration in Vichy France Debbie Lackerstein, 2016-04-22 The creators of the Vichy regime did not intend merely to shield France from the worst effects of military defeat and occupation rather the leaders of Vichy were inspired by a will to regenerate France to establish an authoritarian new order that would repair the degenerative effects of parliamentary democracy and liberal society Their plan to effect this change took the form of a far reaching programme they called the National Revolution This is the first study of the National Revolution as the expression of Vichy's ideology and aims It reveals the variety and complexity of both right wing and other strands of French thought in the context of the turbulent years of the 1930s when Vichy's history really begins and under the Occupation when internal rivalries and divisions as well as the pressures of war doomed Vichy's programme of national regeneration The book is structured around a consideration of the rhetoric of right wing ideology and such key catchwords as decadence action order realism and new man and shows how these phrases only served to mask the political and ideological incoherence of the Vichy government

Origins of the French Welfare State Paul V. Dutton, 2002-05-16 This is the first comprehensive analysis of public and private welfare in France available in English or French which offers a deeply researched explanation of how France's welfare state came to be and why the French are so attached to it The author argues that France simultaneously pursued two different paths toward universal social protection Family welfare embraced an industrial model in which class distinctions and employer control predominated By contrast protection against the risks of illness disability maternity and old age followed a mutual aid model of welfare The book examines a remarkably broad cast of actors that includes workers unions employers mutual leaders the parliamentary elite haut fonctionnaires doctors pronatalists women's organizations both social Catholic and feminist and diverse peasant organisations It also traces foreign influences on French social reform particularly from Germany's former territories in Alsace Lorraine and Britain's Beveridge Plan

The Road to a United Europe Ann-Christina L. Knudsen, 2009

Papers from the Second International RICHIE Conference held in Copenhagen Denmark in December 2006 **The Transition to Capitalism in Modern France** Xavier Lafrance, Stephen Miller, 2023-11-03 Historians since the 1960s argue that the French economy performed as well as did any economy in Europe during the eighteenth and nineteenth centuries thanks to the opportunities for profit available on the market especially the large consumer market in Paris Whatever economic weaknesses existed did not stem from the social structure but from exogenous forces such as wars the lack of natural resources or slow demographic growth This book challenges the foregoing consensus by showing that the French economy performed poorly relative to its rivals because of noncapitalist social relations Specifically peasants and artisans controlled lands and workshops in autonomous communities and did not have to improve labor productivity to survive Merchants and manufacturers cornered markets instead of being subject to the market's competitive imperatives Thus distinctive features of capitalism primitive accumulation the dispossession of peasants and artisans and the competitive obligation faced by merchants and manufacturers to reinvest profits in order to keep the profits did not prevail until the state imposed them in a process lasting for a century after the 1850s For this reason it was not until the 1960s that France caught up to and in some cases surpassed its economic rivals The Resurgence of the Radical Right in France Gabriel Goodliffe, 2012-02-13 Recounts the resurgence of significant political movements of the Radical Right in France since the end of the nineteenth century
