Deadly Spin Wendell

Potter, 2010-11-09 That's how Wendell Potter introduced himself to a Senate committee in June 2009. He proceeded to explain how insurance companies make promises they have no intention of keeping, how they flout regulations designed to protect consumers, and how they make it nearly impossible to understand information that the public needs. Potter quit his high paid job as head of public relations at a major insurance corporation because he could no longer abide the routine practices of the insurance industry policies that amounted to a death sentence for thousands of Americans every year. In *Deadly Spin*, Potter takes readers behind the scenes of the insurance industry to show how a huge chunk of our absurd healthcare expenditures actually bankrolls a propaganda campaign and lobbying effort focused on protecting one thing: profits. With the unique vantage of both a whistleblower and a high powered former insider, Potter moves beyond the healthcare crisis to show how public relations works and how it has come to play a massive, often insidious role in our political process and our lives. This important and timely book tells Potter's remarkable personal story, but its larger goal is to explain how people like Potter, before his change of heart, can get the public to think and act in ways that benefit big corporations and the Wall Street money managers who own them.

What's the Matter with Kansas? Thomas Frank, 2007-04-01 One of our most insightful social observers cracks the great political mystery of our time: how conservatism, once a marker of class privilege, became the creed of millions of ordinary Americans. With his acclaimed wit and acuity, Thomas Frank turns his eye on what he calls the thirty year backlash, the populist revolt against a supposedly liberal establishment. The high point of that backlash is the Republican Party's success in building the most unnatural of alliances between blue collar Midwesterners and Wall Street business interests, workers and bosses, populists and right wingers. In asking what's the matter with Kansas, how a place famous for its radicalism became one of the most conservative states in the union, Frank, a native Kansan and onetime Republican, seeks to answer some broader American riddles: Why do so many of us vote against our economic interests? Where's the outrage at corporate manipulators? And whatever happened to middle American progressivism? The questions are urgent as well as provocative. Frank answers them by examining pop conservatism, the bestsellers, the radio talk shows, the vicious political combat, and showing how our long culture wars have left us with an electorate far more concerned with their leaders' values and down home qualities than with their stands on hard questions of policy. A brilliant analysis and funny to boot. *What's the Matter with Kansas* presents a critical assessment of who we are while telling a remarkable story of how a group of frat boys, lawyers, and CEOs came to convince a nation that they spoke on behalf of the People. Franken, 2004-07-27 The #1 New York Times bestseller by Senator Al Franken, author of *Giant of the Senate*. Al Franken, one of our savviest satirists, has been studying the rhetoric of the Right. He has listened to their cries of slander, bias, and even treason. He has examined the GOP's policies of squandering our surplus, ravaging the environment, and alienating the rest of

the world He s even watched Fox News A lot And in this fair and balanced report Al bravely and candidly exposes them all for what they are liars Lying lying liars Al destroys the liberal media bias myth by doing what his targets seem incapable of getting his facts straight Using the Right s own words against them he takes on the pundits the politicians and the issues in the most talked about book of the year Timely provocative unfailingly honest and always funny Lies sticks it to the most right wing administration in memory and to the right wing media hacks who do its bidding **Too Dumb to Fail** Matt K.

Technology and increasing levels of education have exposed people to more information than ever before These societal gains however have also helped fuel a surge in narcissistic and misguided intellectual egalitarianism that has crippled informed debates on any number of issues Today everyone knows everything with only a quick trip through WebMD or Wikipedia average citizens believe themselves to be on an equal intellectual footing with doctors and diplomats All voices even the most ridiculous demand to be taken with equal seriousness and any claim to the contrary is dismissed as undemocratic elitism Tom Nichols The Death of Expertise shows how this rejection of experts has occurred the openness of the internet the emergence of a customer satisfaction model in higher education and the transformation of the news industry into a 24 hour entertainment machine among other reasons Paradoxically the increasingly democratic dissemination of information rather than producing an educated public has instead created an army of ill informed and angry citizens who denounce intellectual achievement When ordinary citizens believe that no one knows more than anyone else democratic institutions themselves are in danger of falling either to populism or to technocracy or in the worst case a combination of both An update to the 2017breakout hit the paperback edition of The Death of Expertise provides a new foreword to cover the alarming exacerbation of these trends in the aftermath of Donald Trump s election Judging from events on the ground since it first published The Death of Expertise issues a warning about the stability and survival of modern democracy in the Information Age that is even more important today [Down Girl](#) Kate Manne,2018 Down Girl is a broad original and far
