Russia and the Idea of Europe Iver B. Neumann, 2013-02-01 The end of the Soviet system and the transition to the market in Russia coupled with the inexorable rise of nationalism has brought to the fore the centuries old debate about Russia's relationship with Europe In *Russia and the Idea of Europe* Iver Neumann discusses whether the tensions between self referencing romantic nationalist views and Europe orientated liberal views can ever be resolved Drawing on a wide range of Russian sources Neumann outlines the argument as it has unfolded over the last two hundred years showing how Russia is caught between the attraction of an economically politically and socially more developed Europe and the attraction of being able to play a European style imperial role in less developed Asia Neumann argues that the process of delineating a European other from the Russian self is an active form of Russian identity formation The Russian debate about Europe is also a debate about what Russia is and should be

Constructing the Limits of Europe Rumena Filipova, 2022-04-30 This comparative study harks back to the revolutionary year of 1989 and asks two critical questions about the resulting reconfiguration of Europe in the aftermath of the collapse of communism Why did Central and East European states display such divergent outcomes of their socio political transitions Why did three of those states Poland Bulgaria and Russia differ so starkly in terms of the pace and extent of their integration into Europe Rumena Filipova argues that Poland s Bulgaria s and Russia s dominating conceptions of national identity have principally shaped these countries foreign policy behavior after 1989 Such an explanation of these three nations diverging degrees of Europeanization stands in contrast to institutionalist rationalist interest based accounts of democratic transition and international integration in post communist Europe She thereby makes a case for the need to include ideational factors into the study of International Relations and demonstrates that identities are not easily malleable and may not be as fluid as often assumed She proposes a theoretical middle ground argument that calls for qualified post positivism as an integrated perspective that combines positivist and post positivist orientations in the study of IR

National Identity and Foreign Policy Ilya Prizel, 1998-08-13 This book is based on the premise that the foreign policy of any country is heavily influenced by a society s evolving notions of itself Applying his analysis to Russia Poland and Ukraine the author argues that national identity is an ever changing concept influenced by internal and external events and by the manipulation of a polity s collective memory The interaction of the narrative of a society and its foreign policy is therefore paramount This is especially the case in East Central Europe where political institutions are weak and social coherence remains subject to the vagaries of the concept of nationhood Ilya Prizel s study will be of interest to students of nationalism as well as of foreign policy and politics in East Central Europe

Russia's Identity in International Relations Ray Taras, 2012 Bringing together leading scholars from Russia and outside experts on Russia this book looks at the difference between the image Russia has of itself and the way it is viewed in the West It discusses the historical cultural and political foundations that these images are built upon and goes on to analyse how contested these images are and their impact on Russian identity The book questions whether differing images explain fractiousness in Western Russian relations in the new century or whether distinct imaginary solitudes offer a better platform from which to negotiate differences Providing an innovative comparative study of contemporary images of the country and their impact the book is a significant contribution to studies of globalisation and international relations

Russia and EU in the New World Disorder Aziz Elmuradov, 2022-11-04 This book makes an original contribution to Russia EU literature by analyzing constructions and transformations of the Russian Self in relation to the European Other It provides an orientation towards understanding Russian foreign policy discourse under Putin and offers a thorough analysis of the actions of key policy actors to ground the Russian discourse ideationally historically psychologically and politico sociologically Providing a rich analysis of how Russian foreign

policy toward the EU evolved from cooperation to competition and ultimately conflict the author argues that to understand these changes and continuities we must explore concepts of sovereignty and balance of power central to the drafting of Russian foreign policy Primarily situated in the fields of International Relations and Russian foreign policy this book will also be of interest to scholars in the fields of Foreign Policy Analysis Post Soviet Studies Eurasian Studies Historical International Relations Critical Security Studies Political Sociology and Political Psychology **Post-Cold War Identity Politics** Marko Lehti, David J Smith, 2004-11-23 During the past decade northern Europe has started to assume an identity of its own Categories of East and West have become blurred challenging as well the idea of what it means to be Nordic Post Cold War Identity Politics maps this process in Scandinavia Looking at projects designed to help regional development in the Nordic countries it assesses whether a new way of defining Northernness is emerging The book highlights the existence of co existing and to some extent competing region building projects in northern Europe It demonstrates how they are all efforts by existing nations to redefine their role in Europe at a time of change and points to how they might develop in the future

Russia and the World Natasha Kuhrt, 2014-10-14 This volume brings together analyses of key domestic foreign and security policy issues during the Putin and Medvedev administrations Indeed the chapters demonstrate the extent to which domestic and foreign policy issues are inextricably linked in particular in the domain of security whether hard or soft Internal debates regarding Russia's trajectory including issues of national identity economic modernisation human rights and democracy continue to be at the forefront of concern Moreover these debates are intimately connected to Russia's self image and the image therefore that it wishes to project in the wider world The debates focus on Russia as energy superpower as one of the BRICS as an Eurasian landbridge or a window on the Asia Pacific Such debates are a constant reminder of the uncertainty surrounding Russia's future path This book expresses these uncertainties which range from the role of nuclear weapons and energy to critiques of Russia's approach to concepts such as sovereignty and self determination the fight against terrorism insurgency and the role of Islam within and without Russia may have left the chaos of the Yeltsin years behind but as we move into Putin 3.0 the concerns of these chapters will remain critical both to Russia itself and to Russia's relations with the wider world This book was published as a special issue of *Europe Asia Studies* **Europe, Russia and the Liberal World Order** Timofei Bordachev, 2021-08-30 This book analyses Russia Europe EU relations by exploring their practical essence and conceptualizing them in terms of the main categories of international relations research It argues that the liberal world order established in Cold War days whereby international relations are underpinned by a global balance of power and a highly institutionalized framework of international relations thereby balancing power and morality continued after the Cold War with high hopes in the early 1990s for a new order of security and cooperation for all Europe including Russia It goes on to show how the liberal world order has broken down one manifestation of this being the new conflict between Russia and Europe in recent years a conflict resulting from the failure of European countries the EU to acknowledge

the actual balance of military economic and political power the lack of limits on the policy of European countries in terms of infringing on Russia's interests and Russia's consequent revision after 1999 of its policy of co-operation Overall the book provides huge insight into the nature of Europe Russia relations

Russian-European Relations in the Balkans and Black Sea Region Vsevolod Samokhvalov, 2017-06-19 This book provides a detailed analysis of Russia's great power identity and the role of Europe in forming this identity Great power identity implies an expansionist foreign policy and yet this does not explain all the complexities of the Russian state For instance it cannot explain why Russia decided to take over Crimea but provided only limited support to break away regions in Eastern Ukraine Moreover if Russia is in geo economic competition with Europe why has no serious conflict erupted between Moscow and other post Soviet states which developed closer ties with the EU Finally why does Putin maintain relationships with the European countries that imposed tough economic sanctions on Russia Vsevolod Samokhvalov provides a more nuanced understanding of Russia's great power identity by drawing on his experience in regional diplomacy and research and applying a constructivist methodology The book will appeal to students and scholars of international relations in particular Russian European relations Russian foreign policy and Russian studies
