**Henri Lauzière**

## **Russia And The Near Abroad:**

*The Near Abroad* Zbigniew Wojnowski, 2017-01-01 In *The Near Abroad* Zbigniew Wojnowski traces how Soviet Ukrainian identities developed in dialogue and confrontation with the USSR's neighbours in Eastern Europe **Global Studies:**

**Russia and the Near Abroad** Grigory Ioffe, 2010-05-19 Our Global Studies Series provides students with comprehensive background and current information shaping regional cultures and countries of the world today Each volume features country report essays and maps as well as relevant articles from world wide publications Visit [www.mhcl.com/globalstudies](http://www.mhcl.com/globalstudies) for more information

**Russia and its Near Neighbours** M. Freire, R. Kanet, 2012-05-15 Russia has recently re emerged as the dominant political economic and military actor in former Soviet nations Kanet and Freire bring together a stellar cast of contributors to consider Russia's recent return as a major regional and international actor and its likely future policy toward its neighbours

**The Rebuilding of Greater Russia** Bertil Nygren, 2007-10-26 Describes strategies used by President Putin from 2000 onwards to recreate Greater Russia It shows the subtlety of the means of control through creating economic energy political and military dependencies Provides comprehensive coverage of Russia's relations to the former Soviet territories of the CIS countries including Ukraine and Putin's role in the events surrounding the Orange Revolution Belarus and the attempts to form a union the Caucasus and Russia's role in the various conflicts Moldova including the Transdniester conflict and Central Asia

**Russian Foreign Policy in the 21st Century** R. Kanet, 2010-10-29 After the collapse of the Soviet Union expectations were high that a new world order was emerging in which Russia and the other former Soviet republics would join the Western community of nations That has not occurred This volume explains the reasons for this failure and assesses likely future developments in that relationship

**Russia and the Near Abroad** John Tomikel, Bonnie Henderson, 1996 The most comprehensive look at modern Russia available Covers all major cities industries economics landscapes transportation 8 1 2 X 11 224 pages over 100 illustrations Also includes chapters on the former Soviet republics their moves to democracy a market economy Guaranteed Allegheny Press Elgin PA 16413 814 664 8504

**Managing Conflict in the Former Soviet Union** Aleksei Arbatov, Aleksei Georgievich Arbatov, 1997 This collaborative effort by Russian and American scholars documents Russian policy toward ethno national conflict in its near abroad

American policy toward these conflicts and the attempts of international organizations to prevent and resolve them Case studies consider the causes dynamics and prospects of conflicts in Latvia the Crimea the Transdniester region of Moldova Georgia Kazakhstan and the region of North Ossetia and Ingushetia

*Russia, the West, and the Ukraine Crisis* Elias Götz, 2018-12-07 This book examines the causes and consequences of the Ukraine crisis with a special focus on Russia's relations with the West Towards that end it brings together international relations scholars and area specialists Issues covered include the evolution of EU Russia and US Russia relations the role of strategic culture and ontological insecurities in the formation of Russian foreign policy the role of hybrid warfare in Russian military policy the geopolitical drivers of

Russia's Ukraine policy and a discussion of the decision making dynamics that led to Russia's intervention in eastern Ukraine. The contributors employ different theoretical approaches and offer partly complementary and partly competing analyses. In so doing, this book seeks to stimulate dialogue between different positions and advance our understanding of a topic that will shape the European security order for many years to come. This book was originally published as a special issue of *Contemporary Politics*.

**Russia and the Former Soviet Space** Vasile Rotaru, Miruna Troncotă, 2017. This book represents a fresh contribution to the contemporary academic debate regarding the determinants of current Russian foreign policy assertiveness. More precisely, it addresses the ways in which perceived security threats have been used by Russia to legitimize its interventions in the former Soviet Space. It is argued here that the security dimension has been successfully used by the Kremlin for the domestic justification of its aggressive actions in neighbouring countries and that the narrative of the besieged fortress was applied to both the war in Georgia and the intervention in Ukraine. Bringing together a number of authors from Russia, Ukraine, Georgia, Armenia, Moldova, Romania, Germany, and the UK, the volume presents both local, regional, and Western European perspectives on the various events analysed here. It will appeal to a wide range of students and professors specialized in Russia and the former Soviet space, in the fields of international relations, international law, foreign policy analysis, and security studies, as well as to think tanks and policy makers.

**The Making of Salafism** Henri Lauzière, 2015-11-17. Some Islamic scholars hold that Salafism is an innovative and rationalist effort at Islamic reform that emerged in the late nineteenth century but gradually disappeared in the mid twentieth. Others argue Salafism is an anti-innovative and antirationalist movement of Islamic purism that dates back to the medieval period yet persists today. Though they contradict each other, both narratives are considered authoritative, making it hard for outsiders to grasp the history of the ideology and its core beliefs. Introducing a third empirically based genealogy, *The Making of Salafism* understands the concept as a recent phenomenon projected back onto the past and sees its purist evolution as a direct result of decolonization. Henri Lauzière builds his history on the transnational networks of Taqi al-Din al-Hilali (1894-1987), a Moroccan Salafi who, with his associates, participated in the development of Salafism as both a term and a movement. Traveling from Rabat to Mecca, from Calcutta to Berlin, al-Hilali interacted with high-profile Salafi scholars and activists who eventually abandoned Islamic modernism in favor of a more purist approach to Islam. Today, Salafis tend to claim a monopoly on religious truth and freely confront other Muslims on theological and legal issues. Lauzière's pathbreaking history recognizes the social forces behind this purist turn, uncovering the popular origins of what has become a global phenomenon.

*Russian Nationalism, Foreign Policy and Identity Debates in Putin's Russia* Marlene, 2014-04-15. The contributors to this book discuss the new conjunctions that have emerged between foreign policy events and politicized expressions of Russian nationalism since 2005. The 2008 war with Georgia, as well as conflicts with Ukraine and other East European countries, over the memory of the Soviet Union, and the Russian interpretation of the 2005 French riots have all contributed to reinforcing narratives of

Russia as a fortress surrounded by aggressive forces in the West and CIS This narrative has found support not only in state structures but also within the larger public It has been especially salient for some nationalist youth movements including both pro Kremlin organizations such as Nashi and extra systemic groups such as those of the skinheads These various actors each have their own specific agendas they employ different modes of public action and receive unequal recognition from other segments of society Yet many of them expose a reading of certain foreign policy events which is roughly similar to that of various state structures These and related phenomena are analyzed interpreted and contextualized in papers by Luke March Igor Torbakov Jussi Lassila Marl ne Laruelle and Lukasz Jurczynszyn

**Hard Diplomacy and Soft Coercion** James Sherr, 2013-10-11 During the Cold War Soviet influence and Leninist ideology were inseparable But the collapse of both systems threw Russian influence into limbo In this book James Sherr draws on his in depth study of the country over many years to explain and analyse the factors that have brought Russian influence back into play Today Tsarist Soviet and contemporary approaches combine in creative and discordant ways The result is a policy based on a mixture of strategy improvisation and habit The novelty of this policy and its apparent successes pose possible dangers for Russia s neighbours the West and Russia itself

**Economic Policy Making and Business Culture** David A. Dyker, 2012 This book addresses one of the fundamental problems in Russian society and in Russia s relations with the rest of the world Why do Russians tend to react differently from us in given diplomatic or business situations Why do they find the notion of a contract difficult to grasp Why do they seem hostile to the principle of the level playing field How do they see Russia s position within the globalised economy In order to probe these issues the author begins with a historical analysis looking at the pattern of political and economic development since Tsarist times always asking the questions What is unique to Russia in all this and which unique features tend to recur in different periods In seeking to illuminate the interface between Russia and the world the author also examines Russia s attitude to itself and to its own resources natural and human to land as an agricultural resource and later oil and gas and to people as cheap labour and as highly trained scientific personnel This book is firmly based on scholarly sources in English French and Russian but aims to go beyond the academic audience to address the concerns of people encountering Russians and Russian organizations in their everyday lives

*Russia's European Agenda and the Baltic States* Janina Šleivyte, 2009-12-16 Russian foreign policy has become an increasing concern in 21st century together with Russia s relations with its former Soviet neighbours but its relations with the Baltic States are particularly sensitive given the Baltic membership of NATO and the EU and Russia s increasingly fractious relations with those institutions This book discusses the development of Russia s approach to the new security architecture in Europe and assesses the prospects for a more active engagement of Russia in the Baltic Sea region and Europe as a whole The book considers the full range of issues affecting security including energy economic relations the special position of Russia s Kaliningrad enclave and Russia s special interest in the Russian minorities in the former Soviet Baltic states The evolution of

Russian Baltic relations from 1990-2008 is set in the more general context of Russia's European agenda looking into the role and place of the Baltic States in this agenda. It provides a comparative analysis of the European agenda in of Russia's foreign policy under Boris Yeltsin, Vladimir Putin and Dmitry Medvedev and concludes that despite the replacement of the former Cold War stand-off with a more positive climate and a complicated array of bilateral and multilateral contacts much more still needs to be done to engage Russia fully with the new Europe.

**Extending Russia** James Dobbins, Raphael S.

Cohen, Nathan Chandler, Bryan Frederick, Edward Geist, Paul DeLuca, Forrest E. Morgan, Howard J. Shatz, Brent Williams, 2019-04-11 As the U.S. National Defense Strategy recognizes the United States is currently locked in a great power competition with Russia. This report seeks to define areas where the United States can compete to its own advantage. It examines Russian vulnerabilities and anxieties, analyzes potential policy options to exploit them and assesses the associated benefits, costs and risks as well as the likelihood of successful implementation.

**The Limits of Partnership** Angela E.

Stent, 2015-03-29 A gripping account of U.S.-Russian relations since the end of the Soviet Union. *The Limits of Partnership* is a riveting narrative about U.S.-Russian relations from the Soviet collapse through the Ukraine crisis and the difficult challenges ahead. It reflects the unique perspective of an insider who is also recognized as a leading expert on this troubled relationship. American presidents have repeatedly attempted to forge a strong and productive partnership only to be held hostage to the deep mistrust born of the Cold War. For the United States, Russia remains a priority because of its nuclear weapons arsenal, its strategic location bordering Europe and Asia and its ability to support or thwart American interests. Why has it been so difficult to move the relationship forward? What are the prospects for doing so in the future? Is the effort doomed to fail again and again? What are the risks of a new Cold War? Angela Stent served as an adviser on Russia under Bill Clinton and George W. Bush and maintains dialogues with key policymakers in both countries. Here she argues that the same contentious issues—terrorism, missile defense, Iran nuclear proliferation, Afghanistan, the former Soviet space, the greater Middle East—have been in every president's inbox. Democrat and Republican alike since the collapse of the USSR, Stent vividly describes how Clinton and Bush sought inroads with Russia and staked much on their personal ties to Boris Yeltsin and Vladimir Putin, only to leave office with relations at a low point and how Barack Obama managed to restore ties only to see them undermined by a Putin regime resentful of American dominance and determined to restore Russia's great power status. *The Limits of Partnership* calls for a fundamental reassessment of the principles and practices that drive U.S.-Russian relations and offers a path forward to meet the urgent challenges facing both countries. This edition includes a new chapter in which Stent provides her insights about dramatic recent developments in U.S.-Russian relations, particularly the annexation of Crimea, war in Ukraine and the end of the Obama Reset.

*A Closer Look at Russia and Its Influence in the World* Constatinos Filis, 2019 In 1939 Churchill described Russia as a riddle wrapped in a mystery inside an enigma, distilling what an uncomprehending West feels as the otherness of an eccentric power. Many Westerners have but a shallow understanding of Russia. They project onto it

characteristics that are not necessarily consistent with reality or they see only part of the picture adopting unexamined stereotypical views As a result we often assess Russia on the basis of Western standards over or underestimating it and failing to fully understand the trends and dynamics that supervene within the country to influence its foreign policy President Putin may not have definitively altered the face of his country but he did regain for it a standing and prestige disproportionate to its actual capabilities reviving national pride There are opportunities as well as risks for Moscow in the post Western world of multiple uncertainties Putin the pragmatist while not in a position to proffer an alluring alternative to Western ideology exploits every opportunity to call into question the foundations of the existing system which was shaped in the wake of the Second World War and further consolidated after the dissolution of the USSR and serves first and foremost the interests of the U S and its European allies Russia is seen by many in the West as a revisionist power but it carefully chooses when where and how it acts to further its revisionist agenda It is manifestly more assertive in its near abroad the post Soviet space but is becoming more confident in medium abroad regions like the Middle East where it is filling the gap left by Washington s reluctance to intervene Moscow has even begun to leave its mark on the African region Today s Russia seems more comfortable communicating with authoritarian regimes worldwide and capitalises on many Westerners disappointment in and outrage at the policies of the Western establishment Likewise populists and extremists e g Le Pen in France Salvini in Italy Orban in Hungary have reached an understanding with Moscow but we can t tell despite the obvious indications to what extent they coordinate their actions with the Kremlin At the same time Russia s economy while not in straits as dire as some would have us believe is not in a position to support Moscow s ambitions and certainly needs to be decentralised and become less dependent on exports of raw materials investing in innovation and new technologies with a focus that goes beyond the defense sector In the current volume we try to shed light on many factors that will define Russia s fate and its relations with the world Twenty six authors from diverse backgrounds and nine countries provide insightful answers to the following questions What is the identity of Putin s Russia How does the country s economy influence its international position What are the main vectors of its foreign policy and to what extent is this policy shaped by an underlying ideology What soft power hard power and hybrid tools does it employ and what role does energy play How are its relations with key global and regional players the U S the EU Germany China Egypt shaped And how and why is it asserting itself on the regional level in the post Soviet space the Middle East and the Southeast Europe

**Russians Abroad** Greta Nachtailer Slobin, 2013 The book presents an array of perspectives on the vivid cultural and literary politics that marked the period immediately after the October Revolution of 1917 when Russian writers had to relocate to Berlin and Paris under harsh conditions Divided amongst themselves and uncertain about the political and artistic directions of life in the diaspora these writers carried on two simultaneous literary dialogues with the emerging Soviet Union and with the dizzying world of European modernism that surrounded them in the West Chapters address generational differences literary polemics and

experimentation the heritage of pre October Russian modernism and the fate of individual writers and critics offering a sweeping view of how exiles created a literary diaspora The discussion moves beyond Russian studies to contribute to today's broad cross cultural study of the creative side of political and cultural displacement

**At the Edge of the Nation** Paul B. Richardson, 2020-08-31 Debates over the remote and beguiling Southern Kuril Islands have revealed a kaleidoscope of divergent and contradictory ideas convictions and beliefs on what constitutes the national identity of post Soviet Russia Forming part of an archipelago stretching from Kamchatka to Hokkaido administered by Russia but claimed by Japan these disputed islands offer new perspectives on the ways in which territorial visions of the nation are refracted inverted and remade in a myriad of different ways At the Edge of the Nation provides a unique account of how the Southern Kurils have shaped the parameters of the Russian state and framed debates on the politics of identity in the post Soviet era By shifting the debate beyond a proliferation of Eurocentric and Moscow focused writings Paul B Richardson reveals broad alternatives and possibilities for Russian identity in Asia After the dissolution of the Soviet Union in 1991 when Russia was suffering the fragmentation of empire and a sudden decline in its international standing these disputed islands became symbolic of a much larger debate on self image nationalism national space and Russia's place in world politics When viewed through the prism of the Southern Kurils ideas associated with the border state and nation become destabilized uncovering new insights into state society relations in modern Russia At the Edge of the Nation explores how disparate groups of political elites have attempted to use these islands to negotiate enduring tensions within Russia's identity and traces how the destiny of these isolated yet evocative islands became irrecoverably bound to the destiny of Russia itself

**Routledge Handbook of the Caucasus** Galina M. Yemelianova, Laurence Broers, 2020 The Routledge Handbook of the Caucasus offers an integrated multidisciplinary overview of the historical ethno linguistic cultural socio economic and political complexities of the Caucasus Covering both the North and South Caucasus the book gathers together leading Western Caucasian and Russian scholars of the region from different disciplines in the humanities and social sciences Following a thorough introduction by the Editors the handbook is divided into six parts which combine thematic and chronological principles Place Peoples and Culture Political History The Contemporary Caucasus Politics Economics and Societies Conflict and Political Violence The Caucasus in the Wider World Societal and Cultural Dynamics This handbook will be an essential reference work for scholars interested in Russian and Eastern European Studies Eurasian history and politics and Religious and Islamic Studies
