Russia, America, the Bomb and the Fall of Western Europe Brian May, 2024-01-01 First published in 1984 Russia America the Bomb and the Fall of Western Europe offers a dual approach to unilateral nuclear disarmament While it systematically analyzes and rejects stock arguments for retaining nuclear weapons from the supposed threat of Soviet invasion to fears of Finlandization and the loss of mineral resources it examines the issue within the context of Western Europe's historic fall This is described with the help from Arnold Toynbee Plato and Marx Brian May argues that if West European civilization is to survive it must find the moral strength to stand on its own feet make its own accommodation with the USSR and abandon dependence on its offshoot on the other side of the Atlantic whose policies could lead to its destruction This book will be of interest to students of geopolitics international relations security studies and history Russia's Cold War Jonathan Haslam, 2011-01-01 moved decisively beyond his control and instead of managed decline he faced imminent collapse Book Jacket *Historical Dictionary of European Organizations* Derek W.
